PAINS ACROSS THE BACK

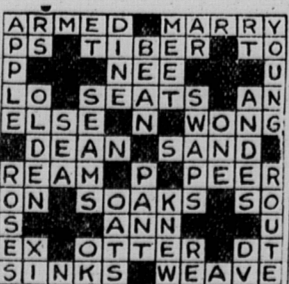

Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steadily all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing-down pains, headaches and pains across the back. I have my home to look after, and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and Mrs. John Miller told me about it, too. Every time I take it, it makes me feel better and I always recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonial."—Mrs. F. J. WASSMANN, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know. Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes."

This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

(Associated Press) LONDON, Mar. 17.—It will be possible, in the near future by the aid of the X-ray, to see through steel eight inches thick. Professor Pullin, director of the Radiological Research department at Woolwich Government arsenal, asserted, but what is sought by scientists is an apparatus to enable them to examine into casting ten or twelve inches through in thickness. This is desired so that flaws may be detected in castings, and avoid serious danger to workmen.
