Nineteen Ships Sunk Last Week

(Special to the Guardian.) LONDON, Feb. 15.—The Admiralty report for last week: Arrived 2401, departed 2274.

British merchantmen of over 16 hundred tons sunk by mine or submarine thirteen; of less than 16 hundred tons, six; fishing vessels, three.

British merchantmen unsuccessfully attacked, eleven. In the preceding three weeks the losses were eight, eight and fifteen respectively. Italy reports 4 ships of more than 1000 tons sunk. One French vessel of more than one of less than 1,000 tons were sunk; also one fishing vessel.

A Washington despatch says Great Britain produced only 1,163,474 tons of shipping last year. The output in the United States was 902,223 tons making a total combined tonnage of 2,065,697 while sinkings by subs last year generally are reckoned at six million tons.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of freeze." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new ether corn powder applied directly upon a tender aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while freezing his stick, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whitening at his corns, but clip this out and make him try it.

Life in the Trenches

Mr. Wm. E. Rose, Lakeville has received the following letter from his brother-in-law in France: France, Jan. 6, 1918. Dear Will—

I suppose you will be surprised to hear from me after all these years. I was going to write before but have not had much chance to. I am on active service now and getting along fine. We are quite a ways back of the lines now but we may be sent up any day now and we may never see the front but I hope we do. I am on guard tonight and just came off post. I am writing this letter in the guard house, it is just a little after midnight. I have been thinking about you all night and wondering if you will ever get back to see you all again or will I stay in France pushing up daisies; but we will hope for the best. Though I long to get back I don't want to, till we win, if it is days or years.

I wish you could be here with me for a while as I could show you some funny sights. The native here are a hundred years behind the times in a lot of ways and in a few ways they are ahead. They wear wooden shoes and when you see a crowd of them going along the hard road, they make as much noise as a field battery going into action. You seldom see a wooden house here as they are all made out of stone and they use tiles for roofing.

Their system of Forest Conservation is ahead of anything we have on the other side. We are quartered in huts here and are comfortable. Of course there are lots of things we miss but on the whole it is better than I expected when I enlisted. There are lots of interesting things I could tell you if the censor permitted, but we have to be careful, as that is the way we run our wars; the weather here is a good deal warmer than in Canada and you could work any day in your air sleeves, but I suppose it is a lot colder at the front. I hope we do not go up till Spring. Well Will, there is not much more I can write about now, so I will it off for this time with love to all. Hoping to hear from you in the near future. I remain your loving brother, AL. 2304257 J. A. CUMMING. 79 Co. C. E. F. SR 79 C. E. A. B. E. F. France

ITEMS FROM "THE WINTER PORT BORDEN"

Captain John L. Read is measuring up as a good man in his winter port on the splendid ship, "The Prince Edward Island". His record trip on Wednesday from Tormentine to Borden caused Parser Ryan to hustle in order to capture all the tickets before "all ashore" was shouted at Borden.

"Billy" Scott won out, his boarders scarcely completed their meal, and Chief Sutherland was late getting into his "nifty togs" when Captain Murchison ordered the apron to be lowered and made fast to the ship. All such things are daily occurrences at Borden, yet no mention or comment is made of it, the word being passed around gently. You can't beat Capt. Read and his well organized and popular staff.

Farmers, their wives and families, together with many visiting relatives in the vicinity of Borden take advantage of this splendid "outing" each day, for such it is called. Mary Ann put the dinner on, we will run over to Tormentine on the Ferry and be back home by the time the fish is cooked.

The Brides and Grooms, of which there are many, all like to go via this route, heretofore, a wedding tour via the winter steamers was next to a crime, now they like to go on a honeymoon.

Thousands rejoice at the excellent service the Car Ferry is giving while a few camouflage knockers predict utter failure even at this late date. "Such is life."

Real estate is a good thing at Port Borden just now, and it is truthfully stated that men of means from Towns and Villages throughout the whole Island are buying lots at Borden.

It is said that the Railway Department will undertake to make perfect the system from Emerald to Sackville. A new siding at Borden Junction will be in order and in all probability be constructed in the early spring.

Mr. John M. Rattenbury and Mr. Ephraim Bell were visitors at Borden Wednesday.

Mr. W. B. McNeill, Livery man, Summerside hopes to erect a large stable at Borden next summer.

In deed, Borden is threatened with all kinds of restaurants, Ice Cream Parlors and a Moving Picture House.

Rev. J. J. McDonald celebrated Mass at Borden Sunday, and made a return trip on the Ferry on Monday.

Premier Arsenault and Mr. Harry Tidmarsh looked pleased when sailing out of the dock Tuesday morning.

Mr. Eldon Campbell, the popular senior freight clerk, made a peregrination to North Wiltshire via Kensington recently.

Messrs. Warren and Dalziel are immensely popular and are employed in the accounting department of the Transfer Office.

Mr. James W. Allen, the popular and busy relieving Agent is holding down the job at Cape Traverse, and frequently finds time to spend an evening at Borden.

Mr. Peak Customs House Officer, laid low some rabbits recently and almost captured a Black Traveller.

INSTITUTE WORK.—The members of the Norborn Women's Institute and others of the district interested in patriotic work adopted a Prisoner of War last July and have forwarded the amount necessary for his maintenance for one year. These women are also interested in "the boys" in the trenches, and spend one evening of each week knitting for the soldiers. Already upwards of 100 pairs of socks have been forwarded to Mrs. Hyndman and to the 105th Comfort Circle for distribution. They hope to continue the work, and to surpass if possible last year's record when 203 pairs of socks were sent in. The following contributions have recently been received, for purchasing more yarn:—Mrs. J. W. Stewart, Mrs. Wesley Harding, Miss Elva Bernard, Mrs. W. P. MacLeod, Mrs. G. W. Sharpe, Mrs. R. South Pacific Clear of Raiders (Special to the Guardian.) A PACIFIC PORT, Feb. 16.—The South Pacific ocean has been swept clean of German raiders, according to an announcement today by the commander of Allied vessels and working ship owners and operators.

According to officers of the vessel, there are 39 German steamers and 51 sailing vessels, with a total tonnage of 230,000 interned in ports along the west coast of South America. Among them is the Potosi, 5,755 tons, the world's largest sailing ship. Peru, Ecuador and Colombia all have opened their ports to Allied shipping, said the cruiser's officers.

Coats, wraps, and dresses are all wearing very high collars. Vest, collar and cuffs of fur are a feature of the new suits.
