The party left in automobiles and expect to make the entire run overland, arriving April 15, the date on which the Thomas car is due to reach Granger. CASTORIA For Infants and Children. The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. Watson*
Soothing Oil Cures The Skin
Tender Skins of Children Soothed by Mild Liquid Compound.

Have you ever tried a few drops of an oil of wintergreen compound for skin trouble? It seems to be about the only safe and sure cure for eczema, tetter, ringworm and kindred diseases. The liquid is so mild that it is used with wonderful soothing effect on the tender skin of infants. To prove efficacious, the oil of wintergreen must be mixed with thymol and glycerine, as in the Prescription of Dr. D. Dennis, the eminent skin specialist. The compound is known as D.D.D. Prescription. Used with D.D.D. Soap it appears to be infallible. Mrs. William Fox, Chancery Lane, Brookville, Ont., tells her cure. "My little daughter's head still remains clear of the horrid scaly disease. Her father and I both notice how much brighter she is and her hair is simply beautiful, so thick and glossy, after six years of suffering. It seems wonderful that less than four bottles of D.D.D. should have cured her after so much money spent on the X-Ray treatment failed." For free sample bottle write to The D.D.D. Laboratory, Department C.G., 23 Jordan St., Toronto. For sale by all druggists.

PLEASANT EVENING AT WHEATLEY RIVER

On the evening of March 29th, the home of Albert and Mrs. MacKay, of Wheatley River, was the scene of a very pleasant occasion, when a large number of persons representing three or four different churches gathered there to express their appreciation of the Sunday afternoon services being held in that community, by Mr. MacLeod, the New Glasgow minister. The evening was spent with music, games conversation and a splendid supper was partaken of, after which the accompanying address was read to Mr. and Mrs. MacLeod, and a purse of more than \$37.00 offered, as a token of interest and encouragement. The National Anthem was then sung and all separated better acquainted with each other, better satisfied with life, and sure of having lightened, at least one burden somewhat, through an expression of sympathy in a very practical and substantial manner. "We have gathered here tonight for the purpose of giving expression to our feelings in some special manner. To this end these few words and the small gift which accompanies them are offered. Since coming among us some months ago, both yourself and Mrs. MacLeod have endeared yourselves to us in many ways. Your exposition of truth, and your rebukes of sin and immortality cannot fail to have their desired effect. Through your earnest efforts a good many have already been led to accept Christ as their Saviour, and we trust that many more may do so before your labors among us shall close. We hope and pray that both yourself and your amiable partner may be spared to see long lives of usefulness in the Master's work. As an expression of our appreciation of your labors, we now ask you to accept this purse and wish you both future prosperity and happiness."

ABLAZE IN BALLROOM WOMAN CAUSES PANIC

LONDON, April 15—The sudden bursting into flames of the dress of one of the dancers while a ball was in progress at the East Ham town hall last evening caused a panic among the 400 dancers present. The victim of the accident was Miss Lily Lewington, who was wearing a fancy dress representing a snow maiden. She had been standing in one of the corridors and it is believed that a cigarette thrown down carelessly set fire to the cotton wool with which her dress was covered. Terribly alarmed, she ran shrieking into the ballroom and for a moment it was feared that the flames from her dress would set fire to the dresses of the other dancers. The women ran in all directions, but fortunately one of the men present kept his head and tearing down some heavy plush curtains wrapped them closely around the burning woman. The flames were extinguished but not before Miss Lewington was seriously burned about the legs, face and arms. She now lies in a precarious condition in the Passmore Edwards Cottage hospital.

FIERCE AFRICAN TRIBE RULED BY WOMAN

LONDON, April 15—R. T. Coryndon, commissioner for Swaziland, is leaving England on his return to Mbabane, the Swazi capital. Discussing the situation there, Coryndon said that the natives had come under imperial protection of their own free will and they had never been conquered. On the whole their attitude is one of unswerving loyalty. "The chief regent," said Coryndon, in conversation with Reuters' representative, "is a woman of advanced age, who retains a wonderful alertness of mind and diplomatic energy. She lives very simply in her native kraal, about seventeen miles from the capital, and comes up once every six months to see the commissioner with a retinue following of chiefs and natives, travelling in a cart with six mules, which were presented to her by Lord Selborne. Her native name is Mibhlovokozzi, meaning female elephant. "The paramount chief Sothebeza is a pleasant-mannered boy of 10 years of age, who, having shown no sign of vice up to the present gives promising indications for the future. There are four or five clerks in the country who are hereditary legislators of great importance, the chief of them being an old man named Joxova. A native council exists, but it is somewhat dominated by the very capable personality of the chief regent. The country has never been more prosperous than at present. "There is not likely to be any difficulty with the Swazis over inclusion in the South African union."

BLOODHOUND'S SAVAGE ATTACK ON WOMAN

TACOMA, Wash., April 15—Curious to know whether a bloodhound is as vicious as it is reputed to be, several boys at Gig Harbor unmuzzled and unleashed a bloodhound belonging to J. A. Mitchell. The dog raced through the streets and meeting Mrs. Philip Brautigam, leaped upon her and severely bit her in several places. Before the savage brute could be driven away, the woman had been so seriously mangled that it was necessary to remove her to a hospital here. It is thought she will recover. Brautigam, the injured woman's husband has sworn out a warrant for the arrest of Mitchell, charging him with keeping a vicious dog. The hound was brought from Kentucky, where it was in service at the penitentiary of that state.

USE DYNAMITE IN THIS CIVIC CAMPAIGN

SAN DIEGO, Cal., April 15—The police of this city are endeavoring to obtain a clue that will lead to the attempted to dynamite the home of Superior Court Clerk, Edgar W. Dickinson several nights ago. The act is believed to have been the outgrowth of bitter feelings against Dickinson, resulting from the municipal campaign which ended yesterday in the defeat of Mayor John F. Foward, for re-election. The fact that a dynamiting had been attempted was kept secret for fear that further outrages would follow on election day. A stick of high explosive was found near Dickinson's window. The fuse had been ignited but became extinguished within an inch of the explosive.

METAL DISCOVERY BY BRITISH SCIENTIST

LONDON, April 15—Sir William Ramsay announced to the Chemical Society that he had succeeded in transmuting four different substances into carbon, namely, zirconium, thorium, hydrofluoric acid and bismuth. Experiments with silver nitrate, with the object of transforming silver in the same manner as copper is transformed into lithium, gave negative results. Sir William for twenty years has been trying to transmute metals especially silver, into gold. Only recently he was reported as having discovered a process for making artificial copper with the aid of radium. In connection with his experiments for turning silver into gold, he recently admitted that all his efforts have gone to prove that the effect of the radium emanations on metals is to debase them; that is, to make them of lower atomic gravity.
