The Rev. E. Walker, P.P. of Rollo Bay, while crossing Rollo Bay ice had the misfortune of losing a valuable horse and narrowly escaped with his own life. The horse got in to a spring hole over which there was a thin coat of ice. The authorities should see that the ice on river be pushed as people who are not accustomed to the ice are liable to drive into those spring holes with serious results.

WOMAN SCORES CHURCH WORK

Says Followers Quicker To Lie Or Steel Than Any One Else

SAN FRANCISCO, Feb. 11.—In words which carried the direct sting of censure by denunciation and with an eloquence which stirred to its depths the placid waters of a churchly gathering, Mrs. Harriet T. Boyd last night turned the united service of the Daughters of the King and the Brotherhood of St. Andrew at Grace church into a sensational episode as any in the history of the Episcopal church on the coast.

"Professing Christians will lie, steal quicker, and think murder quicker than any one."

"I ask you, in the name of God, to come out from behind the screen of your laxity and hypocrisy and indifference and do your part in the work of the world as men should."

Mrs. Boyd, who has taken a prominent part in the affairs of the Episcopal church, particularly those of Grace church, had been asked to speak a few words at the request of Bishop Nichols.

"You may begin to criticize," she continued, "and say what is the use of hearing about unpleasant things? but I think there are too many things which we put under and cover up and sit upon and then turn around and say, 'everything is doing beautifully, thank you.'"

"It is only superstition that binds the Catholic church together. And you, men of the Brotherhood of St. Andrew, of which we have heard to-night, I am only a woman and I am a man, but I ask you in the name of God to come out from behind the screen of hypocrisy, laxity and indifference and do your part in the work of the world as men should."

THE HORSE GOES FROM PARIS

Auto Causes A Ten Per Cent Reduction In Number Of Animals

PARIS, Feb. 12.—Is Paris going to lose its ancient reputation as a hell for horses, in which they serve only as the favored possessions of the rich or food for the poor? Is animal traction disappearing before automobilism?

That such an improvement on the horse's destiny is steadily approaching is shown by the very careful horse census which is taken annually by the military authorities. This shows that Paris possesses today 83,458 horses, as compared with 92,020 in 1897, or a diminution of 8,562, or ten percent, in ten years.

That the diminution is due to the increase of duty tractions is proved by the fact that it is the greatest in the fashionable quarters along the Champs Elysee. The diminution is not limited to private individuals, for a company which runs all the Paris omnibuses shows a decrease of 3,872 owing to the use of motor buses. One cab company's horses decreased in use to the number of 1,878 in the same period.
