Iron Development To Give 10,000 Jobs In Labrador

Death of Mrs. Malcolm Gillis In 100th Year

Mrs. Malcolm C. Gillis, 64 Bayfield Street, City, died yesterday afternoon at the age of 99 years. She would have reached 100 on February 3.

The late Mrs. Gillis was born in Haverhill, P. E. I., in 1850. She came to Charlottetown when quite a young woman and had the distinction of being a member of Zion Presbyterian Church for 75 years.

At the time of her marriage in 1878, she went to live at Grandview.

The children born to this union follow: Angus Allan, John Isaac, Mary Jane, William Heber and Malcolm M.

Mrs. Jane and William Heber passed away some years ago. The husband of the deceased died in 1914. In 1916 she returned to the City where she has lived with her son Malcolm M. up until the time of her death.

Almost to the end of her days, Mrs. Gillis enjoyed excellent health and took a keen interest in passing events. When Zion Church held its anniversary services two years ago Mrs. Gillis was present. She also attended the Sacraments held in October 1948.

Red Pattern To Be Applied To All Asia

By James D. White
Associated Press News Analyst

There should no longer be much doubt about the plans of Communist China for the rest of Asia after China. It was all neatly laid out last week in a speech by a Chinese Communist named Liu Shao-Chi. This Moscow-educated Chinese addressed the opening of the world Federation of Trade Unions conference in Peking. The topic of the meeting was Asia and probably not since Hitler's "Mein Kampf" has there been such a frank statement of intention with a step-by-step explanation of how it can be realized.

Liu Shao-Chi leads the pro-Moscow clique in the Chinese Politburo. His group, at the moment, appears to dominate Chinese Red policy.

In the broadcast text of his speech heard in San Francisco by the Associated Press, Liu said the pattern of Communist victory in China "can and should" be applied to "other colonial and semi-controlled areas."

In this territory, noted Liu, live "more than one-fifth of the total world population, with rich resources, hard-working peoples as well as the most long-standing cultures."

Due entirely to the exploitation of Western imperialism, said Liu, these areas have been impoverished and must unite under a common leadership to get rid of imperialism. Imperialism had been weakened by two world wars and the victory of Communism in Russia and China and the "liberation movement" was

Coming Events

- *Mail your Films to Garnham Photo Studio, Charlottetown.
- *Come to the regular Dance in Bonshaw every Tuesday night.
- *Card party Graham's Road Hall, Tuesday, Nov. 28.
- *L. O. B. A. Concert in Crapaud Hall, Wednesday, November 30th.
- *Show and dance after at Bradshaw tomorrow (Tuesday) night. Be sure and be present.
- *Postponed Pic Social and Dance will be held on Monday, November 28th.
- *Mount Herbert Farm Forum at home of David Mutch tonight. Central set-up to be explained by visiting speaker.
- *All interested in a rink for North Wilshire are asked to meet in the hall Monday, Nov. 28 at 7 p. m.
- *Show at Cape Traverse tonight at 8.30. Come and laugh your eyes out at Abbott and Costello in "It Ain't Hay."
- *Come to the Warren Grove School concert in North River Hall on Thursday, Dec. 22, beginning at 8.00 o'clock sharp.
- *Come to New Glasgow Hall on Dec. 2nd to hear variety concert sponsored by North Shore Glee Club. Special numbers by Prof. W. A. Jones. Sale of candy.

\$150,000 Fire At Montreal

MONTREAL, Nov. 27 (CP) — A spectacular \$150,000 two-alarm fire late tonight gutted the interior of a four-story building on Notre Dame Street in downtown Montreal.

No one was injured.

Located at stone's throw from Montreal City Hall, the building housed the wholesale dry goods firm of P. G. Amber and Company, Ltd., and Wilfrid Carriere Company, toy wholesalers. Stocks of both companies were practically all destroyed.

Move To Set Up New Federal Dept.

OTTAWA, Nov. 27 (CP) — Legislation to break up two Government departments and distribute their branches among three new departments was given first reading and general approval in the Commons Saturday.

The legislation eliminates the rambling Mines and Resources Department and the Reconstruction and Supply Department. The latter was set up late in the war to plan for the country's return to a peacetime basis.

In their place will be three new departments—Resources and Development; Mines and Technical Surveys; and Citizenship and Immigration. In addition, the State Secretary's Department will turn over administration of naturalization and citizenship to the new Citizenship and Immigration Department.

Prime Minister St. Laurent, introducing the bills, said it won't necessarily mean an immediate increase in his 21-member Cabinet.

Canadian Farmers Win 3 Awards At Chicago

By ROBERT MARJORIBANKS

CHICAGO, Nov. 27 (CP) — Canadian farmers, one of them a grey-haired, 55-year-old woman, won three of the major grain championships this week-end at the International Hay and Grain Show here.

Mrs. Amy Grace Kelsey of Erickson, B. C., Saturday won the title of wheat queen, premier award of the show. Today Sydney H. Lawlowski of Spedden, Ala. was named oats king.

The third Canadian award, that of rye king, was taken by Albert Kessel of Rosetown, Sask.

The barley king award also was decided today and the winner was L. E. Peterson of Victor, Mont.

Mrs. Kelsey's victory brought Canada her first major victory in the Hay and Grain Show, held in conjunction with the International Livestock Exposition, Canada also has scattered entries in the livestock classes but grain is traditionally her strong point.

Mrs. Kelsey, who grows her wheat on an experimental plot on her ranch in the Kootenays, is the only woman who has ever

Poles-French Continue Eye-For-Eye Tactics

WARSAW, Nov. 27 (AP) — Poland rounded up a group of Frenchmen and France deported nine more Poles Saturday in the eye-for-an-eye struggle set off by the arrest of a French consular attaché in Poland the week before last.

Each country accuses citizens of the other of spying.

Diplomatic circles here view the chain reaction with some alarm. They say the affair might easily get out of hand and snap diplomatic relations between Paris and Warsaw.

The Polish Foreign Ministry announced the arrest of Antoine Bolte, French vice-consul in Warsaw, in reprisal for the French arrest Thursday of Joseph Czeszczynski, Polish vice-consul at Lille.

The French Embassy told of other arrests. An Embassy stenographer, Sophie Milczynska, and a consular stenographer, Elida Penon-Ochomonska, were among those held. Both are French citizens. A Polish stenographer of

Smallwood Says Will End Nfld. Unemployment

By Rupert Jackson

Canada's Press correspondent ST. JOHN'S, Nfld., Nov. 27 (CP) — A vast, new industrial empire that will probably change the face of the North Atlantic steel industry in the next decade will be opened up in the frozen wastes of Ungava and Labrador next year.

Premier Smallwood of Newfoundland told a press conference Saturday development will begin by next autumn on the huge, rich iron ore deposits in the area that will probably replace Minnesota's Mesabi Iron Range as the biggest iron producer on the continent.

Mr. Smallwood quoted correspondence from Canadian mining kind Jules R. Timmins, who said a group of American steel companies has taken an option to participate with Canadian interests in the development. Between \$150,000,000 and \$200,000,000 will be pumped into the project in the next three years.

10 Million Tons Annually

About 10,000,000 tons of iron ore will roll annually south along a new 360-mile railway from Knob Lake, near the Labrador-Quebec border, to a new port to be built at Seven Islands, Que. Production later will be stepped up to around 20,000,000 tons a year. The Labrador-Quebec iron range is known to have a capacity of 500,000,000 tons but deposits are probably far greater than that.

This gave rise to speculation that the American steel industry would begin a trek to the Atlantic seaboard as that Boston, or some other city on the coast, might eventually replace Pittsburgh as the steel city of the U. S.

The iron development may be tied in with a proposed water power project on the Hamilton River, 200 miles west of Goose Bay. The Grand Falls there, first discovered in 1936, have a potential of 10,000,000 horsepower, enough to supply all Canada. Grand Falls is about 100 miles east of the site of the iron ore development.

Many see export of iron ore to the United States as helping to cure Canada's dollar shortage, excluding the original American dollar.

Some 10,000 men — 5,000 from Quebec and 5,000 from Newfoundland — will be employed on the initial construction job. Premier Smallwood said this would virtually eliminate unemployment in Newfoundland.

Some 5,000 workers now are on relief in the Province.

Observers said creation of the new industrial empire in the heart of the wild territory that Jacques Cartier called "the land that God gave Cain" would do much more for Newfoundland than solve her unemployment situation.

Western Chiefs Meet To Map Strategy In Event Of War With Russia

PARIS, Nov. 27 (CP) — Top soldiers of the Western World met here tomorrow to figure out how to stop Russia from trampling Europe in case of a third world war.

Chiefs of staff of the 12-country Atlantic defence treaty face first the problem of integrating their separate defence systems. When such a plan is outlined, in terms of men and arms, the United States Congress will free nearly \$1,000,000,000 to pay for tanks, planes and ammunition.

The money was voted to pay for military aid for America's European partners in the North Atlantic Treaty. Congress tied a string to it, requiring the countries to produce an integrated defence plan, subject to United States approval, before the money is available.

The defence plan is the target for tomorrow when the chiefs of staff of Britain, the United States and France convene at the French Naval Ministry in a preliminary session.

They are to meet for two days, with Gen. Omar Bradley of the United States as chairman.

Political Angle Too

Then they will join Defence Ministers of the 12 countries Thursday for a meeting to wrap up the defence plan politically. As well, Defence Secretary Louis Johnson of the United States, with Bradley, arrived in Frankfurt today, en route here.

Defence Minister Brooke Claxton of Canada arrived in Paris today. He was accompanied by senior officers of the Canadian Army, Navy and Air Force.

At noon tomorrow Claxton will place a wreath on the tomb of the unknown soldier at the Arc de Triomphe.

A dispatch from the Hague said Claxton is expected to visit the Netherlands Dec. 6 and 7, following the meetings in Paris.

Charges Plot To Give U. K. Super A-Bomb

(By Marvin L. Arrowsmith)

WASHINGTON, Nov. 27 (AP) — Official inland forecasts issued to-night by the Dominion Public Weather Office at Halifax: Synopsis: Sunday was a very cold day over the Maritimes, Quebec and Ontario. High temperatures in Nova Scotia and Prince Edward Island were mostly in the mid 20s and in New Brunswick and Eastern Quebec between 10 and 20. The very cold air will continue to cover the district Monday, but somewhat higher temperatures will be experienced in most regions. Pressure should remain high over Quebec and little change is expected in the weather over most of the forecast district. A disturbance south of Cape Cod is moving eastward and is expected to cause snow in Western Nova Scotia Monday. Regional forecasts, valid until midnight Monday: Cloudy with snowflurries. Continuing cold. Light winds. Low early Monday morning at Charlottetown 20. High in the afternoon 30.

Eight Deaths In Severe Storm On Pacific Coast

VICTORIA, B.C., Nov. 27 (CP) — At least eight persons were killed, six of them in the capsizing of a tug Saturday, when week-end gales lashed the Pacific Coast. Floods followed torrential rains as the high winds moved inland.

Slides and washouts cut off Vancouver from rail connections with the east, isolating some rail passengers in stranded trains.

Six men aboard the tug George McGregor were lost when the vessel overturned while inbound to Victoria from Bamerton, B. C. Anderson, a seaman who escaped, said others aboard were Capt. John

Six Stores Are Destroyed, 100 Left Homeless

BROCKVILLE, Ont., Nov. 27 (CP) — Damage estimated by fire-fighters at more than \$1,000,000 was caused early today by a fire which destroyed six stores in this Eastern Ontario city and left 100 persons homeless.

No one was reported injured in the blaze. The blaze, believed caused by an explosion in a hardware store, at one period threatened to destroy 10 stores and apartments above.

Stores of persons evacuated the apartments and most of them managed to remove some furniture.

The fire started just before midnight Saturday night in Smart's Hardware store near the west end of the block and was brought under control three hours later by fire-control from six different fire departments. Firemen still poured water on the smouldering structures this afternoon as a precautionary measure.

The Brockville Fire Department was aided by men from the Royal Canadian Regiment at the Brockville military camp, from Prescott, Smiths Falls and Athens Fire Departments, and from Ogdensburg, N. Y., across the St. Lawrence River. The American company crossed on the Brockville-Morristown ferry with a large aerial truck and a pumper.

Stores suffering complete loss were Reynolds Grocery Store, the district National Employment Service, Smart's Hardware and Sheridan's Furniture Store. The furniture and hardware stores had stocks in the basements and on the second and third floors and the worst of the loss was in this section of the block.

Paints, oils and linoleum stocks fed the flames which shot about six storeys high with huge showers of sparks and burning fragments.

A large crowd that gathered ran quickly for shelter when ammunition in the hardware store started exploding. The shells, sounding like machine-gun fire, were mixed with numerous explosions of paint and oil drums. At one hour after the alarm was given the plate-glass front of the hardware store blew out and two hours later the front wall collapsed in the street.

Borrowing From Farm Loan Board Increases

OTTAWA, Nov. 27 (CP) — Canadian farmers borrowed \$4,919,300 from the Federal Government during the 1948-49 fiscal year to enlarge farms, it was the biggest volume of loans in 12 years for the Canadian Farm Loan Board, set up in 1929 to make first-mortgage loans to farmers for paying debts, buying livestock, land and equipment and making farm improvements. The board's annual report for the year ending March 31, 1949, showed today that loans during the year were 42 per cent higher than in 1947-48.

N. B. Youth Loses Life In Storm

McADAM, N. B., Nov. 27 (CP) — Lost in woods during a snow-storm Saturday, Daniel E. Brennan, 16, was found dead late Saturday night three miles from McAdam. A coroner's jury decided that death resulted from exhaustion and exposure.

Brennan, with three other teen-aged youths, left McAdam Saturday morning on a hunting trip. They hunted in pairs, and Brennan became separated from Russell Blair while following deer tracks. A search party was organized after the trio failed to locate the missing youth and his body was finally spotted in a clearing near a railway track.

Air Cadets Close To Authorized Size

FREDERICTON, Nov. 27 (CP) — The number of air cadets in Canada is close to the authorized maximum of 15,000. G. M. Ross, Ottawa, general manager of the Air Cadet League of Canada, told the league's New Brunswick committee at its annual meeting last night. He reported a total of 185 active squadrons, an increase of eight over last year.

Special attractions such as international visits, flying training and summer camps will be continued next year, he announced.

Find Unexploded Shell In Amethyst

PLYMOUTH, England, Nov. 27 (Reuters) — Workmen found an unexploded shell in the Royal Navy sloop Amethyst, a relic of her escape from Communist guns along the Yangtze River in China. It was found in the radar room and may be preserved as a souvenir of the ship's exploits.
