THE CHARLOTTETOWN GUARDIAN

SATURDAY MORNING OCTOBER 6, 1906.

CALL FOR A NEW PARTY.

The Toronto World is a Conservative newspaper founded and controlled by Mr. McLean M. P. for East York, who has been in Parliament for fourteen years past. Mr. McLean's father, the late John McLean was the earnest advocate of protection for Canadian industries long before the Conservative party adopted that plank in its platform. The World has always been a strongly protectionist journal as well as the vigorous advocate of Government ownership of public utilities. It stands apart from other Conservative journals by a certain independence of attitude toward the recognized party leaders and party organs. The World strongly denounced the salary grab, and in this and several other public matters is not at one with Messrs. Borden, Foster, Monk and other Conservative leaders.

These facts may be borne in mind in connection with the fact that The World now declares that a new national party is wanted in Canada. It finds that the leaders of both parties are corrupt and selfish; that both Mr. Fielding and Mr. Hyman knew what was going on in the elections at which they were returned—in a word that "the men who profit by corruption must know all about it, and the public can take no other view." It was to have been expected that The World would condemn Messrs. Fielding and Hyman. But The World not without reason, turns upon some prominent Conservatives with censure quite as strong. Notably some of them in the late western land deal, it avers, "were ready, anxious, bent on, using their position as members who had votes, to seek information, and tips and land from railway promoters so as to make money for themselves."

The World proceeds: "The Lefurgeys and Fowlers and their other associates got the tips they got only because they would be expected to give back votes in return. And if you scan the division lists and the committee records you will see how the men who sought tips from the railway promoters paid the debt. . . How can any public man, least of all a member of Parliament, be the guardian of public rights against the aggression of corporations when the man is seeking to make himself rich on tips from those corporations?" This last question is a pertinent one. Wherefore The World calls for a new party, a national party, consecrated to public rights and honest politics. It has been the fashion of late in the party organs on both sides to sneer at The World and at Mr. McLean, but we believe that its condemnation of the party leaders on both sides reflects a sentiment widely prevalent in Canada. An honest national party is greatly needed, but we fear there is little present prospect of such an organization being effected in the near future.

Joseph Chamberlain is reported to be a helpless and hopeless paralytic, following a general breakdown from overwork in his gigantic education campaign. He is devotedly attended by his American wife, formerly Miss Endicott, who during his campaigns was ever at his side and usually upon the platform when he spoke. Universal regret is felt throughout the Empire over his illness and the dark outlook. Even those who did not share Mr. Chamberlain's views on all public questions recognized him as one of the brightest and ablest statesmen of the present generation.

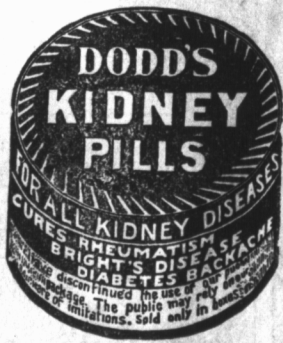

THE EXHIBITION.

What is hoped and expected to be the greatest Exhibition ever held within this Province will be formally opened by His Honor the Lieutenant Governor this afternoon at three o'clock. The larger and more comprehensive prize list than in previous years, the larger number of entries, the splendid attractions of the trotting course, the number of stock exhibits from abroad, the special attractions together with the general interest apparent, all indicate a fair of superior excellence and a large attendance. The weather is the one always uncertain element which does much to make or mar the best laid schemes of Exhibition managers. That we must take as it comes.

Perhaps at the outset a cautionary word may not be amiss. In any large assembly of persons much of the enjoyment of the occasion depends upon good feeling and a general disposition to respect the rights and convenience of others. The officials of the Exhibition will be very busy and ought not to be bothered with frivolous complaints and selfish or unreasonable contentions. The rules laid down for the admission of visitors and exhibitors and for the maintenance of order and decorum should be carefully observed. Nothing is we believe, prescribed to the limit the convenience or comfort of any person except what experience has proved to be necessary. If all are animated by a proper spirit in these matters we may count confidently upon them working together harmoniously to make the Exhibition a most enjoyable as well as a most successful one.

Across the border there is a strong movement to secure able, fearless, clean, and honest men as candidates for high office. Jerome and Hughes in New York, Moran in Massachusetts, and others are instances. It is time we had a general movement to like purpose in Canada. For, the price of a faithful, honest and capable public man is like that of the virtuous woman, it is above rubies.

There are some indications that all is not quite serene in Sir Wilfrid's Quebec following. There is reported to be a good deal of kicking over the proposed appointment of J. Israel Tarte as chairman of the Montreal Harbor Commission. The faithful ones cannot see why a choice should go to a gentleman who when Sir Wilfrid was ill and absent was thought to have speculated upon his demise and trimmed sails to catch the Opposition breeze. And there is also report that Mr. Bourassa has notified the Premier that he can be no longer counted upon as an independent follower but must wholly withdraw his support.

GOODYEAR PROCESS.

The Foolish Fogey Way And The Other Way

Many people still cling to the grand mother idea that a perfect custom made boot cannot be produced except by hand in the good, old fashioned, foolish, fogey way.

Hand made is right. A shoe should be hand made throughout and all Slater's are, but why should a shoe maker be condemned to tediously sew a shoe with awl, wax and knife at snail speed when he can do it a hundred times quicker and a hundred times better with a Goodyear Welt machine? There's no reason, except prejudice and tradition.

Every woman knows that for strength, evenness and durability, hand sewing cannot compare with the sewing machines product. Neither can hand shoe sewing compare with Goodyear machine sewing.

If you'd like a shoe without tacks, threads, stitches, lumps, hollows or roughness under the foot; if you'd like a shoe with the lock stitch which holds the sole on until worn to the thinness of paper, get a shoe that's made by the Goodyear Welt Process. As all Slater's are made by that process—Get a Slater's.

Anywhere in Canada at \$3.50 and \$4.00 for women and \$4.00 to \$5.00 for men—\$1.00 less than the best American makes and precisely the same shoe.

Mr. Hughes, who is to contest with Mr. Hearst the election for Governor of New York says "the supreme issue is the vital issue of decent government. That also, if we could but see it, is the supreme issue in Canada as well as in New York.

Premier Peters with Hon. Messrs George E. Hughes and A. B. Warburton in passing through Montreal on the way to Ottawa had an interview with the authorities of the McGill University respecting the affiliation of Prince of Wales College therewith. This is so far good, but what is really wanted is to raise Prince of Wales to the status of a degree-conferring College, so that our young men and women would not need to go abroad to complete their education.

AN HONEST MAN.

Wrote and told us that Ozone had not cured him of Stomach trouble. He did not say what kind of Ozone so we wrote and asked him if he was sure he had been taking solution of Ozone, the kind that contains a coupon entitling the purchaser to one full sized box, package of Celery King free of cost. He replied that he had unknowingly taken some other brand, and was sorry that he had treated us unjustly. Then he commenced to use Ozone (the coupon kind) with Celery King—he is a well man to-day. You can be cured just as easily if you are careful to ask your druggists for Ozone (the coupon kind) made by the PUBLIC DRUG Co., BRIDGE BURG, ONT.
