Dorothy Dix Says—

"HE-SHES" MAY PIONEER NEW WORLD WITH ADDED FREEDOMS

Superstition That Sex Determined Person's Abilities Swept Aside By War Work

A war once said that we would never have real democracy in this country until we had a woman for president. When this prophetic utterance was made, that day seemed a long way off...

For the war has broken down the fence which has kept each sex penned in its little corral and as its own jobs, and now there is neither male nor female so far as opportunities and occupations are concerned...

This evolution of a man from being definitely a man and looking like a man and doing a man's work and of a woman being unmistakably a woman and recognizable at sight as such had sticking to her knitting...

TALENTS LONG UNAPPRECIATED

For there is no telling how much unhappiness has been caused, nor how much talent wasted by the age-old superstition that a person's sex determined his or her intelligence and abilities...

Every man, for instance, is supposed to be born a go-getter, with a genius for making money, while it has been generally believed that there was something the matter with women's heads that made them unable to comprehend any financial proposition...

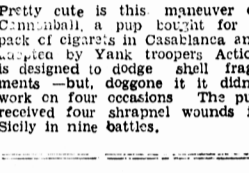

Yet thousands of such men have wives who are veritable wizards of finance. They have the business sense their husbands lack. They have the vision that see a good thing before it really materializes...

IMPATIENT WOMEN WITH INEPT HUSBANDS

There are innumerable miserable, poor homes on whose doors the bill-collectors are always knocking and in which there are worn, broken, discarded, rusty, men who cannot provide comfort for their families...

Many a household would be happier, more peaceful and more prosperous if the husband and wife could swap places and he went into the kitchen and she into an office. Heretofore there have been two barriers in the way...

So perhaps the "he-she" is going to be a pioneer in the new world, and that "Mama" pants and Papa's kitchen apron will be the badge of freedom for them both.

THE COOK'S CORNER

CHOCOLATE COCOA CRUMB PUDDING

Three and one-half cups milk, 6 tablespoons chocolate cocoa, 2 cups dried cake-crumbs, 1-2 teaspoon salt, 2 eggs, 1-2 teaspoon sugar, Heat milk, add crumbs, and let stand until soft...

BLACKHEADS

Blackheads go quickly by a simple method that dissolves them. Get two ounces of peroxide powder from your druggist, apply with a hot, wet cloth gently over the blackheads...

Home Service

A Morning Smile

Flanagan: "If I put all my money in the savings bank, I've thought it'll be safe?" Mulligan: "Share it will."

Cranberry Sauce

Because there is more cranberry sauce sold at this time of the year than at any other, War-time Prices and Trade Board has issued a reminder that the 1943 production of cranberries has been packed in 12 fluid ounce containers...

MILK BOTTLES SCARCE

Because of scarcity of milk bottles, milk in Canada is sometimes supplied in bottles, but the customer is required to empty the milk and return the bottles to the delivery boy.

RENEWS A CHAIR

New slip-covers! What exciting visions of freshness, of crisp fabrics and alluring colors this thought conjures up. No longer mere dust covers for protecting fine upholstery, today's slip-covers are so decoratively important...

Small chairs may achieve great charm if they are colorful with slip-covers, as the one sketched above. This odd chair has been made colorful and attractive by adding padded covers to the backs and seat.

Our 32-page booklet gives step-by-step directions and diagrams for making slip-covers for chairs, sofas and other sundry seats, also for automobile seats, if you will be using your car during this year of gas rationing. It also has suggestions for choice of appropriate materials.

Send 15 cents in coins for your copy of How To Make Slip-Covers to the Charlottetown Guardian Home Service. Address. Be sure to write plainly your name, address and the name of booklet.

A Job Only You Can Do

Price Control Questions And Answers

Questions and Answers on Price Control will appear in The Guardian as a regular feature each day. The questions are those which have reached the Wartime Prices and Trade Board from housewives in this region. The answers are provided by the Board members.

Q. Is tomato juice rationed? A. No, tomato juice is classified as a canned vegetable, and although in limited supply, is not rationed.

Q. As a farmer, may I slaughter for my own use? A. Yes, but when you slaughter for your own use, or that of a neighbour farmer, you must apply to the local ration board and register.

Q. May I make butter for my own consumption? A. Yes, you may as long as you register at the local ration board, and report the same monthly.

Q. Is there any chance of spring-tilled mattresses returning to the market as separate articles? A. Improvement in the metal supply situation has permitted their manufacture.

Q. Do the restrictions which have been applied to printed matter also apply to mimeographed material? A. Yes, since their principal object is to save paper.

Q. As the operator of a boarding house who is not a quota user under the ration regulations, am I obliged to observe "meatless Tuesdays"? A. No. That regulation does not apply to boarding houses which are not quota users.

Q. We are rather short of sugar in consequence of having fed a number of guests at Christmas time. Shouldn't they have brought sugar or their ration books with them? A. There is no obligation resting upon guests to follow such a course but it is not unreasonable to suggest that they should do so on future visits.

Q. Are personal portraits made by professional photographers for a price subject to price control? A. Yes, each photographer is obliged to abide by his ceiling prices.

Needlecraft For The Home

PRACTICAL JUMPER

Reap rich rewards with this jumper as it is practical as well as pretty. The Vee neckline shows off your bust to nice advantage and the side buttoning adds interest.

No. 3630 in size 16 requires for the blouse, 2 yds 39-inch fabric, jumper, 2 yds 34-inch fabric.

ENDS IN CORNWALL

Land's End, group of granite cliffs in Cornwall, is the most western point in the British Isles.

Relieve Painful Distress of ACUTE CATARRH

MORE AND MORE sufferers from acute catarrh are discovering the grand relief that comes with a few drops of Vicks Vapo-rinol. It soothes away distress, relieves stiffness... brings relief breathing comfort!

3-PURPOSE MEDICINE... Vapo-rinol is so successful because it does three important things at once: (1) shrinks swollen membranes of the nose, (2) clears out nasal passages and (3) soothes irritation. Many catarrh sufferers say it's the best relief they've ever found. Try it!

Living & Leisure The Woman's Realm

THESE GIFTS TAKE AWAY

These are the gifts I ask of thee— Spirit serene, Strength for the daily task, Courage to face the road, Good cheer to help me bear the traveller's load.

ODD LENGTHS OF WALLPAPER USEFUL

Odd lengths of wallpaper of all sizes such as are left over after the decorating is done, can be put to good use. Long strips of wallpaper make excellent decoration for screens, so handy in these days of more crowded and confined living.

Let us remember throughout all this new year that is now dawning that no act is ever really insignificant. Acts underlie facts and though they go, the fruitage of acts remains.

KNITTED DICKEYS REPLACE MOURSE

Fabric dickey that take the place of blouses have been popular for several years now. They save needed goods, they're quick when you dress, easy to wash, and easy to press. Well, the latest to gain favor with conservation-minded people is the sweater-dickey.

A single ball of wool will knit up into a smart wool dickey that fits snugly inside the front of a suit coat and looks exactly like a sweater. You needn't even buy a new ball of wool. You'll find enough wool for your purpose in almost any discarded wool garment lying around the house.

Remember last summer, how we complained of the heat? Many evenings the temperature was only around 65, yet people complained that it was too hot to sleep. That same 65 degrees doesn't feel so hot these days—humidity makes the difference.

Knit the front of the dickey in a straight piece about nine inches square inside the neck. Use the knitting of course, with ribbing for the waistband. A sweater pattern will be of help in casting off at shoulders and finishing the neckline in whatever style you prefer.
