The Central Guardian

IT PAYS to buy in this Province.

"THE PORT OF MISSING MEN," a famous New York success at the People's Theatre this afternoon and to-night.

POLICE COURT.—At the Police Court yesterday Peter McAleer was fined \$5 or 10 days for drunkenness: He did not pay the fine.

ISLAND FIRM.—Messrs C. L. and W. S. Grant, of Charlottetown, have opened up a manufacturing agency in Halifax under the firm name of Grant Bros.

MARRIAGE ANNOUNCEMENT.—The marriage will take place on Wednesday, May 12th, of Miss Ethel White, daughter of Mr and Mrs W. C. White, Brighton, to Mr Alfred Pickard of this city.

NORTH WILTSHIRE RED CROSS.—The North Wiltshire branch of the Red Cross Society intend holding a social in the hall at North Wiltshire on Friday, May 7. Admission, 10c. and 15c.; ladies with baskets free.

HORSE NOTES.—Mr. Robert Simons, Crapaud, recently purchased a valuable driving mare, sired by "Pleewood," from Mr. Samuel Cameron, Hampton, Mr. H. R. Proft, Victoria, recently disposed of his fine brood mare and now owns a valuable and stylish driver which he got from Mr. F. A. Woton.—V.

PERSONAL MENTION.—Miss Hatie Gillis, Argyle Shore, spent Sunday in Victoria, the guest of Mrs. William McDonald, Mr. William Gillespie, Appin Road, was in Victoria on business Tuesday last. Mr. Lee Howard, Cornwall, was a visitor in Victoria on Tuesday.—V.

A SPLENDID COMPANY.—A few months ago Captain Barclay, of Montreal, commenced a movement to mobilize a company of men either students or graduates of the different colleges and universities of Canada. His efforts were crowned with success and at present there are 250 men in training, all of whom have at some time been students at some college or university. The majority of them are quartered in the McGill Union, while the company headquarters is at 382 Sherbrooke Street West. Almost every university in Canada is represented. Saskatchewan University with 24 men has the largest number from one college. McGill, Queen's, McDonald and Vancouver have also a good showing. It is not uncommon to meet men with a B.A. or B.Sc., while there are several who have won an M.A. and at least fifteen students of theology in the ranks. Though this company has been in training for only a short time it has won a reputation for itself already. The following island boys are in this company:—Jack McLeod, Summerside; George Bonness, George Marchbank, Alberton; Charles Buxton, Cape Traverse, and Don McLean, formerly of Charlottetown.

A THRILLING EXPERIENCE.—A serious catastrophe was narrowly averted on Tuesday night. Two young men from North River had spent the evening in Charlottetown and at about eleven o'clock left Brighton shore to row to York Point wharf. They had rowed scarcely a hundred yards from Brighton when a thick fog came upon them and they lost sight of the land on both sides of the river. This didn't alarm the youths, however, for both were familiar with the currents of the stream. The boat was not again heard from until five o'clock the next morning, at which time they landed at Holland Cove. When questioned concerning their adventures, they told that they rowed on through the fog; but instead of striking land they struck ice-floes. Thinking they had drifted out of the Harbour, they turned and rowed against the tide, which was running out, but the ice only became thicker and thicker. They rowed about all night and at daybreak caught sight of the high bank at Holland Cove. So far as they could judge from the current, they had then been rowing in toward the Harbour's mouth for at least an hour.

won for him the love and respect of the student body, the high regard of his fellow seminarians and the respect of his superiors. The body was brought to La Porte and interred in the seminary plot of the Catholic cemetery. God rest the gentle soul of Joseph Steele!

DEATH OF DR. STEELE.

On Monday a Requiem Mass was offered for the repose of the soul of Dr. Joseph Steele, of Laporte Seminary, who died last Friday. Dr. Steele had been a Roman schoolmate of our pastor, and followed the latter to this part of Texas, also on account of his health. While at Kerrville Dr. Steele seemed to recover so rapidly that he became overconfident and resumed his student life all too soon. He had been a Canadian professor for many years previous to studying for the priesthood. On account of this experience he proped very serviceable in our mountain resort. It had been the dream of his many Kerrville friends to surprise him in a couple of months with valuable ordination presents, but the all-wise Providence preferred that this new Gabriel dell 'Adolorata should sing his "Introibo ad altare" where angels themselves can be his altar boys.

CANADIANS 72 HOURS WITHOUT FOOD.

LONDON, April 27.—(5.27 p. m.)—The Canadians who fought so valiantly and lost so heavily in the recent fighting near Ypres, went, in most cases 48 and in some instances 72 hours without food. Most of their officers were lost. This was learned from a young wounded Canadian, who arrived in England today from the Continent.

HORSE PURCHASED.—Mr. Walter Rogerson, Hampton, on Saturday last purchased from Mr. G. C. Holland, Victoria, a valuable Clydesdale mare for a small sum.

RECEIVES DEGREE.—In the results of the spring examinations at Queen's University, Kingston, Ontario, among those having been granted the degree of Bachelor of Science in Electrical Engineering the name of Mr. N. J. Nixon, Fraser Bridge, P.E.I., appears.

EYE TESTING.—From the advertised column it will be seen Dr. Watson, Eye Specialist, Toronto, is at present on a professional visit to Charlottetown. Dr. Watson is a graduate of the Royal College of Science, Toronto, and has had twenty-five years practical experience in eye-testing. He is located at the Queen Hotel, Ladies' Parlors, where he will be in residence for a fortnight. 9728.

ACCIDENT AVERTED.—What might have been an annoying, if not serious, accident was opportunely averted yesterday afternoon, when a pedestrian saw a little boy placing a steel hoop across the railway track in the vicinity of Bruce Stewart's while an engine and a few trucks were approaching. The man rushed up to the spot a few seconds ahead of the train and snatched the obstacle from the track. Meanwhile the mischievous urchin, scampered off, laughing and while at what he thought an intensely funny trick, and defying the man to catch him. That the engine would have been derailed if it had struck the hoop there was no doubt, and it was only by a great piece of good fortune that there was not an inconvenient delay in the traffic. Certain boys in the city seem to have an overweening penchant for perpetrating jokes that are not always harmless and the police might endeavour to convince them that their pranks are not altogether appreciated. The day before yesterday another impudent and effervescing youth deliberately threw a stone at one of the two electric lights in front of the Provincial Building shattering it to atoms. Something should be done to stop this kind of behaviour.

LIBERALS FEAR ELECTION (Continued from page 5) cannot prosecute war unless we are in a position to carry on our affairs at home, pay the interest upon our public debt and preserve our financial credit in international markets. The policy of the Opposition as exhibited in their criticism of this budget would not permit this to be done. As to their attitude upon this war budget, at this the most critical period of the Empire's history, I pass no further comment than to say that the people will know, appreciate, weigh and understand.

LIBERALS FEAR ELECTION

(Continued from page 5)

Preference Really Increased The pretence that the increase in the preferential tariff places an obstacle in the way of Great Britain's trade with Canada, is a transparent one. If Sir Wilfrid Laurier is sincere, he is hopelessly ignorant of the subject with which he ventures to deal. That would not be exactly a new thing with him, but the fact does not in any sense lessen his responsibility as the leader of his party.

Necessity Made Clear

High W. T. White made the necessity for this five per cent. clear even to the unwilling Liberal understanding. The proposition is this: In order to obtain the necessary revenue, that is, to replace revenue lost through war conditions, he has had to resort to the tariff and has had to impose a duty on what were free goods. A corresponding increase in the rate on the finished article follows necessarily if Canadian industries are to continue. Those industries represent a capital investment of \$1,200,000,000, the employment of five hundred thousand people, including the heads of families, and a yearly wage total of \$250,000,000. Again, if the raw materials used in Canadian industries are made dutiable, if the general rate is increased, an increase in the preferential rate follows necessarily unless these Canadian industries and workmen are

Preference Extended There is yet another phase of the situation which Sir Wilfrid Laurier either overlooked or failed to understand, namely the position of the free list as regards imports from

One-third of an Increase

Had the horizontal increase in the tariff applied equally to the general and preferential rates the Liberal leader would have been on stronger ground, although the old preference would still exist. But the increases in the general and preferential rates are not the same. The one is seven and a half per cent. and the other only five per cent. In other words there is a preference of one-third on the increase itself in favour of the British exporter, and against his foreign competitor.

THE CANADA LIFE HAS A WAY

Under this company's Continuous Monthly Income Policy an ideal solution is furnished to this problem. On the death of the assured the beneficiary at once enters on a monthly income guaranteed to her for life. Foolish or designing advisers cannot tamper with it.

There are many features about this new contract which will surely appeal to every family man. Booklet No. 283 tells interestingly about them. We shall be glad to send you a copy.

Herbert C. Cox, President and General Manager.

W. K. Rogers, Manager for Prince Edward Island, Charlottetown.

BIG STOMACH OF GASES, SOURNESS, AND INDIGESTION

"PAPE'S DIAPERISIN" ENDS ALL STOMACH DISTRESS IN FIVE MINUTES.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diaperisin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any druggist and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headaches, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diaperisin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

Great Britain. Under the tariff as it existed before the recent change the British exporter of free goods has no preference in the Canadian market, the same goods being free when purchased from his foreign competitors. Imports from Great Britain under the free list amounted to no less than \$25,000,000. There is now a British preference of two and one-half per cent. on all the articles in this list, where formerly there was no preference at all.

THE MASTER KEY

Did Sir Wilfrid Laurier touch upon this NEW preference in his speech? Not he. Now what will the effect be? The Laurier objection, if it is an objection at all, is based upon the theory that the exporter pays the duty. But that is not and never was a Liberal theory. On the contrary, it has always been contended by Liberals that the consumer pays the duty. If that be so, and the Minister of Finance stated that he did not controvert it, how is the five per cent. increase an obstacle or a barrier against the trade of Great Britain?

A Policy of Destruction

That is the keynote of the Liberal attack. The Liberals have advocated a fiscal policy which would destroy Canadian industries and stop all public works, throwing thousands upon thousands of Canadians out of work from one end of Canada to the other. A. K. Maclean, financial critic of the Opposition demanded that expenditures upon public works be stopped instead of the imposition of new taxes. What does that mean? Unemployment. Sir Wilfrid Laurier demands that the preferential tariff rate be lowered beyond the point where Canadian industries could meet the competition of manufacturers in Great Britain. What would that mean? Unemployment. The Liberal party in Parliament says to the Government, in effect "Times are hard, make them harder. There is much unemployment and suffering in Canada, increase it."

to be sacrificed. The British manufacturer obtaining his raw materials free, would have a heavy advantage over Canadian industries using dutiable raw materials. Those industries would be destroyed. The iron and steel, leather and textile industries were mentioned by the Finance Minister, industries which give employment to many thousands of Canadians.

The same disregard for the welfare of Canadian workmen is shown all through the attack which the Opposition has made against the Budget. A. K. Maclean characterized as "absurd" the buying-in-Canada movement, a movement having for its object the employment of Canadians and the preservation of Canadian homes. Dr. Michael Clark of Red Deer called it "stupid."

Against this stand, taken deliberately by the leaders of the Liberal party, the Laurier twaddle about a five cent. tax on the poor man's railway ticket will count for little. A Constructive Policy The fiscal policy of the Government as announced in the budget is designed to strengthen the hands of the Canadian people at home and abroad. "I am not here to destroy," said the Finance Minister. "I am here to construct and build up." It is to that that the Liberal party takes exception. But Hon. W. T. White's concluding utterance left no doubt as to the Government's determination to proceed as the Canadian people would have them proceed.

"They desire," he said, "this Government to carry on this war with all its heart and all its soul and all its strength. That is what we propose to do. This we conceive to be our mandate from the people of Canada. If the right hon. leader of the Opposition doubts whether we have this mandate, let him say so. My right hon. friend may rely upon it that we shall not fail to take all necessary measures to ensure that Canada continues with the will of its people to carry out its whole duty to itself and the Empire."

This was a direct challenge to test the opinion of the people at the polls, and from such a test Sir Wilfrid shrank. From that moment he drew into his shell, and ever since his press agents have been protesting against an election. But he cannot have it both ways. He cannot, in the name of the people, thwart the Government, and then when his authority is challenged, object to a direct appeal to the people.

IN MEMORIAM

MRS H. C. GREEN.

A highly respected resident of Summerside passed away on Wednesday evening in the person of Mrs H. C. Green, at the advanced age of 82 years. She leaves to mourn, besides her husband, Mr H. C. Green, who attained his 95th birthday on April 2nd, the following sons and daughters:—Herbert, manager of the Bank of Nova Scotia, at Digby, N.S.; Fred, of St Paul, Minn.; Mrs James Clark, of Pittsfield, Mass.; Mrs H. C. Mills and Mrs W. B. Mills, of Summerside; Mrs Major Jones, of St Eleanors; Miss Eleanor, of Lebanon, Penn.; and Misses Sarah and Margaret at home. The funeral takes place from St Mary's Church to St Eleanors Cemetery today at 2.30 p.m.—X.

MR. WILLIAM EVANS.

Seldom in this community is death felt with such a shock as it was to Mrs. Patrick Kelly, of Selkirk Road, Iona, when she received a telegram on April 5th, announcing the sad death of her brother William Evans, which occurred by drowning at Hedley, British Columbia, on Easter Saturday, April 3rd. The Mr. Evans referred to was the youngest son of Mr. Michael Evans of Greenfield, formerly a native of Montague Bridge parish and left his native home 22 years ago, being then a boy of 18 years. The first eight years was passed as section foreman in Oldtown, Maine, after which he removed to Great Falls, Montana, where he obtained a position in the British and Montana Smelter Company with his elder brothers. This position he filled for ten years, when he retired and removed to Hedley, B. C. where he lived for the last five years until he met a sad and early demise. The deceased was a young man of exemplary qualities. He was of a kind, sober, inoffensive and quiet disposition and his many good virtues and qualities had won for him wherever he travelled on the globe a host of friends. He will long be remembered by his four sorrowing brothers and four loving sisters. His memory will ever remain green in their hearts for the loss of such a kind and lovable brother at the early age of forty-one years. May his soul rest in peace. The brothers are as follows:—James and Frank Evans, Great Falls, Montana; Charles, in England, and John in the old home, Greenfield. The following sisters also mourn:—Mrs. Patrick Mooney, and Mrs. Peter Goodwin, both of St. Teresa; Mrs. Hugh Harkins, East Boston, Mass.; and Mrs. Patrick Kelly, his youngest sister, of Selkirk Road, all of whom have the sincere sympathy of their friends.

DEATH OF JOSEPH J. STEELE.

The following copied from the Southern Messenger, of Texas:— Mr. Joseph J. Steele, formerly a student of St. Mary's Seminary, La Porte, died at St. John's Hospital, San Angelo, Texas, on April 9, 1915. Mr. Steele was a native of Littleton, P.E.I., born Sept. 26, 1887, and finished his collegiate course there; went to the American College at Rome and completed his philosophy, winning with high honors the title of Ph. D. His health broke, he came to Texas and after spending some time at Kerrville with Rev. Father Kemper, and a year at Castroville under the generous and scientific care of Dr. Fitzsimon, he entered St. Mary's Seminary in September, 1913. About two months ago he left for San Angelo, Texas. There under gentle care and kind nursing of Sister Robert and other Sisters of the Incarnate Word, God called him to Himself. Mr. Steele was a modest, lovable character. His mind was a beautiful and logical one. Though he had not ascended the mountain of the Lord, he was far on the way, and would have been ready for ordination in June. His concept of duty, his sense of service, his fidelity to every task

AT YOUR STORE 25¢ Dr. Wilson's Herbine Bitters are specially valuable. The blood is apt to be clogged with impurities which are the cause of headaches, indigestion and that tired feeling which comes with the Spring. Dr. Wilson's Herbine Bitters have stood the test of fifty years and have proved to be a true blood purifier. THE BRAYLEY DRUG COMPANY, Wholesale Druggists, St. John, N.E.
