When You Neglect Colds You Risk Serious Illness

FOR YOUR COLD TAKE FATHER JOHN'S MEDICINE USED OVER 80 YEARS TREATS INSIDE: WHERE COLDS SHOULD BE TREATED

A Morning Smile

"Well," said a husband, anxious to patch up the latest quarrel with his wife, "aren't you curious to know what's in this parcel?"

"Not very," replied the angry wife. "Well, it's something for the one I love best in all the world."

It's a laugh on the Scotch again! And here's the essence of economy illustrated in the favorite story of the well-known writer, Paul de Klerk.

McTavish had taken up riding, and he was going into it with all the thoroughness of his race. He had completed his outfit except for one thing, and this he set out to purchase.

"One spur!" exclaimed the clerk. "But we never sell a single spur that comes in pairs, and if you want them for horse-back riding you will have to have two."

"Come, lad, I'd like to see but one spur, if I can get the right side of the horse's girth," the left side will come right along."

GROOMING: A MATTER OF SENSE

It's quite possible in fact a fairly simple matter—to be well groomed, smartly dressed and nicely made up all of the time at a moderate cost in time as well as money.

Anyone will agree that it's not so difficult to be interestingly att.

DAFFODIL APRON We get hundreds of requests for aprons embroidered with daffodils. Nothing gives a brighter outlook to home than these beautiful flowers...

The Danger of Coughs Among the Children In young children a cold or cough is not a thing to be disregarded, as it is often of a grave matter, and unless attended to immediately may, eventually, cause serious trouble.

THE Gift Wife By RUPERT HUGHES

"Mirum! Mirum!" "That misper just reached her. She stared, turned, saw him, checked a cry with a swift hand to her mouth. The smile rose as she alone could rise, like a lark—came to him leaping, lithe, oblivious of her unwelcome costume. The hands met in a fierce clutch and she dropped at his side.

CHAPTER XIII

Rarely has a Woman's Five Minutes been longer than Jennie Ludlam's, rarely has it seemed shorter.

Nothing Girl Can Do And there is nothing the girl can do about it. She was not engaged to the boy. He had never mentioned marriage to her.

Ways of Finding Out You ask, how is a boy to find out whether she likes a girl or not if she doesn't go with her steady? Just as you do about getting acquainted with a new girl.

KEEP UP WITH YOUR EDUCATION Dear Dorothy Dix—I am an 18-year-old boy in grade eight and have been offered a good job as errand boy in a large store, with good wages.

DO NOT MARRY UNTIL YOU ARE CERTAIN Dear Dorothy Dix—I am a young man who has been going around with several girls. Have finally decided that it is time I married and get a wife.

Important Message to Folks Who Have HEAD COLDS If head is stuffed up, eyes watery, nose running or so clogged you can hardly breathe—put just a few drops of Vicks Vapo-rinol up each nostril. Then sniff the grand relief it brings.

3-PURPOSE MEDICINE VICKS VAPORINOL (1) shrinks swollen membranes—(2) soothes irritation—(3) helps flush nasal passages, clearing clogging mucus. It's the special, tested way to relieve misery.

EVERY DROP THE SAME

Peppers are rich in vitamins C.B. and G.

Sometimes it's the fabric that is the big point. Again, it's the new long jacket with the lean-through-the-hip look. Or the very boxy fur jacket over a slim dress.

Tailored suits in tweeds. And most especially in out-of-the-ordinary tweeds with a smooth face that tailors very well. Skirts all inverted pleats to hang straight. Jackets all on the long side with 25 inches a good average.

Country suits in beautiful tweeds with hand-knit yokes, midwrists and sleeves as a new freedom feature.

Metropolitan, big-city suits in the slimmer, sleeker silhouette and really long jackets (average 26 inches) that make the most of lean hips.

Dressmaker clothes are everywhere—the individual touch that Paris used to love is New York's pet.

INSULATION IDEA Owners of noninsulated homes are urged by engineers to use paste color panels to convert an unfinished attic into one or more rooms. With the double advantage of providing more living space and also overhead insulation for the house in a single operation.

STAIR LIGHT Dark stairs can be improved by placing windows at the bottom side or top if construction of the building permits. Windows may be installed with funds obtained from qualified lending institutions under the modernization credit plan.

SOAP AND WATER Don't let anyone tell you that bland soap and water will hurt your skin. Face and neck ought to be lathered thoroughly, then rinsed and rinsed and rinsed at least once a day—preferably twice.

GLASGOW (CP)—Tunnel air raid shelters are practicable in the hilly districts of Glasgow and there is no reason why they shouldn't be constructed, reported Dr. G.W. Tyrell, a geological expert, after inspections.

TUNNELS FOR SAFETY

ENGLISH CHRISTMAS CAKE One lb. butter, 1 lb. brown sugar, 2 lb. currants, 2 lb. seedless raisins, 1 lb. dates, 2 teaspoons mixed spice, vanilla, 3-4 teaspoon soda, 5 cups flour, 1-2 lb. mixed peel. Bake in very slow oven 3 or 4 hours.

DARK FRUIT CAKE This makes a very moist cake and if you prefer a fruit cake to be rather on the dry side (some do), suggest that you add another 1-2 cup of flour.

Dorothy Dix Says

WHEN LAD GROWS TIRED OF GIRL HE CAN RUN AWAY Therefore, it is Best for the Young Woman Not to Keep Too Steady Company Until She Knows His Intentions

Dear Dorothy Dix—We are a group of boys who disagree with what you say about girls not going steady with boys until they are engaged and the wedding day set.

Answer—This being a man's world in which men have pre-empted most of the privileges and perquisites of life, the consequences of a boy and girl "keeping company" are far less disastrous to him than they are to her.

Answer—All means keep on your education, unless you want to be an errand boy or a balance of your life.

Answer—The first question that will be asked you whenever you apply for a position will be: What school did you graduate from? And if you have to go to school, you will find it almost impossible to get any worthwhile education.

Answer—Times have changed since your father was a boy. In his day there were not the opportunities for getting an education that there are now, and not so much stress was put upon what they called "book learning."

Answer—But now in a mechanized world, with a knowledge of machinery almost as essential as knowing how to read and write, with all sorts of engineering projects being carried out with new developments in radios and airplanes and undreamed-of discoveries in chemistry, a boy without an education is just hopelessly handicapped.

Answer—Certainly your father owes it to you to give you a chance in life, and you should insist on his letting you continue your education.

Answer—Dear Dorothy Dix—I am a young man who has been going around with several girls. Have finally decided that it is time I married and get a wife.

Your Individual HOROSCOPE

By Frances Drake

For Tuesday, December 10th

MARCH 21 to APRIL 20 (Aries) —Your patience and perseverance may pay off considerably today but if you'll be firm in your resolve to take everything sensibly in stride you need not worry about your usual duties without stress or obligations smoothly. Don't invite risks.

APRIL 21 to MAY 20 (Taurus) —Construction work, handling machinery, tools an chemicals ask special attention and care. Your health should have consideration. Protect the throat and lungs. Routine matters and familiar activities most favored.

MAY 21 to JUNE 21 (Gemini) —Today advises keeping out of debt as much as you possibly can and avoiding "risky" moves. Study established business and necessary activities are first in favor. Keep cheerful.

JUNE 22 to JULY 23 (Cancer) —Don't worry about not acquiring quick or showy gains. Strive to do the best you can and attend to necessary matters first. You should find time for relaxation after working hours. Above all, be cooperative.

JULY 24 to AUGUST 23 (Leo) —Manufacturing, dealing in essential commodities, health measures, government and state interests and projects from which you don't expect immediate monetary returns are favored. Extravagance taboo.

AUGUST 24 to SEPTEMBER 23 (Virgo) —Discrimination (one of your inherent gifts) much needed today. Unnecessary expansion should be deferred until a more propitious time. Proceed with your usual duties without stress or obligations smoothly. Don't invite risks.

SEPTEMBER 24 to OCTOBER 23 (Libra) —Educators, lawyers, artists, executives. Be especially patient with matters, familiar work, planning, study and preparation for future action are best bets. Be cautious in investments and expansion. Don't overestimate.

OCTOBER 24 to NOVEMBER 23 (Scorpio) —Whatever your plans and schedule for today, make up your mind that you'll accomplish more. You'll be in a better frame of mind at evening if you go calmly about your activities. No worrying!

NOVEMBER 24 to DECEMBER 23 (Sagittarius) —More favorable for general matters and necessary activities than for personal attainment and benefits. Gain will come through service to others and patient effort.

DECEMBER 24 to JANUARY 21 (Capricorn) —Finishing incomplete matters, familiar work, planning, study and preparation for future action are best bets. Be cautious in investments and expansion. Don't overestimate.

JANUARY 22 to FEBRUARY 20 (Aquarius) —Money problems, collections and returns will probably be slow, perhaps aggravating, but constructive achievement can be accomplished in all worth while and necessary matters.

FEBRUARY 21 to MARCH 20 (Pisces) —Professional pursuits, including the theatre, radio; hospitalization, educational, and research are favored before monetary gains. Routine and familiar work should move along productively.

A CHILD BORN ON THIS DAY will be a vital, colorful, independent and industrious somebody. Success can come in diplomatic services, politics, banking, or through large institutions. Will be an ambitious, conscientious worker no matter what its trade or calling. Must learn to be more amenable to suggestions.
