THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Prince within which it is published morning and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 103,000. The Guardian's daily circulation is therefore 1 to 1 1/2 of population in the city in which it is published, or 1 to 13 of the population of the Province. This is the management believes unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other daily newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000. St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000 or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 225,000 and the Province of Ontario about 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 50,000. That is as 1 to 5 of the population of Toronto and 1 to 44 of the population of Ontario.

The point is this that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons like. They have a right to know how completely their favorite Journal's endorsed by the reading public strong whom it circulates and how completely it covers the field as an advertising medium in this Dominion Province.

THE DEAF MADE TO HEAR.

Deafness because usually due to Catarrh, is quite curable. In a thousand cases this 7 proved absolutely true. Success invariably attends the use of a medicine which has cured catarrh of the nose, throat and ears, by destroying through the passages of the ear, the irritating vapor of Catarrh which enters the ear and thereby allows the ear to re-assist itself. Try Catarrh medicine for yourself, 25c and \$1.00 sizes sold by all druggists.

Beautiful and Reliable Furs

That this is going to prove a "Fur Season" is evident from the great demand. That this old reliable house is heretofore, head quarters for reliable furs, is equally evident from our unusually large sales for this early season.

Our furs need little booming - they speak for themselves - and our reputation for selling reliable guaranteed furs in the past, is now bearing good fruit.

We have as usual an immense range of all the best varieties such as Mink, Sable, Stone Marten, Marten, Mock Fisher, Isabella Fox &c. in sets and separate pieces, at all prices; according to quality, up to the very best.

Our stock of ladies fur coats is up to our usual high standard, both in quality and style, and come in all the best kinds such as Persian lamb, Russian lamb, Seal Astrachan &c.

Our men's Coon coats are splendid. There is no question of values here, they simply cannot be equalled much less surpassed. Come in and prove this. You will also find the prices moderate.

We have a nice range of ladies fur-lined coats at different prices. If what you want is not among them, we will take your order, and have a coat made to your own choice. This is by far the best method, as you can then have the combination of style, cloth, fur and price you require, which is so hard to get in a ready made. Your order can be completed in about 10 days.

All visitors to the exhibition are cordially invited to come in and view our immense showing, which is certainly well worth a visit.
