Porcelain Inlay Work Now a Fact in Charlottetown.

Guarantee Dental Rooms in the Lead.

We are the first to introduce ACTUAL PORCELAIN INLAY work in Charlottetown. This is the highest class of work done in dentistry and practiced only by those in the foremost ranks. This work is rapidly taking the place of gold fillings and appeals strongly to those of refined tastes who dislike the appearance of gold. The inlay is made of porcelain baked to fit the cavity in a furnace specially adapted for the purpose. It can be made any shade desired so it is possible to match a tooth so nearly in color that only by the closest scrutiny is it possible to detect the inlay. This work is equally as lasting as a gold filling and much more pleasing to the eye of the aesthetic.

It is the most recent advance of importance in Dentistry.

Call and we will show you samples of the work. We know you will be pleased. A ten year written guarantee with all work

THIRTY MILLIONS RICHER

The Mutual Life of New York

disbursed during the year 1902 over forty-four millions dollars and at the close of the year was thirty millions richer. Its assets are now over four hundred millions dollars (\$400,000,000). It is purely mutual. It has no stockholder. It has distributed in dividends over one hundred and five millions of dollars among policy holders. It has a surplus fund now invested out of which it can pay over three millions a year in dividends for the next twenty years—without spending of the large surplus during every year. It pays to insure in the grand old Mutual of New York.
