Crop Report

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with Crop conditions in all sections of the districts mentioned. Daily threshing returns are favourable both as to yield and grade over large areas in the Prairie Provinces, but harvesting operations have been held up by heavy rains for the greater part of the past week. Some sprouting in stocks has taken place and several days of clear cool weather are necessary before the threshing can be resumed generally. In Quebec crops in general are satisfactory with average yields. In Ontario harvesting has again been interrupted by heavy rains which have done further damage to late grains. All other crops are doing well but dry weather is needed. In the

Maritime Provinces weather conditions generally have been good and crops are making satisfactory progress. In British Columbia favourable weather continues and grain and apple crops are averaging up well. Details follow: ALBERTA, WESTERN AND NORTHEASTERN AREAS—Heavy and continuous rains prevailed last week. The weather cleared Friday but rain resumed on Tuesday which has further delayed harvesting. Cutting in most localities is 50 per cent completed; a few points report 75 per cent and some only 25 per cent. Little threshing has been done. Uncut grain is lodging and some sprouting in stocks is reported. ALBERTA SOUTH-EASTERN AREA—A small crop practically all cut. SASKATCHEWAN NORTHERN AREA—Cutting will soon be completed. Threshing was interrupted by wet weather last week but if the weather improves it should be general this week. Early returns show satisfactory yield. Additional harvesting lands are needed. SASKATCHEWAN SOUTHERN AREA—Wheat is nearly all cut. Threshing was suspended from one to four days last week due to wet weather but is again under way in most districts. Many points report a shortage of labour. MANTOBA—Early threshing returns were quite favorable as to yield and grade but operations have been at a standstill for a week due to heavy rains. Wheat and oats are reported sprouting. PROVINCE OF QUEBEC. Cutting of oats is now general except in Lake St. John district and a good average yield is expected. Corn is backward but of good quality. Root crops are all making satisfactory progress. Potatoes are plentiful except in a few localities where they have been damaged by drought. Apples are of good quality and a good average yield is anticipated. Pastures are in good condition. Tobacco is now being cut. PROVINCE OF ONTARIO. Threshing of barley and oats is fairly general. The yield and out of crop is very spotty, in some districts being almost a total failure while other sections report good yield and sample. Generally the yield will be below average and the quality poor. Corn is late but has picked up well and while some districts report damage by borer the crop will be average.

Roots and vegetables, excepting turnips, have made excellent progress and are good crops. Potatoes will not now be as heavy as expected owing to excessive moisture. Cutting of tobacco is under way and a splendid crop is promised. Pastures are unusually good. MARITIME PROVINCES. In all parts potatoes are promising well especially as to quality. In New Brunswick oats may be short and there has been some frost damage. In Nova Scotia more rain is required. Apples are colouring well and the quality is improving but the crop will be short. In Prince Edward Island all crop conditions are good. PROVINCE OF BRITISH COLUMBIA. Threshing of a good average crop of grain is almost completed. Potatoes are below average. Tomatoes are slightly below average but of good quality. Apple picking is in full swing. The former estimate of an average crop is maintained. Macintosh Reds are of good size and quality colouring improves with cool nights. Later varieties have benefited by recent rains. A good crop of hops is now being picked. Pastures have improved.

Livestock Market (Canadian Press) MONTREAL, Sept. 15.—Dominion livestock—There were but 22 cattle, 13 lambs, 185 hogs and 26 calves received at the two yards for today's market. Trading was confined altogether to small stock and prices were unchanged from yesterday. Veal calves sold from \$10.00 to \$11.00 and the best lambs offered were quoted around \$12.25 to \$12.50 from ewes and wethers and \$1.00 less for bucks. The bulk of the hogs were light in weight and sales were on the basis of \$12.75 for thick smooths and \$12.00 to \$12.25 for lights.

FURTHER PARTICULARS.—A terrible tragedy occurred at Lennox Island on Tuesday morning when John Henry Mitchell, who for several months has been mentally deranged, struck and killed his father Anthony Mitchell with an axe. Just a week previous the insane man had attacked and brutally beaten another Indian, Stephen Tony. At that time efforts were made to have him confined but those who made the attempt. It is understood, were told that if he did anything further that he would be incarcerated. The above tragedy is the result of that unfortunate delay. Mr. Mitchell was struck as he was milking a cow. His son had just got out of bed and without saying a word he rushed to the wood-pile seized the axe and made toward his father. The elder Mitchell begged him not to strike him but he paid no heed, hit him a crushing blow on the head, then fled towards the woods. Mr. Mitchell whose head had been split open was conscious for a time but lived only an hour. Later at 2 p. m. the insane man came out of the woods where he had been surrounded and quietly gave himself up. Sheriff Wright and posse arrived shortly after and took him to Summerside, N.

COLONEL RAMSAY FATALLY INJURED

MONTREAL, Sept. 15.—Colonel C. W. P. Ramsay, commander of the Canadian Overseas Construction Corps during the Great War, was fatally injured in the East Stangridgely highway, one mile and a half north of Bedford, yesterday, when he lost control of his automobile and was ditched. The automobile turned over and Colonel Ramsay was pinned beneath suffering severe internal injuries. He was removed to a nearby gasoline station, where he died an hour later. An inquest was held by Dr. Homer E. Mitchell, of Bedford, coroner of the District, and a verdict of accidental death was returned.

The Justice had both to pronounce sentence on criminals and perform marriage ceremonies. One day he slipped a bit. Oh, of course, everything was all right until he said: "Do you take this man to be your husband?" The bride gave the usual answer. "And you, accused," said the Justice, turning to the willing bridegroom, "what have you to say in your defence?"

Cheer up. When all the neighbors have bought automobiles you will be able to get a seat in the street cars. Newlywed (two days after elopement): "Hadden't we better write your folks and let them know where we are, sweetheart?" Bride (absently): "Yes, I can't imagine they haven't written, though. They knew this was to be our first stop!"
