Yet James B Duke is to-day one of the wealthiest men in the world. When you see a liberal advertiser you see a rich man. The business man who in this age of advertising is afraid to invest his money in publicity will never accumulate a fortun

LAST NIGHT AT WONDERLAND

(Continued from page 1.)

the way an employer took to find out what his employes were doing when he was absent. The result was disastrous to the latter, and ostensibly rich in fruits to the former. This and the film entitled "25 cents short in his wages"— and another called "The Plank" will be comedy sufficient for any evening. Along with the vaudeville which is now certain of a warm reception— not omitting the two regular illustrated songs by the regular singers and a new one by Miss Burkhart— is an earnest of another evening of rare amusement and entertainment in Wonderland the "home of refined entertainment."

Announcements were made of "an amateur contest" to be held on next Friday evening full particulars of which will appear tomorrow.

In the meantime let the amateurs of the city get ready to win a $5.00 bill there is one in it for the one who succeeds.

NO. TWO AND NO. THREE

Sir--In your issue of yesterday is a letter signed "One of No. 3 Co.," in which he takes exception to the praise which has been bestowed on No. 2 Co. 4th C. A. for their work in the Artillery Competitions of 1907.

The statement is correct that the record of No. 2 is "unparalleled in the annals of Canadain Artillery." Now the statement of One of No. 3 that his company holds the record can be easily disproved. If any one will look up Militia Order 294, 1906, he will see that No. 3 Co. 4th C. A. won the General Efficiency with 684 out of a possible 900 points. In the competition of 1907, No. 2 Co. 4th C. A. wins first place General Efficiency, with 710 out of 900 points. Not only this but No. 2 defeats all Canadian batteries in every competition. I wish also to call the attention of "One of No. 3" to another incorrect statement in his letter in which he takes credit for first place in "Efficiency of Personnel and Equipment" whereas his company only secured third place. Now I have no desire to detract from the merit of No. 3 Co. I am only to proud too acknowledge their great victory in 1906. I think however that "One of No. 3" shows himself a poor artilleryman and does not display a very great knowledge of the subject when he rushes into print with such mistatements.

Yours Sincerely,
ONE OF No 2.
