...EAST POINT FARMERS' INSTITUTE.—A meeting of the above society was held in Kingsboro Hall on Monday night, April 5th. A goodly number of the members were present. Mrs. S. S. Robertson presided, and quite an amount of business was put through. Among other things the society decided on the purchasing of a pure bred Ayrshire bull to be placed in the above section. Now that the Federal Government and Farmers' Institute has placed pure bred animals in all sections of Lot 47, it would be well that farmers owning scrub bulls, keep them from running at large. If not attended to, the Act governing such animals will have to be enforced, and if so may cause the owners much trouble and expense.—(Examiner and Patriot please copy.)

CHICAGO, June 9.—Uncertainty over the developments in regard to the relations of the United States with Germany had a bad effect on the market today. Wheat prices declined 3-4. Corn showed a decline of 1/2 and oats 7/8 to 1 1/2 per bushel.

WINNIPEG, June 9.—Poor demand for wheat either in futures or cash, with the improved weather conditions, caused a decline of 2c to 4 1/2c per bushel. Oats also dropped about 2c. The total inspection on Tuesday were 172 cars as against 442 last year, and in sight today were only 70 cars. (70.)

TORONTO, June 9.—The grain market continues to decline sharply. Cash prices were weak and lower at all points. There is practically no local milling demand for the present.

MONTREAL, June 9.—There was no improvement in the foreign demand for wheat today and business continues dull, but there is a steady inquiry for oats. The market for local oats was steady owing to the fact that supplies are now somewhat limited.

There is no change in the condition of the market for baled hay, prices being well maintained. HOGS: According to advices received from Toronto yesterday the tone of the market for live hogs was stronger at an advance of 5c to 10c per 100 lbs. The market for dressed hogs was unchanged.

DAIRY PRODUCE: (The receipt of butter today were 235 packages as compared with 447 for the same day last week. There was no new development in the condition of the market today, the feeling being steady under a fair demand for local account. The receipts of cheese today were 28,892 boxes as against 16,230 for the same day last week. A weaker feeling has prevailed today in the local market and prices declined 1/2 to 1c per lb.)

EGGS: Although supplies of eggs coming forward continues fairly liberal, of which the quality is somewhat inferior to the earlier stock owing to the warmer weather prevailing, the tone of the market remains about steady and prices show no important change.

Great Britain has a fleet of more than a thousand aeroplanes now ready for the great aerial raid in the history of the world, according to Henry Woodhouse, chairman of the committee on dirigibles of the Aero Club of America. Mr. Woodhouse said today he had this information from trustworthy sources.

"This number is now ready for an active campaign," he said. "I have authority for the statement that British makers of a new type of plans are confident of their ability to approach a three mile a minute speed. With this air fleet England hopes to crush her enemies."

Mr. Woodhouse believes the war so far has proven the ineffectiveness of the Zeppelin.

SUSPICIOUS \$10,000 FIRE IN MONTREAL.

MONTREAL, June 9.—The police are investigating a fire which occurred last evening in the plant of the Valleyfield Iron Works on Wellington street, when \$10,000 damage was done. Shortly after the firemen had entered the building where the blaze was, there was an explosion, which injured a fireman and a German employee named Frank Krahl. Both were taken to hospitals and will recover. The origin of the fire is unknown, and the cause of the explosion is as yet unexplained.

This, coupled with the fact that about 100 bags of a mysterious grey powder were discovered, the nature of which is unknown, and that the manager, Emil Stubner, is a German, has caused the police department to institute a rigid investigation.

CHICAGO: The weakness which has characterized the wheat market for some days now still continues to be the main feature of the trade, and prices to-day scored another decline of 1 1/2c to 2c., but the tone of the market for corn was stronger, and prices closed 1 1/2c. per bushel higher, and oats were up 1/2c. to 3/4c.

TORONTO: Cash wheat prices at Bay ports are 4c. to 5c. lower, and business is very dull. Ontario No. 2 winter is quoted at \$1.16 to \$1.18 outside, according to location, and Manitoba No. 1 northern at \$1.27.

WINNIPEG: Wheat prices opened weak in tone, falling away to lower points than ever on poor demand, and general good crop conditions in the north of the American Continent. There was practically nothing doing in barley and flax, while oats were in good demand.

MONTREAL: The export trade in wheat here continues very dull, there being no demand whatever from foreign buyers for supplies. There was no further change in the condition of the market for coarse grains today, prices being steady at the recent decline noted.

A firm feeling prevails in the market for baled hay owing to the fact that supplies are not excessive, for which there is a steady demand from local buyers and a fair trade is passing in No. 1 hay at \$21 to \$21.50. No. 2 hay at \$19 to \$19.50.

The tone of the market for hogs remains steady, and the indications are that there will be no important changes either way for the balance of the week, as supplies coming forward are ample to fill all requirements. Sales of abattoir fresh-killed Ontario stock were made at \$13.75 to \$14, and Manitoba hogs at \$13.50 to \$13.75 per 100 lbs.

Eggs: The receipts of eggs to-day were 1,900 cases as against 4,452 for the same day last week. A feature of the trade is the increased demand from English buyers for supplies, and as the prices have been more in line of late, a fair amount of business is being done, especially so by western packers and the total shipments this week will be fairly large.

Comfort and Cure of Baby's Skin Troubles

DR. CHASE'S OINTMENT CURED W. HEN BABY'S BODY WAS COVERED WITH DISTRESSING ECZEMA.

If every mother could try Dr. Chase's Ointment for the chafing, skin irritation and resulting eczema which tortures so many babies, what a blessing it would be for the little ones.

This letter will give you an idea of what a wonderful work this Ointment is doing in the way of bringing comfort to children who are so unfortunate as to contract eczema. It is so easy for this trouble to develop from chafing or irritation caused by the clothing, and so difficult to get it cured, that Dr. Chase's Ointment is appreciated when once its healing qualities are known.

Mr. M. L. Duclos, Postmaster, Duganville, N. B., writes: "I believe it is my duty to recommend Dr. Chase's Ointment as a cure for eczema. My baby was seized with eczema and his face and arms were covered with this terrible disease. After trying all sorts of ointments the disease continued to spread until it covered the entire body. When the itching became bad he would scratch himself and was sometimes found in the cradle covered with blood. Hearing about Dr. Chase's Ointment I bought two boxes and before this was all used the child was cured. That was a year ago, and there has been no trace of eczema since. I recommend Dr. Chase's Ointment to all who suffer from eczema as being the best treatment in the world for itching skin diseases."

Dr. Chase's Ointment is for sale by all dealers at 60 cents a box. It is a good idea to keep it at hand along with the bath soap to be used for roughness of the skin, chafing or irritation. Prevention is so much better than cure. Powders clog the pores, but Dr. Chase's Ointment cleanses the pores and thereby keeps the skin soft and smooth. Sample box free if you mention this paper. Man—That's tough! There's only one man in town who can identify me and I owe him twenty.

AN OUTDOOR SPORT

"Why do you beat rugs with a golf club?"

"It looks more like I was doing this for exercise, and not under compulsion."

OTTAWA, Ont., June 12.—Activities by the emissaries of Germany among the munition factories of the United States, where attempts have been made to start labor troubles are being followed closely on this side of the line. Three hundred factories in Canada are engaged in making shells or ammunition, and it is thought quite possible that the Germans may attempt to start something here along the lines of what they are endeavoring in the United States. Precautions are being taken to guard against such labor troubles in Canada.
