We Take the Risk

We know you will be delighted with the O-Cedar Polish Mop. We know you will welcome the relief it brings. We know you will appreciate the hard work it saves. We know you will be pleased with the way it dusts, cleans and polishes—all at the same time. That is why we say:— Try the O-Cedar Polish Mop for 2 days at our risk. If it is not satisfactory, we do not want you to keep it. The price—\$1.50—will be returned without question if it is not all, and more, than we claim. You to be the judge. Simon W. Crabbe

Fox Co's Profits Judge for Yourself

The fact that the Glenaladale Silver Black Fox Co., Ltd., has guaranteed to pay a dividend of 50 per cent for the year 1915, has caused some prospective investors to ask the question "How are they going to do it?" Let us try and answer this question—

Number 1st. In the fall of 1914 we will have in our new ranch 20 pairs of pure Black Silver Foxes. Now right here we want to point out that this ranch when completed will be one of the most up-to-date in every respect. At the present time it is under construction.

2nd. Here we want to show you how it is possible for us to pay a dividend of 50 per cent in 1915. To begin with the 20 pairs of foxes will be in the ranch—and they will be yours, Mr. Investor, even if we did not sell another share of stock. Now should an investor buy one share or 50 shares their money will be safe in the bank, and suppose the 20 pairs did not have a single pup next year, we will simply have to give to the investor in 1915, 50 per cent of his own money back.

3rd. On the other hand, suppose out of the 20 pairs there were only ten litters—and ranch better arranged for pups, this would mean at \$15,000 per pair \$300,000 or 100 per cent on your investment and still you would hold your share in the ranch.

4th. Now perhaps you may want to know how we are going to secure the 20 pairs of foxes with your money in the bank. Here it is. The promoters of the Glenaladale Silver Black Fox Co., Ltd., at the present time own six pairs of Silver Black Foxes on P. E. Island, (three pairs with litters). We also own two pairs of proven breeders in a ranch in Newfoundland, (one pair with five pups and the other pair with six pups). All those young pups are to be sold and this very money will be used to secure and pay the balance on the P. E. Island options secured for the new ranch.

5th. Each investor who secures stock in this Company will get his 50 per cent dividends or whatever more that can be paid. Now let us see if it is possible for you to lose your money. Suppose you were to invest \$20,000 in the Company and we went and placed that money in the bank—and the bank broke—What would become of your investment? Well we'll tell you—we would have 20 pairs of foxes in the ranch. Suppose you placed your money in the bank and the bank broke—you would lose your money wouldn't you? But we don't have to worry about bank failures, for at the same time it must be remembered that during the past 50 years the money lost throughout the world by bank failures would probably more than pay one million dollars per head for each pure Silver Black Fox at present on P. E. Island.

Now let us see how many Fox Companies failed. None yet. Is there really any other industry or concern clear of a Fox Company, that would stand such a loss as some of the big Fox Companies had this spring without having to draw on some of their investors? Notwithstanding the big loss these very same Companies will be in a position to pay a dividend on every dollar invested, equal to what you would receive on \$5,000 in the Saving Bank.

Now you can see that \$1,000 invested in foxes is as good or better than \$5,000 in the bank. See the point? Now Mr. Investor, suppose you placed \$5,000 in some savings bank at 3 per cent and your friend invested \$1,000 in a Fox Company, which would pay a dividend similar to that paid by the Rosemont or Peerless last year, your friend would receive \$4,000 on his \$1,000, while you would receive only \$150 on your investment. You can see for yourself that it would take you some years to make as much on \$5,000 as your friend made in one year on \$1,000.

Think the matter over and while the fox industry holds out splendid opportunities still it will pay you to read our Prospectus—and study it and then judge for yourself which Company you wish to invest in. Prospectus and full information on application.

THE INVESTIGATION AT SUMMERSIDE

(Continued from page 1.)

The Commission resumed yesterday morning shortly after 10 o'clock, Rev. Mr. Wilson continuing his evidence. For the greater part of the day he was subjected to a fire of cross-examination by Mr. Martin and the Attorney General. Mr. Wilson was closely questioned in regard to the proposed settlement of the McKenna cases in Summerside and the alleged repudiation by Prosecutor Phillips of Mr. Bentley's authority to prosecute and the other circumstances connected with the withdrawal of the Alliance from the prosecution of the cases in Summerside. The cross-examination proceeded along lines to show that Mr. Strong had said that he had agreed to the partial settlement of the McKenna cases and that he would keep his arrangement in favour of Mr. Bentley and that he took no further part in the proceedings after the settlement of the McKenna cases. But Mr. Wilson was unable to confirm this. The witness spoke of the various factors that led to the Alliance's withdrawal of the cases. Mr. Wilson said that there were 13 or 14 cases that were abandoned. The dismissal of the McFadyen cases, a lengthy harangue the defendants' attorneys were permitted to make, the time lost in the cases, and the fact that from the had results it would be very difficult to get a conviction in the large number of cases that remained for trial, were some of the considerations that led to the Alliance's withdrawal. Mr. Wilson admitted that in whisky cases the Alliance had obtained convictions in seven out of nine but he thought that they should have got convictions in all.

On this re-examination by Mr. Bentley after dinner Counsel sought to get witness to answer a number of questions of general purport as to difficulties he had experienced in regard to the enforcement of the prohibition act; but on objection being taken by Mr. Martin that such matters as to whether the present statute was adequate or inadequate did not come within the scope of the present investigation Commissioner McLeod disallowed all these questions. Evidence was also given by Dr. McMillan, provincial analyst, who was examined as to the condition of a bottle of Bohemian lager which he had received from Prosecutor Phillips for the purposes of analysis. The Doctor said that the beer showed a larger percentage of alcohol than was usual and he was asked to say whether he had formed the conclusion that the bottle had been tampered with. He said he had not come to this conclusion. Among the witnesses examined were Mr. George Brown, farmer of Margate and Mr. Murdoch McKinnon, Commissioner of Agriculture, who was acting Premier at the time of the cases in Summerside; Messrs C. W. Bentley of Kensington, J. A. Brace, Summerside, Arnitt, Albany and J. W. Carr, Summerside.

The Commission adjourned to 10 o'clock this morning. LARGE CROPS OF APPLES.

HALIFAX, June 4.—Annapolis Valley promises the largest apple crop in the history of the industry.

MR. ALFRED E. HEANEY HAS PASSED AWAY

Rev. J. Heaney, pastor of the First Methodist Church of this city, will have the sympathy of many friends on the death of his brother, Mr. Alfred E. Heaney, who passed away at his home in Clinton on Monday last. The late Mr. Heaney, who was only 36 years of age, was a son of Mr. Robert W. Heaney. He leaves to mourn his parents, a widow, Edith, daughter of Mr. Williams R. Dennis, three children, Edison, Florence and Alberta, aged 11, 7 and 4 respectively, two brothers, Rev. Jacob, of Charlottetown, and Wesley, of Clinton, six sisters, Mrs. George Glover, Mrs. W. H. Sharpe, Mrs. Frank Day, all of Northport, Mrs. John T. Dignan, of O'Leary, Mrs. John W. Whithead, Clinton, Mrs. William R. McLeod, Portland, Oregon, besides a wide circle of relatives and friends. Mr. Heaney's death while in the full vigour of manhood comes as a crushing blow to the bereaved relatives and friends. He arrived home the first of May from Muskoka Cottage Sanitarium, where he had gone last September for treatment, and he seemed greatly improved. His friends were all encouraged to hope that he would be quite well. On Friday last he was taken ill but there did not seem to be much cause for alarm till Monday, when the end came quite suddenly. His unexpected death, in the midst of the strong hope for complete and early recovery, was a great shock to the community in which he was so well known and so greatly esteemed by all. The funeral took place on Tuesday at 2 p. m., and was very largely attended. The services were conducted by Rev. George Morris, who spoke in the church at Margate on: "For to me to live is Christ, and to die is gain." In the course of an impressive discourse, he paid a touching tribute to the life and character of the late Mr. Heaney, and to the burden of sorrow which the bereaved family are called upon to bear.

...Olive oil is recognized as of supreme value in the treatment of various kinds of stomach and intestinal trouble. We sell the finest virgin olive oil specially obtained from the valleys of the Maritime Alps. It has the greatest medicinal value and is the most easily assimilated. Price 60c for large bottles. DAILY SELECTIONS FOR GUARDIAN READERS

Furnished by W.S. Louso. JUNE DAYS

The sunlight filters through the maple leaves And falls upon the pavement at my feet. And there is delicate design it weaves A network of the finest lace; the street.

Is one long tunnel arched with brightest green, From end to end of which is clearly heard The laughter of the children and the scene Is livened by the singing of a bird.

A robin with a careless disregard For human laws, trespasses on the green And newly won expanse of a front door screen, And seeks an entrance, marveling that he Should be denied admission anywhere.

While from the meadow comes a honeybee Burdened with sweetness from the clover there. The breeze brings memories of April's rain Along with promises of sunny days, And spring's melodiously sweet refrain

Is sung by nature's voices all in lays; For breeze and blossom, bird and bee all Of God's creation join in one grand tune That holds the listener spellbound in its thrall— And joy is everywhere, for it is June!

PASSING OF THE FARMERS BANK BILL.

OTTAWA, June 4.—The Bill to reimburse the Farmers' Bank depositors, passed last night. A. K. McLean's amendment for a six months hoist was defeated.

SECOND VICTORY FOR CONNAUGHTS

The Connaught baseball team gained their second victory of the season in Summerside on Wednesday, where they played the Independents of that place and beat them by the decisive score of 19-11. Before the game the boys were feeling somewhat "blue" on account of a mistake in regard to their lineup. McAleer, their pitcher, did not arrive at the depot to go on the trip and this was the first unfortunate occurrence. He, it is said, missed the train, but nothing else. Taylor, who went up with the team, hurt his finger before the game and was unable to play. Corrigan acted as backstop and Keoughan pitched most steadily until the close of the game. The Connaughts' team was composed of the following: Catcher—Corrigan. Pitcher—Keoughan. 1st. Base—Moore. 2nd. Base—Sweeney. 3rd. Base—McArey. S. S.—Newson. R. F.—Mullins. C. F.—Murphy. L. P.—Cox.

Owing to the rain the game did not start until 4.30 and it was concluded at a quarter to 7. There was a large number of spectators who cheered lustily for the local team.

For preventing the growth of smut on grain, and scab on potatoes—for securing a bigger, better and more profitable crop this year, you need to treat the seed with Formaldehyde. This is an excellent article—the leading farmers use and endorse it. A pint 40c. McKinnon Drug Co., Cor. Great George and Kent Streets. Mt.

A DEAD FLY

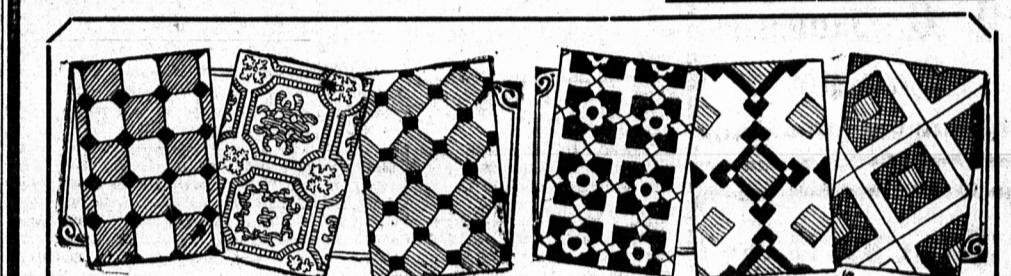

May Be As Dangerous As An Live One

It is certainly more repulsive, and, if left, will spread far more disease than ever it did when alive. It is not sufficient to kill the fly. You must destroy the germs as well. These if allowed to multiply, will spread disease and death, give us using the fly swatter, and the unsanitary sticky fly paper.

Buy WILSON'S FLY PAPER—the only really effective method of exterminating the death dealing housefly. They kill all the flies in the house in a few hours. No dead flies left lying about. Be careful to follow directions found in each package.
