STURDY BABY (Canadian Press) VANCOUVER, B. C., Jan. 28—A child that weighed only ten ounces at birth has attained at three months a weight of seven and one quarter pounds and medical men claim that in nearly every respect it is a normal baby.

Morning Stock Letter

Wall Street Mirror Says: Special to Johnston & Ward

NEW YORK, Jan. 28—Today's stock market will be governed to a large extent by the fourth quarter earnings of the steel corporations, which were reported yesterday. Taken as a whole, the earnings are decidedly disappointing but compared with an official estimate made public last week, they are not so much more favorable by the financial community. Nevertheless it is the firm belief of leading market experts that profits should be taken on trading lines of long steel today and tomorrow.

The Minister Of Agriculture Will Hold Conference

TORONTO, Ont., Jan. 28.—Hon. T. L. Kennedy, Minister of Agriculture yesterday issued invitations to Sir Henry Thornton, and E. W. Beatty, K. C., presidents of the Canadian National Railways and the Canadian Pacific Railway respectively and to two representatives of the Toronto Fruit Merchants and Commissioner Merchants to attend a conference in his office in the Parliament Buildings on Feb. 6.

Canada Right Out For Business

AUCKLAND, N. Z., Jan. 28.—New Zealand should follow the example of Canada in upping up European trade, according to Andre Nihotte, consul-general for Belgium in Wellington, who recently returned from an extended tour of Europe.

Letter Delayed 22 Years

LONDON, Jan. 28.—There is a family, and in 1925 he died. The lady who rejected him died two years later. A few days ago Thomas Winshull, Jr., received a mystifying letter. It was addressed to Thomas Winshull, was signed "Lily" and expressed regret at a hasty refusal of an offer of marriage. In the prim and proper language of the earlier years of this century the note suggested that Thomas should "call again."

PHILANTHROPIST

SASKATOON, Jan. 28.—The ample warm heart of Alex. Kamm is sorely touched by the plight of Saskatoon's unemployed men. Several years ago he came to Canada from Australia and made good. He is now a laborer and his savings amounted to \$500. Yesterday he interviewed Commissioner Andrew Leslie at the City Hall. From a pocket he drew a pack of bills and offered it to the official for the unemployment. The roll contained \$500. He wanted to see the city's jobless in a happier state. He urged that unemployed single men be housed in hotels and fed at restaurants. That was why he offered his savings. Commissioner Leslie hastily assured Kamm that Saskatoon was quite able to look after its own unemployed. Still, he had to stuff the \$500 in Kamm's pocket as the benefactor of unemployed turned to leave.

PHILANTHROPIST

CAIRO, Egypt, Jan. 28.—The tomb of an ancient queen, containing magnificent treasures, was bared today at the Ra Ouer tomb enclosure by Professor Selim Hassan, noted Egyptologist. The queen has not been identified, but the tomb consists of two chambers, one containing her sarcophagus and the other furniture and such objects as toilet requisites in pure gold. Alabaster figures and a bed also were found, the design of the latter resembling some modern European styles. The Ra Ouer tomb (Ra Ouer was a high priest of Nekheh, goddess of Upper Egypt), is near the Sphinx.

PHILANTHROPIST

MELBOURNE, Australia, Jan. 28.—The full arbitration court here today ordered a reduction of ten per cent, in basic wages for the year, dating from February 2, as a measure of national emergency to combat the economic depression. The judgment affects the Victorian South Australia and Tasmanian railway services, the Australian Workers' Union, with the exception of shearers, whose wages were reduced recently, timber workers, clerks, engineers, tramway employees, carpenters, painters, dockers, the merchant service guild and others. The commonwealth statistician at Canberra today described the cut as the first step toward a reduction of \$30,000,000 in national salary costs. He said, that another heavy reduction in the basic wage would occur almost immediately after the cost of living figures for the past three months was issued. The further reduction, he expected would be between four and five shillings week by week.

PHILANTHROPIST

LONDON, Jan. 28.—The departure of Sir John Anderson, permanent secretary of the home office, to the south of France to-day provoked rumors that he had gone there to interview Viscount Byng of Vimy, the chief commissioner of Metropolitan police. Lord Byng, who is in ill-health, has expressed a desire to retire. The government, it is reported, is unwilling to release him. The position is extremely difficult for Sir Charles Roys, deputy commissioner, died suddenly two weeks ago. To fill both commissions simultaneously would be a matter of extreme complexity.

PHILANTHROPIST

NEW YORK, Jan. 27.—Detectives received a call today from Frank Yitkos, 43, who said that his wife had been killed by hold-up men who invaded their home. The officers hurried to the place and as they entered a parrot in the room shouted, "Get the axe! Get the axe!" Under the bed the detectives found the body of Mrs. Yitkos and a blood-stained axe, with which she had been slain. Yitkos was arrested on a homicide charge after neighbors told the officers they had heard the couple in an argument.

PHILANTHROPIST

HAMILTON, Bermuda, Jan. 28.—The Prince of Wales and his brother, Prince George, will be taken for a buggy ride as one of the principal items on their entertainment when they arrive here January 27. Despite the privileges of royalty, they will not violate the tradition that keeps the Bermudians "Sumner Isles," as the old travelers know them, free from the encroachment of the automobile. The two royal travelers, enroute on their "salesmen's" visit to South America, will break their journey here for eight hours when their liner, the Oropea, puts in at Hamilton. Their visit, brief as it will be, has already proved a boon for dressmakers for one item on the program is a garden party that calls for the latest in the way of frocks. A round of golf, a government luncheon and a carriage ride will complete the list of royal activities. From Hamilton, the Oropea will head for Havana, Cuba, but the princes will not disembark there at Kingston, Jamaica, where they will arrive February 2, they will for the first time drop their nominal insignia and attend an official function. There the Prince of Wales will unveil the memorial clock tower in Kingston parish church, erected in honor of the Jamaicans who fell during the Great War.

Stork Nesting In Mars' This Season, Report Shows

alone can boast of a decrease in the death rate, the drop being 7 percent. In contrast to this the mortality has increased 9 percent in Quebec, 8 percent in Ontario, 15 percent in the prairie provinces, and 17 percent in British Columbia. With the exception of Quebec and British Columbia, where increases for the month were 7 and 13 1/2 percent respectively, the number of marriages has dropped throughout the Dominion. The Maritimes show an 11 percent decrease. The figures published show a total for the city of Halifax during the month of December of 126 births, 76 deaths and 67 marriages. Glace Bay shows 53 births, 29 deaths and 11 marriages; Sydney, 78 births, 21 deaths and 6 marriages.

Birth Rate Climbs In East While Old Father Time Does Duty Elsewhere.

OTTAWA, Jan. 28.—The stork has made the Maritimes her nesting place this winter. A 20 percent increase in the birth rate, the largest increase recorded in any part of Canada, is chalked up for the Maritime provinces for the month of December, according to figures released today by the Dominion bureau of statistics at Ottawa. Simultaneously, Old Father Time has deserted the Maritimes and seeks harvest for his scythe further West. The deaths registered for the month show that the Maritime provinces

MRS. P. A. MacDONALD

After a very short illness there passed away on Saturday 24th inst. at her home in Tignish the soul of Mrs. Annes Macdonald. News of her unexpected death came to her friends and neighbors as a great shock and the consequent sadness which has descended on the community shall not soon be dispelled. Mrs. Macdonald, who was formerly Miss Hylda McEwen, of Souris, came to Tignish with her husband about six years ago and since then has won for herself many fast friends who are conscious of a great void in their hearts and homes since her unexpected death on the above mentioned date. The deceased was a lady possessed of many excellent qualities which

SEEK BAN ON GLASSES

TORONTO, Jan. 28.—Activities of Chicago mail order houses who advertised and sell cheap glasses which ruin rather than correct eyesight were discussed at the annual meeting of the Optometrical Association of Ontario, which met in the Royal York Hotel. Speaking amendments to the act which should prevent such activities J. Earl Lawson, M.P., and J. R. McNicol, M.P. Waited on government officials at Queen's Park. They reported the result of their conference to association executives at the convention. "You can't fit glasses by mail," the president stated. "Our Ontario board of governors licenses all optometrists and reputable Canadian publications refuse these mail order advertisements but the Chicago companies manage to advertise somehow."

HOPE TO KEEP BYNG

LONDON, Jan. 28.—The departure of Sir John Anderson, permanent secretary of the home office, to the south of France to-day provoked rumors that he had gone there to interview Viscount Byng of Vimy, the chief commissioner of Metropolitan police. Lord Byng, who is in ill-health, has expressed a desire to retire. The government, it is reported, is unwilling to release him. The position is extremely difficult for Sir Charles Roys, deputy commissioner, died suddenly two weeks ago. To fill both commissions simultaneously would be a matter of extreme complexity.
