ABEGWEITS WIN!

And Anchors Defeated The Britannias.

In Crystal Rink, Summer-side Last Night—Score for Abbies 4-3—For Anchors 8-3—Intense Excitement, Brilliant Play, Large Attendance.

SUMMERSIDE, Feb. 17.—(Special)—The great hockey event of the season, the match between the First Abbies of Charlottetown and the Stars of Summerside came off tonight in Crystal Rink. The weather was favorable, everybody expectant, and the match, for lovers of sport, proved all that was expected. The special from Charlottetown brought about one hundred and twenty five passengers most of whom witnessed the game. Quite a number also came from the surrounding country districts, so that the rink was crowded to its utmost capacity. The Abbies and Stars faced each other at 8 10 and the first surprise of the evening came at 8.10 1/2 when Bethune shot a goal for the Abbies from C. Point. The second surprise came at 8.12 when Roy McDonald scored for the Stars. After about 20 minutes of fair but fast playing McDonald again scored for the Stars. Almost immediately after a second score was made by the Abbies and a third shot by Grady for the Stars. At half time the score stood 3-2 in favor of the Stars. In the second half McLeod scored within a few minutes of the start, which evened up the count. From this to the close the game was hot and fierce and the excitement intense. After about 20 minutes playing Sullivan shot a second goal for the Abbies. This was the last goal scored, making a total of 4-3 in favor of the Abbies. The Britannias and Anchors faced off at 9 o'clock and from the start the game was pretty much in the hands of the latter. At half time the score was 4-1 in favor of the Anchors. In justice to the Britannias, however, it must be said that they scored a second goal, which, through the neglect of their umpire was not played in time, and was consequently not allowed. The score in the second half was 4-2, making a total of 8 to 3, in favor of the Anchors. The officers were Creel McArthur, referee, Neil Matheson, Stars, Wm. Batt, Abbies, Timers, W. K. Rogers and Thomas Ronaghan, for both matches. James Brehaut refereed for the Britannias and Anchors. Umpires George McAlmon and Charles McQuillan. After the games were over the Stars entertained the Abbies with a supper at Mr. Geo. Grady's restaurant and the Britannias entertained the Anchors in Montgomery's Hall.

TO CURE TOOTHACHE IN A MINUTE Use NERVOL. One application cures; if not, your money back. Equally good for Neuralgia and Headache. 25c. at all Druggists.

GOSPEL MEETING.—Railway Men's Meeting in Province's New Block, Sunday afternoon at 4. Lesson—Isaiah 45-52. "Look unto me and be saved." Service at 3.45. Strangers always welcome.

THE STANLEY CUP.

The Stanley cup, for which the Victorias of Winnipeg, and the Victorias of Montreal, holders of the trophy, were to battle on the 15th, was donated by Lord Stanley, then Governor General of Canada, some six years ago. The matter was first broached at a banquet to the Ottawa Hockey club in the Russell House in Ottawa when Lord Kilcourse, who represented His Excellency, read a letter, in which Lord Stanley said: "I have for some time been thinking that it would be a good thing if there were a challenge cup, which should be held from year to year by the champion hockey team of the Dominion. There does not appear to be any such outward or visible sign of the championship at present, and considering the interest the matches now elicit, and the importance of having the games fairly played under rules generally recognized, I am willing to give a cup which will be held from year to year by the winning club."

It was not until some time later that the present trophy was placed in the hands of Sheriff Sweetland, and Mr. P. D. Ross, both of Ottawa, who were appointed trustees.

The trophy was first won by the Victorias of Montreal. They won the championship of the A. H. A. in 1894, and held the cup until 1895, when the Victorias of Winnipeg, came eastward and carried it off to the west. The Vics of Montreal, were again the winners of their league series in 1896 and determined to make an effort to bring back the cup to Montreal. It took a long time to make arrangements, but finally everything was complete and Weldy Young, of the Ottawas, was agreed upon as referee.

The match was keenly contested and resulted in a win for the Montreal boys by a score of 6 goals to 5.

In the season of 1897 there was but one challenge for the trophy, and that came from the Capitals, of Ottawa. The latter were defeated by a score of 15 goals to 2.

The old rivals of the holders of that trophy, the Vics of Winnipeg, are now coming east to try and recover it.

ROYAL Baking Powder

Made from pure cream of tartar.

Safeguards the food against alkali.

Alkali baking powders are the greatest menaces to health of the present day.

PRESIDENT FAURE

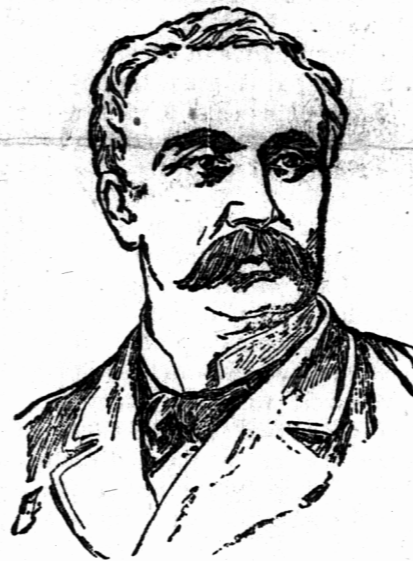

Dies at Paris After A Short Illness.

All Sovereigns Express Their Regret—Rescued in Mid-Ocean After Terrible Gales—Died at a Banquet—Rudyard Kipling to be Banqueted in Toronto.

PARIS, Feb. 17.—(Special)—The sudden death of President Faure is attributed to angina pectoris.

Expressions of regret have been received from all the sovereigns of Europe. The general expectation is that M. Loubet, President of the Senate and formerly Premier, will be made President.

Another account says:—President Faure died at 11 o'clock last night after three hours illness. Apoplexy was the cause. President Faure worked as usual and read the official despatches and newspapers in order to prepare to preside at the Council at 9 a. m.

M. FAURE, PRESIDENT OF FRANCE.

The President as usual took a lunch at noon and returned to the study at 2. He spent the afternoon conversing with his secretary, and at 6 signed papers and said: "Come quickly I feel ill." He was assisted to the sofa, and the doctors called. He remained conscious, but expired on the stroke of 10.

The city remains tranquil. The Cabinet will meet this morning, and Friday, after embalming of the remains, to fix the date for the convening of the National Assembly at Versailles to elect a successor.

The struggle will be keen. M. Dupuy Premier, has the best chance. The contest lies between him and Henri Bisson and M. Loubet.

LONDON, Feb. 17.—The death of President Faure made a profound impression and greatest anxiety is expressed as to the possible consequences in the excited state of France.

New York, Feb. 17.—(Special)—The Holland line oil tank steamer Rotterdam brought twenty-three of the crew of the steamer Rossmore, from Liverpool for Baltimore.

They were rescued in mid-ocean. Nine others were taken off by the steamer Trojan for Glasgow. The steamer encountered terrible gales and her steering gear broke three times.

Philadelphia, Feb. 17.—(Special)—Three firemen were killed to-day while fighting a blaze in three six story buildings.

Boston, Feb. 17.—Frank E. Taft, of North Bridge, Mass, died while sitting at table at the Home Market Club banquet last night. The banquet was in honor of President McKin-

ley, who is visiting Boston for the first time.

The President was greatly moved. Just about this time also the death of President Faure was communicated to President McKinley.

BUFFALO, Feb. 17.—(Special)—Rudyard Kipling will visit Toronto as the guest of the Canada Club and will be tendered a banquet.

SCIENTIFIC MISCELLANY.

A simple method of applying hot air for acute pain has been described by Dr. Wm. Taylor, an English physician. The air is heated electrically and driven by a fan over a spiral of fine wire—also heated—direct to the painful part. The application is continued until the skin becomes blanched and blistering follows. Neuralgia has been effectively treated by air at 200 F. or over, the aching of a badly decayed tooth was stopped in five minutes and did not return for eight months, while sore throat, lumbago and other painful complaints have been cured by the current of hot air.

Bricks from blast, furnace slag Herr F. W. Suerman states, are now made at Germany works as low as \$2 38 per 100. The fluid slag, being an unsuitable material, is passed through water, which granulates it, and the bricks are compressed without burning, hardening in 6 to 8 days when 10 per cent of lime is added. The granulation increases the permeability to air to five times that of ordinary buildings bricks, ensuring dry walls. The slag bricks resemble grayish white sandstone, support a crushing load of 160 to 180 pounds per square inch, and resist high temperatures.

The newly discovered planet D. Q. remarkable for its orbit, which approaches the earth nearer than that of any other planet—has been named Eros. A search of Harvard Observatory photographs has shown this interesting body on plates of 1894 and 1896 with a complete record of its movement for more than four months. At its nearest approach in 1894, the planet reached the seventh magnitude.

The solidified alcohol which a Berlin firm has been sending out in a tin container, intended to serve as a pocket lamp and stove, is reported to consist essentially of 62 per cent of alcohol, 20 of soap and 18 of water. A similar product is readily made by dissolving scraped tallow soap in warm alcohol.

The first pharmacopoeia issued by government authority seems to have been that of Nuremberg in 1542. National pharmacopoeias, regulating the preparation of medicines, now exist in the Argentine Republic, Austria, Belgium, Chili, Denmark, France, Germany, Great Britain, Greece, Holland, Hungary, India, Japan, Mexico, Norway, Portugal, Russia, Spain, Sweden and the United States. In nearly all of these countries, the United States being a notable exception, the works are issued by authority of the government and have the force of law in their instructions. The United States Pharmacopoeia is prepared by a commission representing the medical and pharmaceutical societies, and is revised decennially, the time for a new edition being now near at hand. Universal pharmacopoeias have been attempted, thus far without official recognition. The lack of uniformity of nomenclature and standards is a serious difficulty, the greatest stumbling block being the tinctures and extracts, which are so variously prepared in different countries that the same name may indicate any one of several different preparations of roots, bark or leaves. The latest commission to consider an international pharmacopoeia has just been appointed by the Brussels Royal Academy of Medicine. The need of an international work is now seriously felt, and it is hoped to make it practicable by dealing only with potent remedies and excluding medicines to which the custom of each country has given special form.

ON DAWSON TRIAL

Wolves Attack And Kill Pack Teams.

The Caspesia Heard From—Treaty to be Shortly Signed at Washington—Killed Returning From Political Meeting—Chief of Hansard Dead.

HALIFAX, Feb. 17.—(Special)—Davidson Bros., wholesale grocers, have suspended payment.

The brigantine Sceptre, from Ponce to Halifax, put into Liverpool, N. S., leaking and having lost her sails.

VANCOUVER, Feb. 17.—(Special)—F. Champau, just arrived from Dawson, confirms the report of wolves on the trail and says they have attacked and killed several dogs on the pack teams. Fear is expressed that the ice running out will crush several vessels wintering in the Yukon delta.

HALIFAX, Feb. 17.—Yesterday the Gaspesia was reported jammed ten miles north of Dead Man's Island, twelve miles from Etang du Nord Light. No water is to be seen.

This morning's despatch from St. John's Nfld, says negotiations are in progress to send a sealer to her assistance. The sealer will also go after the Pavonian, believed disabled near Grand Banks. The Atlantic in vicinity of Newfoundland is covered with drift ice.

MONTREAL, Feb. 17.—The Star's special from Washington, says there will be a treaty of formal agreement in a few days, and it needs the final balancing of some questions under discussion to be submitted for the signatures of the members of the commission.

Lord Herschell fell on the ice and suffered an injury and remains in the hotel for several days.

WOODSTOCK, N. B. Feb. 17.—(Special)—George Hillman of Debec while walking home along the railway track from a political meeting was struck by the train and killed. He leaves a wife and child.

TORONTO, Feb. 17.—(Special)—Dr. G. B. Bradley, chief of the Commons Hansard staff at Ottawa died on Sunday. He was widely and favorably known among Canadian public men. He leaves a widow, but no children.
