CORRESPONDENTS should remember that to ensure early appearance of correspondence all matter sent in should be cut down as much as possible. Every attention is paid to correspondence but it is impossible to get everything in as written, especially when as of late many communications are being received each day. THE French cruisers Judin de la Graviere and Desaix sailed last week from New York for Halifax. They will remain there several days and then proceed to Quebec. The Desaix is an armored cruiser of 7,735 tons and 420 feet long. The Graviere, which is a protected cruiser, is of 5,085 tons. Both vessels have main batteries of eight 6.1-inch quick firing guns in turrets. The Desaix has 500 men and the Graviere 450. Many citizens would be glad to see these vessels visit this port and an invitation to that effect from those in authority would doubtless be heartily endorsed by the general public.
