

LONDON BRIBERY TRIAL DRAGS ON

Several More Witnesses Tell Of Receiving Money For Their Votes—Charges For Perjury—Election Protest No Good In New Provinces.

TORONTO, Oct. 23.—(Special).—The London bribery trial drags on its shocking course. There were several more witnesses today who swore to paying and receiving money for votes, and proceedings in another perjury charge were begun again: Jojo O'Mara, who declared a few days ago that he had been falsely accused.

TWO SUCCESSFUL AIRSHIP TESTS

PITTSFIELD, Mass., Oct. 22.—Two balloons, Centaur and L'Orient, which remained here after the aero-automobile race between balloons and automobiles for the Hawley cup had been declared off last Saturday, participated in an endurance contest today which carried them many miles over northwestern Massachusetts and southern Vermont. The balloon L'Orient outlasted the Centaur by about three hours, finally landing in the little mountainous town of Jamaica, in Windham county, 57 miles from the start, the Centaur coming down in Hennington, 30 miles from this city.

TRAIN SMASH UP ON THE I. C. RY.

Four cars were derailed and badly smashed up, but fortunately none of the train hands were injured. The wreck was badly torn up, and traffic will be blocked on the northern division for some little time. The Maritime express will be delayed several hours in consequence of the wreck and a special will be sent east on her time. Two wrecking crews are at work on each end of the wreck, but it is impossible to tell just when the line will be cleared. Engine No. 317 was quite badly damaged. Driver Wall was in the cab, but no one was injured.

FRENCH PREMIER A STRONG MAN

LONDON, Oct. 22.—The resignation of the French Premier, M. Sarrien, has been foreseen for some days and M. Clemenceau's succession practically determined on. The new prime minister is recognized as the strongest statesman in France, and his long power will be needed to cope with the country's crisis over the law of public worship. It is not so well known that he may work a revolution in French official life. In a recent speech he declared his hostility to the army of placemen who hang on the skirts of departmental administration. Young Frenchmen prefer a small official position to the exertions of trade or industry. M. Clemenceau would disperse perverted ambition. It is reported that he may abolish the office of sub-préfet.

FOUR PROVINCES CLAIM BAY SHORE

OTTAWA, Oct. 22.—The Dominion Government has been furnished with a long statement of Manitoba's claim to the extension of her boundaries to Hudson's Bay, a question which will form the subject of a joint conference in Ottawa on Nov. 12 between ministers representing the Dominion and the Provinces of Ontario, Quebec, Manitoba and Saskatchewan, all of which are desirous of obtaining a slice of the far northern territory. Manitoba argues that her right to part of the district of Keewatin, adjoining Hudson's Bay, is superior to that of either Ontario or Saskatchewan, both of which already have such large areas, and that Quebec's interest is so remote as not to warrant serious consideration.

MURPHY PREDICTS HEARST'S ELECTION

New York, Oct. 22.—Political activity was renewed with energy today by the gubernatorial candidates upon whom the far had rested the burden of the campaign. Both held informal conferences with leaders during the day and tonight they appeared before large audiences. Charles F. Murphy, leader of Tammany Hall, was also out with a statement today. He again declared Tammany's allegiance to the league as represented by the Democratic state ticket and predicts the election of Mr. Hearst. The Independence League won a victory possible of widespread consequences when the board of elections today decided that the managers of the league having named a full state ticket were entitled to say what candidates should be placed under the scales, the emblem of the league. The action of the board will come up before the Supreme Court for review tomorrow. Should the court sustain the decision, many Democrats nominated by position will have no place in the league column on the official ballot.

S.S. CONVENTION THE SECOND DAY

A Busy Day and a Great Amount of Work Transacted—Good Reports.

The forenoon session opened yesterday in the Methodist Church at 9.30 a. m. The first half hour was spent in devotional exercises, the services of song being led by Mr. Meredith, and the Bible Reading by C. G. Tullar, who took for his subject—Pleasing God. (1) Can we please Him? (2) Can we know that we do please Him? (3) How to please Him? (4) The reward of pleasing Him? Mr. Tullar's plain, practical and Biblical address was greatly enjoyed by all. The president, Rev. G. R. White took the chair. The reports of the District Secretaries were given. The reports upon the whole, showed that the work of the S. S. Association is in a prosperous condition, and that the workers are faithful under many discouragements. Rev. W. W. Lodge, in the absence of Rev. W. H. Sedgewick, presented the Report of the Executive, which was adopted. Rev. G. R. White, on behalf of a committee of the Executive, presented the following resolution, which was, after being spoken to by Rev. A. D. McLeod, Rev. Mr. Dobson, W. C. Pearce, and others, unanimously adopted, and ordered to be published: "That, whereas the cost of the working of the two Provincial Conventions is upwards of \$2500 per year, and, whereas, our Convention pays but one-fifth of that amount, that we could on a cash basis, only expect one-fifth of the time of the Field Secretary, we therefore find that seven weeks of the choicest touring season of all the year was spent in this Province by the Field Secretary. Indeed all the time that the Prince Edward Island executive asked, was cheerfully given by the Secretary. But the great value of a Field Secretary is not in personal visitation to our schools but in keeping us in touch with the great Sunday School work of the world, and by a general oversight of the work in the whole province, and stimulating our schools through country and district organizations, and in planning out the work of the various districts, all of which has been done with a strong hand and in a most satisfactory manner. Your committee would therefore recommend that until such time as the various districts on the Island can give a satisfactory cash guarantee of an amount sufficient to support a man all his time in this province; that the present arrangement should not be disturbed, but just as soon as the money can be pledged that the province should have a man devote all his time to the work here. The feeling of the meeting showed that all parts of the province are delighted with the services of the talented Field Secretary, and only regret that they cannot hear him often enough."

BRIGANDS' ATTACK ON MONASTERY

ROME, Oct. 22.—Brigands the other night attacked the Monastery of San Spirito, which is reputed to be one of the wealthiest in Sicily. They found to their surprise, that the monks had other arms than those of faith. The robbers began to make a breach in the garden wall of the monastery at midnight. The noise alarmed the monks, who hurried to the place armed with rifles. Realizing the situation, they fired at the brigands, who replied. A sharp fusillade was exchanged. The superior of the monastery, who was not armed, took a prominent place, and, with a crucifix in his hand alternately recited prayers and directed the defence. What the result of the fight would have been cannot be said, but the monks went to the belfry and rang the alarm bell. The unwonted clang had the effect anticipated. Hundreds of peasants, conjecturing that the monastery was on fire, came running to help and the brigands fled, cautiously dodging the villagers.

AMERICAN NAVAL OFFICERS WORRIED

WASHINGTON, D. C. Oct. 22.—Certain prominent officers of the line of the navy are deeply stirred by news from London saying that the new British armored cruisers are inflexible, indomitable and invincible are mounted with batteries of eight 12-inch guns each, and will have a speed of at least 25 knots an hour. So say that this information has come like a bombshell to many officers is putting it mildly. Many prominent line officers are confessing that England has displayed originality and a spirit of naval progress which has been lacking on this side of the water, and that the United States is not only lagging behind the Mother Country, but also behind France and Japan, in adopting new ideas. Fairness demands, however, that it be said that this opinion comes from the lips of the navy, which traditionally takes position opposite to that of the staff.

JAPAN ANGRY AT UNITED STATES

NEW YORK, Oct. 22.—It would be difficult to over-estimate the gravity of the situation caused by the Anti-Japanese feeling that has been voiced against the United States. At a dinner attended by 50 prominent bankers and business men at the Imperial Hotel, deep feeling was expressed that America should regard with indifference the note that is tantamount to a declaration of a racial war. Little was said regarding the American protest against Japan's programme in Manchuria, the killing of Japanese sailors, the murder of the Japanese Bank President in San Francisco, the Hawaiian exclusion policy, the public attacks upon Prof. or Otori and Congressman Kahn's scheme, all of which incidents have occurred within three months, but the exclusion of Japanese children from the public schools of California cuts Japanese, a child-loving nation, to the quick.
