—MARRIAGE.—The marriage took place at St. James' church Egmont Bay on Tuesday July 30th of Miss Loretta Leclerc daughter of John S. Leclerc of St. Gilberts to Mr. Joachim Dolron of Miscouche. The bride was attended by her sister Miss Marguerite Leclerc, teacher, while Belonie Gaudet son of John B. Gaudet supported the groom. In the afternoon the wedding party motored to Miscouche. An enjoyable evening was spent at the groom's home where a number of invited guests were assembled. M

—FOR THE RED CROSS.—On Thursday afternoon eighteen different parties with automobiles decked with flags and bunting motored around Summerside and vicinity and collected \$575.00 besides \$25.00 worth of wool, yarn and socks which they handed over to the Summerside Branch of the Red Cross Society. The following autoists with their different parties made up the procession—Mrs. H. C. Mills, Mrs. Neil McQuarrie, Mrs. John Lea, Mrs. H. T. Holman, Mrs. J. L. Holman, Mrs. (Dr.) McMurdo, Mrs. Ernest Gaffney, Mrs. J. M. Noonan, Mrs. (Dr.) Leard, Mrs. Percy Tanton, Miss Bertha Schurman, Miss Pauline Schurman, Mrs. E. W. Manson, Mrs. T. D. Ramsay, Miss Carrie Holman, Miss Gladys Holman, Mrs. L. R. Allen, Miss Kate Milligan. L.

—RECEPTION TO RETURNED SOLDIER.—A reception was held in Kinkora Hall last week, when the residents of that place met to do honor to Corporal Gordon Cairns, who has lately returned wounded from France. Rev. J. J. McDonald acted as chairman, and besides him and the guest, there was also on the platform Pte. Rogerson (m. Medal) who returned some time ago. After the opening remarks by the chairman and a number of musical selections, Rev. A. J. McIntyre was called on to read the address to the returned hero, after which he presented him on behalf of the residents of Kinkora and vicinity with a beautiful smoker's set, safety razor and a purse of gold. Addresses were also given by Mr. Michael McKenna, Pte. Rogerson and others. Corporal Cairns, who is a son of Mr. Thomas Cairns, was in Western Canada at the time the war broke out, where he enlisted, and after spending a long time in the firing line was wounded, losing his right arm and was also badly gassed at Vimy Ridge. A short time before this, Corp. Cairns had won the Military Cross for exceptional bravery. Corp. Cairns, who is home on a sabbatical furlough, is spending his time at his old home district, after which he will return to Toronto. —H.

MARCHING TO VICTORY

It was a proud moment when the War Gardener brought in his first basket of beans. It was his first important victory. All spring he had been fighting to get his garden planted, all summer, heretofore, he had been fighting out worms, drouth, and weeds, and at last, the first fruits of victory—beans!

But the War Gardener's war is not yet over; his victory is not yet completed. He must call upon the women and the kitchen for reinforcements. There will be a surplus of beans and all the other vegetables this summer. Can the surplus. If you can't can it, dry it, and store it away for the winter. Not until then is your war garden victory assured.

Write to your Provincial Committee of the Canada Food Board, or, if in Ontario, to the Ontario Organization of Resources Committee, Toronto, and get one of the attractive and helpful booklets of instructions which are being distributed at 5 cents per copy. It will tell you about canning, drying and fruit storing.

Minard's Liniment used by Physicians

—TWO CENTS PER WORD each insertion for advertising in this column. Cash must accompany order. Minimum charge twenty-five cents.

—FARM SALE.—Mrs. William Adams of Indian River, has sold her farm. Mr. Johnston Bernard, Baltic being the purchaser. R

POULTRY DISEASES RESPONSIBLE FOR BIG NATIONAL LOSS

At least fifty percent of the chickens, young ducks and turkeys, and ten percent of the adult birds, die each year from diseases, many of which are preventable. This is an annual national loss of probably millions of dollars that should be avoided to a large extent.

War conditions make it imperative that farmers and poultrymen as far as possible should stop this enormous leak. To do this every breeder should pay strict attention to the general conditions of his flock. When anything unusual is noted in a fowl, it is advisable to place the affected individual in separate quarters. If within a short time recovery does not take place, it is unwise to destroy the fowl without first ascertaining the cause of the disorder. The prevalence of disease is more often the cause of failure than the lack of practical knowledge and

the extreme importance of keeping the quarters clean; isolation of all ailing fowls and immediate action in regard to finding out the cause cannot be too strongly impressed upon the poultryman.

When trouble occurs, forward to the Biological Laboratory, Central Experimental Farm, Ottawa, Ont., a live but sick fowl, or, in the absence of such a dead bird. In the interval disinfect the quarters, runs, drinking fountains and feed dishes to check the spread of any infectious disease.

Disinfect the poultry houses by spraying the interior with a lime-wash solution (5 lbs. stone lime slaked in a barrel of water plus one gallon of a good commercial disinfectant.) Fill cracks and crevices to destroy mites, lice, etc. If a smaller amount is required it may be prepared by adding two and half pounds of lime to a pail of water plus half a teacupful of disinfectant.

Keep a crop growing in some part of the yards and alternate poultry and

Although these precautions may appear unnecessary it is the only way of combatting many diseased conditions affecting poultry, which if left to themselves will undoubtedly prove decidedly costly in the long run.

Fire Insurance A Necessity

Then insure in good strong stock companies, which never contest an honest claim such as is represented by
