THE PROPOSED TUNNEL.

"Progress" writes The Guardian from Sussex, New Brunswick, commending our advocacy of the tunnel. This writer says "the only solution of the situation is the construction of a tunnel and sooner or later it is bound to come. That it should be made the subject of earnest and unremitting agitation by every resident of Prince Edward Island is beyond question, and every Maritime Province citizen who is in the least progressive should also use his influence in behalf of this much needed enterprise." We are glad to find the subject thus attracting attention beyond the Straits, for the projected tunnel will be only a little less important and valuable to the people of New Brunswick and Nova Scotia than to the residents of the Island.

Our Sussex correspondent proceeds: "True, the advocates of this work will be met with the cry that it is too costly an undertaking. . . To my mind it properly andled the tunnel would command such a volume of traffic, as it would be the great highway between P. E. Island and the outside world, that at moderate transportation rates it would pay fairly well. But what if it did not directly pay dividends? It would add greatly to the receipts of the Island Railway and of the Government railways on the mainland. But does the Intercolonial Railway, which cost some seventy or eighty millions, pay? Does the P. E. Island Railway, which cost no small sum, pay? Do the canals of Ontario and Quebec, which cost more than the Intercolonial, pay? But there is still a greater factor than its being a paying possibility - right and justice demand its construction. The binding promise to the people of P. E. Island on entering confederation has not been kept, and the trade and commercial advancement of the Maritime Provinces demand that this solemn promise shall be made good with the least possible delay."

The severe winter in New England has so starved the hawks that they have emerged from the woods to prey upon the sparrows which congregate in the cities and towns. The crows are also very hungry and in numbers attack a single hawk wherever they can find one, with fresh determination to make a meal of him.

PROSPECTS OF PEACE.

There appear to be growing prospects of peace. The war has grown unpopular in Russia, even among the minority who first favored it. All bluster and bluff has been taken out of the war party. There is no longer any talk of dictating the terms of peace at Tokio. The Russian press is outspoken for peace. General Grippenberg in command of the second Russian Manchurian army has gone home to St. Petersburg. The foreign officers who have been watching the war operations on behalf of their several Governments are leaving or have already left for their homes. These include Gen. Sir Ian Hamilton and Gen. Sir William Nicholson of the British service, and other officers, of the German and Spanish armies. The list is said also to include hundreds of Russian and foreign officers, who would not be leaving if there was any prospect of a spring and summer campaign.

The disaffection, strikes and assassinations at home in Russia, the crushed counsels at court and of the field, and more than all the extreme improbability of reconquering Manchuria and regaining the prestige already lost in the war, all tend to strengthen the sentiment for peace. And yet it would be a terrible humiliation to Russian pride to confess defeat at this stage, to leave Japan in possession of Port Arthur and Dalny and restore Manchuria to China. It is extremely improbable that victorious Japan would make better conditions than these. But it would be better for Russia to pocket her pride and make peace now as she can, rather than face further defeats and disasters by continuing the war.

The best disinfectant of all is sunlight. It destroys by its very brightness all sorts of germs and at the same time helps the growth of plants and animal life. Doubtless all have noticed that mould grows during the night and in dark, damp cellars. Bright sunlight quickly destroys germs, mould or other organisms. That is why it is best to let the sunlight into your houses for its purifying influence.

At the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., Dr. Pierce, chief consulting surgeon, started experiments, some three years ago, with the Finsen light in conjunction with the X-ray in the treatment of diseases. He got excellent results therefrom, and was among the first to adapt this remarkable cure to many cases which it was formerly supposed must of necessity be treated by the knife.

Not only is Dr. R. V. Pierce notable for his surgical achievements at his hospital in Buffalo, but nearly a third of a century ago he discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that would be easily procured and ready to use. This he called Dr. Pierce's Golden Medical Discovery. It maintains the patient's nutrition by enabling him to eat, retain, digest and assimilate nutritious food. It overcomes gastric irritability and symptoms of indigestion, and in this way fever, nightsweats, headaches, etc., are done away with. It fortifies the body against the germs of consumption, grip and malaria, it builds up the tissues and puts on healthy flesh.

Those desiring to know something about the body in health and disease, also medicine and surgery, without technicalities, should read the "Common Sense Medical Adviser," which can be had for 50 cents in one-cent stamps for the cloth-bound book. Address Dr. R. V. Pierce, Buffalo, N. Y.

THIS IS A GOOD THING!

For Weakness, Nervousness, Loss of Flesh and every form of Debility—from Overwork, Overstudy, Worry or other cause, use

Puttner's Emulsion

the old established and proved remedy for Coughs, Consumption and all wasting diseases.

FIRST OF THE Y.M.C.A. SERIES

Of Sunday Addresses in the Y. M. C. A. Hall

Delivered by Rev. G. R. White—His Subject was The Kingdom of God and it was ably Dealt with.

The first of the Third Series of addresses in Y. M. C. A. Hall was given by Rev. G. R. White yesterday afternoon There was a large atattendance and the interest was deep.

Rev. G. R. White said in brief:

"The Kingdom of God" was the oft repeated phrase upon the lips of Jesus. In very many places in the four gospels do we meet the phrase, "Kingdom of God, or Kingdom of heaven", which is practically the same. The word "Church" has become a much abused one in our day. It may mean much, or it may mean nothing, to say he or she is a member of the church. It is sad, but true, that to be a member of the church to-day is not synonymous with being a saved man or woman. Without doubt there are many outside the church, who are in the Kingdom of God, and many on the church roll who are outside the Kingdom of God. Would it not be well for Christians to use the word "Kingdom" as did our Lord? The speaker then discussed his subject under three heads (1) Where is the Kingdom of God? In helping us to solve this question Jesus has given us at least two negative, and one positive answer. (a) "My Kingdom is not of this world." (b) "My Kingdom is not meat and drink." (c) "The Kingdom of God is within you." Both Herod and Pilate thought His Kingdom was of this world, and that Jesus wished to unerown them. An old Indian prophet was asked, "What is the Kingdom of God?" and he said: 'It is a spiritual congregation of souls born anew to God." In all his parables and miracles Jesus was illustrating and defining the nature of His Kingdom—saying, 'The Kingdom of God is like unto this and that. It is like leaven; it's like a mustard seed; it's like a merchantman seeking goodly pearls." The Kingdom of God is the reign of God in the hearts of men and women, and manifest in a life of obedience to the will and commands of God. The Church of God is not an end in herself, she is only a means to an end. But the Kingdom of God is final; an end in itself. Therefore we should pray God to use all our Churches in the extension of His Kingdom. But we will need to live and act that God shall be able to use us. He could not do many mighty works in Capernaum because of the unbelief of the people. Let us believe God with all our hearts that through us he may be able to extend His Kingdom.

(2) Where is the Kingdom of God? We have Christ's own answer here—"Say not lo here, lo there, the Kingdom of God is within you" "It is not meat and drink; but righteousness, joy and peace in the Holy Ghost." The Kingdom of God is something that has come, is coming, and is yet to come. Hence the prayer divinely taught—'Thy Kingdom come."

The advancing Kingdom of God effects the race physically, intellectually, morally and spiritually—only in truth the order is reversed, the spiritual reform is first, in the order of God's Kingdom. The Holy Ghost works from the heart outward. God created the worlds in six days but He has been forming and fashioning them ever since. And thus the Kingdom of God has been widening in this earth through all the ages of the Christian era; and when it is fully come God's will shall be done on earth as in heaven.

(3) How may or can we enter the Kingdom of God? Jesus said to Nicodemus: "Ye must be born again"—born anew—or from above. The new birth puzzled Nicodemus, and it has puzzled many from his day to our own. We need not let its mystery bother us. Our part is simple, we are to repent and believe the gospel—believe Christ. And lo God works the mystery within the believing trusting soul. This is the testimony of those who have believed on Him. But that which is mystery to us is all plain with God. Then do what God commands and you shall be saved. But you say, I must know the "How" before I can believe the results. We act in the face of mystery in all other matters, why not here? Tell me how bread and butter are turned into flesh and blood? Will you stop eating until you solve the mystery of digestion? No, you eat when the stomach craves for food, and lo the miracle is wrought daily. It is just as true in matters spiritual. Believe God, and the mystery of the "New birth" shall be wrought in your soul, and you too shall see and enter the Kingdom of God.
