GRINDING VALVES AGAIN?

Forced to lay your car up for valve grinds two and three times a year? That's nothing to what R. G. Brown, of a Toronto real estate firm, went through. But he writes us that everything's all right now!

"When we first got our car, which has a very high compression motor, we had to remove carbon every 500 miles. Adjustments improved conditions so we could drive about 3000 miles. Last Spring, while driving North from Florida, we filled up with Quaker State. Using this oil, we drove some 6,200 miles... and could have gone further, but decided to remove what carbon there was."

Why does ordinary oil stir up trouble? Because it's loaded with a thin, watery material called "light-end" oil. There's one quart of this, more or less, in every gallon. It burns up, vaporizes, blows away. Your car doesn't get full lubrication.

To be sure of perfect lubrication, *constant* lubrication, use nothing but genuine Quaker State. No "light-end" material...it's removed at the refinery. You get an *extra quart of lubrication in every gallon.*

Look for the Quaker State sign... displayed by automobile dealers, service stations, and garages throughout Canada. Quaker State Oil Refining Company of Canada, Limited, Toronto, Ontario.

PRODUCE

(Canadian Press)

MONTREAL, May 6—Butter and cheese prices declined on the Montreal produce and dairy market last week with egg and potato quotations slightly higher.

Fresh no 1 butter in carlots or less finished the week at 19 to 20 cents a pound, down 2½ cents from the previous week's closing prices. To retailers solids were 21 cents a pound and prints 22 cents. Receipts for the week totalled 9,037 boxes against 8,901 the previous week.

Initial cheese exports of the 1934 season from Montreal went forward last week, a total of 3,238 boxes being shipped to the United Kingdom and 51 boxes to the West Indies. In 1933 exports started two weeks earlier and on the corresponding date 5,013 boxes had been exported. Ontario cheese lost ⅜ cent to one cent at 9½ to 10 cents a pound. Arrivals dropped from 1,196 the previous week to 660 boxes.

Eggs were up a fraction of a cent, graded shipments in carlots or less being quoted at 19 to 19½ cents for A large, 18 to 18½ cents for A medium, 17 to 17¼ cents for B and 15½ cents a dozen for C, western eggs being ¼ cent above the maximum of the general prices. A total of 23,583 cases arrived in comparison with 19,381 the previous week.

Potatoes were quoted at 95 cents to $1 for Quebec per 80 pound bag, $1 to $1.05 for New Brunswick mountains per 80 pound bag and $1.25 to $1.30 for Prince Edward Island mountains per 90 pound bag.

GRAIN

(Canadian Press)

WINNIPEG, May 6—Easing an early loss of one half cent, wheat prices rallied on the Winnipeg Grain Exchange Saturday in line with buoyancy at Chicago. At the finish gains amounted to ⅛ to ¾ cents.

Export business so far as it affected actual wheat, was not large, sales totalling only about 250,000 bushels, but there was good purchasing of futures which had the appearance of foreign interest.

May wheat closed at 66⅛, July at 67⅞, and October at 68⅞ cents, all at the day's top. Good buying of July futures, in evidence for some time, led to the belief among the grain trade, that European crop conditions are even less favorable than reports indicate and importers are protecting themselves by this accumulation.

Chicago quotations sagged one cent at the start, but firmed sharply to register a net advance of two cents at the close. Strength was attributed to adverse weather reports.

Absence of rain in Western Canada did not help to remove any of the gloom from the weather picture. Liverpool closed unchanged to ⅝d higher.

There was a lull in demand for cash grains and spreads closed unchanged. Coarse grains were generally steady.

CHICAGO, May 6—Dust storms in Canada and forecasts of no big drought relief next week in the United States rushed wheat up 3⅛ cents a bushel Saturday.

The advance of wheat was from an earlier setback of more than a cent because chiefly of a transient let-up in buying and as a result of downturns of securities. Adding impetus to rapid late soaring of wheat was attention given to evidence the agricultural authorities at Washington recognized that possibility of complete crop failure over large areas existed both in the spring wheat belt northwest and in winter wheat southwest.

Wheat closed firm at virtually the [illegible] Friday's finish, corn ⅛ to ⅜ up, oats 1⅛ to 1¼ advanced, and provisions unchanged to a rise of five cents.

MINARD'S "KING OF PAIN" LINIMENT

NEW YORK EXCHANGE

(By John L. Cooley)
(Associated Press Financial Writer)
(A. P. By Guardian's Special Wire)

NEW YORK, May 6—Stocks suffered another attack of the blues Saturday, rounding out a week of decline under fresh pressure from sellers.

Liquidation was rather pronounced at times and the ticker found itself several minutes in arrears. Offerings slackened before the close but noticeable recovery was lacking. Transactions totalled 872,920 shares. Wheat had a good rally and high grade bonds had a firm tone, United States Governments again reaching new high prices. Cotton reacted.

Weakness in stocks first appeared in alcohol issues, then spread to aircrafts and equities associated with agriculture, and finally became more general. Net losses ranged one to five points. American Telephone softened almost two. Case more than three, American Commercial Alcohol five, United Aircraft 1 3-8, Schenley about two and a large number of leaders, including U. S. Steel, General Motors, Chrysler, Du Pont, Allied Chemical, Westinghouse, New York Central, Deere, Montgomery Ward and Sears Roebuck approximately a point each. U. S. Industrial Alcohol was off 4 1-4 net. Isolated firm spots embraced U. S Smelting, Lowe's and a few others. The market returned 498 net losses and only 72 advances.

Speculative despondency was most readily traceable to evidence of seasonal unevenness in business and to the market's own reluctance to rally when offerings had subsided earlier in the week. Quick passage of the regulation bill, unamended, by the House of Representatives may have caused some surprise although indications had been that such action would be taken. Steps toward amending the securities act were regarded in Wall Street as an important development, especially in investment banking quarters.

Week end trade news added little to what had been known. April results for chain store systems were apparently less favorable, showing a sharp contraction as compared with the March gains. This, it would appear, was largely because this year's March business included Easter buying whereas in 1933 those sales contributed to April buying.

American Telephone's substantial reaction this week has carried it not far from the year's low. Selling followed word that the State Public Service Commission would seek a rate reduction by the Bell system's largest subsidiary, New York Telephone Co., and also the Supreme Court decision in the Illinois rate case. Directors of the A. T. and T. meet soon for dividend action. There has been no intimation of a change but evidently Wall Street thinks maintenance, either now or later this lear, is open to question, notwithstanding improvement in the system's business during the past seven months.

The stock exchange share interest decreased slightly in April and at the end of the month was around 900,000 shares. It may have increased recently, but the technical position would not appear to be very robust.

Steel industry prospects are for further increases in operations, since specifications on secoond quarter contracts still seem to be coming in. Also, this is the season for greater activity in structural awards which this year are being accelerated by publicly financed projects. Automobile schedules for May are said to be under April, which witnessed the largest output since August, 1929, but the manufacturers are still taking releases on steel orders.

Winnipeg—Wheat closed higher.
New York—Coffee, sugar and rubber higher; cotton lower.
New York—Canadian dollar up 3-32 to 1.00 5-16.

Currencies

(Canadian Press)

MONTREAL, May 6—Losses predominated among currencies on Montreal exchanges Saturday with the United States dollar easing, the pound sterling advancig and the French franc remaining firm.

The American dollar dipped 3-32 of one percent to 5-16 of one percent discount while the pound gained ⅛ of a cent at 5.10⅝. The franc was unchanged at 6.61 cents.

NEW YORK, May 6—British currencies registered modest advances in the foreign exchange markets Saturday.

The Canadian dollar extended its premium over the United States dollar from 7-32 to 5-16 percent. Sterling finished at $5.12, its high for the day and ⅜ of a cent above Friday's final rate. The French franc remained stationary throughout the short session at 6.63 cents.

EXCHANGE

(Canadian Press)

MONTREAL, May 6—British and foreign exchange in relation to the Canadian dollar, as compiled by the Royal Bank of Canada, closed Saturday as follows:—
Argentina peso .2279.
Australia pound 4.0616.
Austria schilling .1909.
Belgium belga .2340.
Brazil milreis .0897.
China Hong Kong dollars .3586.
Denmark krone .2281.
France franc .0661.
Germany reichsmark .3948.
Great Britain pound 5.1040.
Holland florin .6878.
Hungary pengo .3977.
India rupee .3877.
Japan yen .3036.
New Zealand pound 4.0778.
Norway krone .2566.
Poland sloti .1909.
South Africa pound 5.0056.
Spain peseta .1369.
Sweden krone .2633.
United States dollar 5-16 per cent discount.

NEW YORK, May 6—Foreign exchange steady. Great Britain demand high and close 5.12; low 5.11⅝; 60 day bills, 5.10⅝; France 6.63; Italy 8.54; Belgium 23.47; Germany 39.60; Canada 1.00 5-16.

Fish Quotations

(Canadian Press)

BOSTON, May 6—Seven vessels arrived at the fish pier here today.

Grade I (b)—B. Hynes, G. Byrne M. Creamer, N. Noonan, K. Herrell.

CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned.

GENERAL

Wide variations as regards seasonal conditions and the progress of agricultural operations exist in the several parts of the Dominion. In British Columbia vegetation and well-advanced seeding reflect a spring three weeks earlier than usual. In the Prairies seeding is fairly general. In Ontario farming operations are two weeks later than average and germination is backward. In Quebec Province ploughing has commenced, but it will be two weeks before seeding becomes general. In the Maritime Provinces spring operations generally are only beginning. The Prairies are making a fair start as regards moisture, this having been above normal in the three provinces, although subsoil reserves are still lacking over large areas of south and west central Saskatchewan and in southwestern Manitoba. Present indications on the Prairies point to a reduced wheat acreage and an increase in fodder crops. In Ontario cold weather has taken a fairly heavy toll of fall wheat necessitating much replanting. Details in respect to the various Provinces follow.

PRAIRIE PROVINCES

Alberta Northeastern Area—Spring work started in mid-April and seeding is about 35 per cent completed. Alberta Southeastern Area—Seeding is well over 50 per cent completed. Moisture conditions are fair and soil drifting has been checked by rain. Alberta Western Area—Seeding is general, and sugar beet seeding is nearing completion. Saskatchewan Northern Area—Seeding has just started. The seed bed is satisfactory and propsects generally are favorable. Saskatchewan Southern Area—Seeding is general with reseeding necessary in some areas owing to damage from winds. There is sufficient subsoil moisture for germination, but little reserve, and the top soil is very dry. Manitoba—Seeding is well under way. Initial moisture conditions generally are good, but subsoil reserves are lacking in the southwestern area. Prevailing cold weather and high winds have not been favorable to growth. Pastures are backward and some localities are short of feed.

PROVINCE OF QUEBEC

Pastures have wintered well but warm weather and rain are now necessary to promote growth. The extreme winter has caused some damage to fruit trees. The maple syrup yield was hardly up to normal but the quality is reported better than average.

PROVINCE OF ONTARIO

Seeding will be fairly general in another ten days. Meadows have been adversely affected in many districts and new crops of alfalfa and clover have suffered. An abundance of snow in the eastern sections of the Province maintained soil in good condition and prospects there are reasonably good. Generally the soil appears to contain sufficient immediate moisture, but warm weather is badly needed. Tender varieties of apple trees, principally Baldwins, were damaged; others wintered reasonably well. Peach buds were damaged; pear and plum trees came through satisfactorily. Vineyards are backwards but generally withstood the winter. Tobacco plants under glass are backward. Tobacco acreage in Norfolk County will be reduced approximately 25 per cent.

MARITIME PROVINCES

Pastures and meadows have wintered well and there is sufficient moisture in the ground to provide a good seed bed. Fruit trees have suffered severely from winter-kill. Indications point to the acreage in potatoes being larger than last year.

PROVINCE OF BRITISH COLUMBIA

The ground is in good condition and seeding is well advanced. Alfalfa is making satisfactory progress. The acreage being sown to tomatoes and onions is reported slightly reduced; the potato acreage is increased. Fruit trees wintered well an dare now in bloom. A heavy crop is indicated. Small fruits experienced little winter killing. Pasturage is good; the supply of water for irrigation purposes is considered satisfactory.

In Memoriam

MICHAEL KEATING

The passing of Mr. Michael Keating, familiarly known as "Capt." will be learned with regret by a large circle of friends in this city. Born in Halifax 98 years ago, he served on the Police Force in that city for a number of years, and was for about thirty years on the S. S. "Gulnare" as storekeeper for Capt. Tooker, when that ship was in the employ of the Hydrographic Survey of London.

He retired a number of years ago and enjoyed the friendship of a large number. Of fine physique and possessing a rugged constitution, the late Mr. Keating enjoyed long walks daily, his favourite route being across the Hillsboro Bridge and up along the country roads on the other side of the river. This form of exercise he continued until he was forced only a short time ago to lead a more quiet life.

The funeral takes place Monday morning from A. A. Hennessey's Funeral Home at 8.45.

CHELTON SCHOOL

Report of Chelton School for the month of April:

Grade III.—1, Harold Campbell; 2, Howard Clark.

Grade II.—1, Olive Rogers; 2, John McCardle; 3, Freda Rogers.

Gladys M. Murphy, teacher.

HERD OF ALBINO DEER ALONG LAKE SUPERIOR REPORTED BY BUSHMAN

SAULT STE. MARIE, Ont. May 5—A story of a herd of albino deer living near Red Rock on the shore of Lake Superior about 10 miles above Groscap was told today by Fred Dawson, pulpwood contractor who has come out of the bush after his Winter's work. One deer, a young doe, pure white, was found by two of Mr. Dawson's employes, killed by wolves.

Two other does, pure white save for a red spot on one side and a pure white buck, of average size, were sighted by the pulpwood cutting crew during the Winter. The albinos stuck to swamp land instead of heading for higher ground like the red deer, said Mr. Dawson, and their coat of fur was unusually long.

NORTH BAY, Ont. — Working time and payroll in local C. P. R. car shops stepped up 16 percent this week.

HEADACHES

Persistent headaches, with tired feelings and irritability tell of exhausted nerves—that you are living at too high a tension. Dr. Chase's Nerve Food feeds the blood and the nerves back to health and vigor.

BURDOCK BLOOD BITTERS

Don't Suffer From Rheumatism

Rheumatism is a blood disorder with a strong tendency to inflammation.

Rheumatism is due to the presence of uric acid in the blood, and before you can get rid of this painful, joint distorting disease the blood must be purified and enriched.

Why not let Burdock Blood Bitters show what it will do for you. It not only brings relief, but correction of the trouble as well.

For sale at drug and general stores; put up for the past 55 years by The T. Milburn Co., Limited, Toronto, Ont.
