THIS MEANS YOUR MUSCLES "NEED A BREATHER"

Muscles make up a good proportion of your body, and muscles work on oxygen. When you work too hard and too long, the oxygen supply gets skimpy. Your muscles cramp and ache, demand a chance to "lay off work". At the first twinge, pat Sloan's Liniment on the paining muscles, to help stimulate their blood supply. The new blood carries in extra oxygen; sweeps out old blood, laden with distressing, fatigue acids. Don't ignore muscle soreness. Apply Sloan's Liniment for speedier relief.

DRY CORK REMOVES STAINS ON SILVER

Every good housewife is proud of silverware that's sparkling bright all the year around! To keep precious silverware in good condition, remember to use it often, rather than storing it away. The silver you use all the time needs a little special care. simply wash it in warm water and suds, rinse thoroughly and dry each peace well with a soft cloth. Wash knives and forks and spoons separately to avoid scratching; and don't leave cutlery to soak or the hot water may loosen your knife handles. A light tarnish on silver pieces disappears if you rub them with a jeweler's rouge cloth. Stains and marks on silver and plate are quickly removed, with no danger of scratching, if you rub them with a dry cork. Trim the cork to a point to reach the discoloration in deep crevices.
