

IMPORTANT READING MATTER SELECTED FROM THIS WEEK'S NEWS FOR THE GUARDIAN'S SATURDAY SUBSCRIBERS

(Continued from page five.)
that the roads if put in order in the
spring would be all right in the
spring. Wire fences would prevent
drifts. He did not think the new
proposals much better than the old.
Repairs had not been made early
enough in the spring. The road
machines had done good work, and
the roads in his district had never
been better. He had a few before
the story of more "wasters at election
time". So far as he knew there had
been little if any of this. Some old
charges had been refuted. The last
election was held when nothing could
be done on the roads. He thought
the old act a good one.

THE PREMIER denied that charges
made by Mr. Dalton had been spent to
buy votes. He stated that he had
been busy with the bill and had not
time to do so. He also stated that he
had been busy with the bill and had
not time to do so.

The discussion was continued by Mr.
Richardson, Mr. J. A. Dewar, Hon.
John McLean, the latter arguing that
the supervisors had too large dis-
tricts, and he hoped great improve-
ment would result from the changes
now proposed. He pointed out that
the worst parts of the roads, mainly
in swampy places where the road
machines could not be used. He asked
the assistance of the Opposition to
make the bill as perfect as possible.
Hon. Mr. Arsenault, and others con-
tinued the discussion.

THE PREMIER explained that the
Supervisors had cost about \$2,000 in
salaries and as much more in commis-
sions. It is proposed to give the
road masters an allowance of \$8
with \$1 more for keeping the roads
in order in winter, and for collecting
the taxes \$10 more, making \$20 in
all. It would not cost any more
than the old system and would pay
the men who are actually responsible
and attend to their duty. Some of the
supervisors attended to their duty
and others did not.

MR. SIMPSON commended the
general features of the bill, and
thought it would work well if acted
upon by the people in a patriotic
spirit. He favored making \$20 a
minimum, with an exception in favor
of those who do more work than
others.

MR. MARTIN thought in some cases
\$20 would be a small remunera-
tion. There would be much inequal-
ity in the amount of the work of
road masters.

THE PREMIER explained that it

is proposed to allow \$1.50 for a ten
hour day on the roads in commu-
tation of the road tax. In other Pro-
vinces the rate ranged from \$1 to
\$1.50 for a shorter day, in some
cases.

HON. MR. DALTON moved to make
the limit of exemption from road tax
sixty-five years. This was opposed
by Mr. McWilliams, Mr. Kicham and
others. Mr. Jenkins moved to make it
seventy years. Mr. Brown favored
sixty-five. On a division the limit
was fixed at sixty-five years.

There was considerable discussion
upon a proposal of Mr. Myers to al-
low larger pay to those who worked
during the busy month of May, in
which Hon. Messrs McKinnon, Arsen-
ault, Richards, A. J. Dewar and
others took part till the 6 o'clock
recess.

EVENING SESSION.
The House resumed consideration
of the Road Bill in committee. The
discussion was mainly conversational
and was taken part in by nearly all
the members. The Premier explained
the effect of the different clauses and
gave much information as to the
road laws of other Provinces. Not
quite half the 96 clauses of the bill
were agreed to when progress was re-
ported and the House adjourned
shortly before ten o'clock till three
o'clock tomorrow afternoon.

MONDAY.
P. B. Croken, of Emerald, left Sat-
urday morning for Wainwright,
Sask.

Father Bernard Gillis, St. Colum-
bia Parish, who has been visiting
his home at Sydney, C. B., for the
past three weeks, returned to East
Point Friday.

William H. Collett, Victoria, re-
turned on Good Friday from Los
Angeles, California, where he spent
the winter and disposed of the real
estate he owned. Mr. Collett left
Los Angeles, on March 25th, and on
his way home he stopped off at San
Francisco, Portland, Oregon, Seattle,
Victoria, Vancouver, Winnipeg and
Montreal. The many friends of his
daughter, Miss Aggie Collett, who is
now living at Los Angeles will be
pleased to learn of her splendid suc-
cess during the past winter in col-
lege. Just before Mr. Collett left for
home he received word that his
daughter had made the splendid per-
centage of 98 in her examinations,
thus leading the College by a splen-
did margin.

Among the visitors to Charlottetown
on Saturday were John McIsaac,
Mitchell River and Abeneas

Cured of Shingles
and Eczema

By Cuticura Soap and Ointment. Chest
Raw, Bleeding and Itchy.

"I just want to say a good word for Cuti-
cure Soap and Ointment. In November,
1909, I had what the doctors call shingles
and eczema. My chest was raw and bleeding
and itchy. I was that way all winter. It was
so bad in the summer as I did, I hope
that they will do as I did, and I am sure of
the results. I am recommending them from
experience." J. H. Jarvis, 7 Ann
St., Kingston, Ont., May 30, 1911.

For more than a generation Cuticura Soap
and Ointment have been the most
effective and most economical treatment for
itching, burning, scaling, itching, and
eczema of young and old. A single set
is often sufficient. Cuticura Soap and Oint-
ment will cure you of shingles, eczema, and
all other skin diseases. It is a relief to
have suffered much, lost hope and
been without faith in any treatment, and
then to find a remedy that will cure you
and be so simple to use. Address:
Cuticura, Dept. 2, Boston, U. S. A.

McDonald, Winnipeg. The latter is a
native of Mitchell River and is now
located at Winnipeg where he has been
for the past nine years. Mr. Mc-
Donald, since going West, has been
engaged along mechanical lines and
has met with success. A little wise
investment in Western lands has re-
sulted most successfully and he has
made the most of his time during the
past nine years—if time is money, as
the old adage was, he has made some
home five weeks ago owing to the ill-
ness of his mother, Mrs. Alexander
McDonald, Mitchell River, and who
now is recovering. Mr. McDonald
contemplates returning about the last
of April. While in Charlottetown
both Mr. McIsaac and Mr. McDonald
were the guests of the former's
daughter, Mrs. Ernest Toombs.

The sad news has been received by
Mrs. Andrew MacLeod, Stanley
Bridge, of the accidental death of her
son Townsend, which occurred on
March 22 in Spokane, Wash. The
deceased was employed as brakeman
on a train and as near as can be
ascertained the derailing of the train
was an accident in which he was killed.
Owing to the distance and the uncer-
tainty of transportation of this time
of the season the body was buried in
Vancouver. The funeral took place on
March 27th from the house of the
deceased's sister Mrs. A. C. Stewart.
The unfortunate young man
was scarcely past his twenty-ninth
years of age and leaves
to mourn, besides his mother, two
brothers—Chas and Gordon MacLeod
who live in Stanley Bridge, also a
number of sisters all living abroad.
(Other Island papers please copy.)

Miss Helen McKinnon, of the nursing
staff of the Red Deer Memorial
Hospital, died on Monday at the Hos-
pital from typhoid fever at the age
of 22 years. Deceased was a niece of
Miss McKinnon, head of the W. E.
Lord Co., dressmaking department,
and came from Prince Edward Is-
land. The funeral service was held
in the Presbyterian church on Thurs-
day afternoon. Rev. Mr. Brown con-
ducted the service. The deep sym-
pathy felt for the relatives at the
sudden cutting off of a bright and
promising young life, while at the
post of duty was evidenced by the
large turnout at the church, and the
beautiful floral offerings from the
Hospital Board, the Hospital staff,
the Order of the Eastern Star, and a
large number of private friends. The
Hospital Board and Hospital Staff
were present practically in a body,
and Miss Isabel McKinnon had the
association in her grief of President
and Mrs. Tallman and the Lady Sup-
perintendent, Miss Kingston.—Red
Deer Alta., Exc. Miss McKinnon was
a daughter of John McKinnon, North
River, formerly of the Stable.

Fatal results were very narrowly
averted in an accident near Char-
lottetown recently. One night last
week some very loud shouting was
heard by a resident near Belleville as
he was returning from Charlottetown.
Thinking it was some young chaps out
on a time he let it pass unnoticed but
the next day he began to ponder a little over it until
his curiosity demanded gratification.
Rather earnest inquiry elicited the in-
formation that revealed the follow-
ing story. Two attendants at the
Hospital for the Insane at Palcon-
wood had been to Charlottetown for
the evening and between nine and ten
o'clock were returning home. Cross-
ing the ice they were approaching the
Hospital and decided to leave the
main track and make the usual short-
cut to the grounds. Just after leav-
ing the track the two were suddenly
plunged up to the neck in the ice
waters and it was then that the loud
cries were heard across the ice.
Neither of the two could swim and
they found themselves in a nasty pre-
dicament. According to the story
told by one of the unfortunate men,
he foundered around in the water a
minute or so and catching the edge
of the ice worked his way around to
where his companion was hanging on.
Getting up to him he got out over
the other's shoulders and then assist-
ed his friend to safety. Cold, tired
and wet the two carefully wended
their ways to their apartments where
they changed and retired, reflecting
on their narrow escape and thankful
for it.

Easter Day, 1912, was marked by
the arrival in Charlottetown of the
C. G. S. Minto and the opening of
Charlottetown harbor.

After a battle with the heavy ice
which lasted from three o'clock Sat-
urday afternoon until eleven o'clock
Sunday night the Minto and the
Charlottetown harbor were opened
for navigation. The Minto left
Charlottetown at five o'clock yester-
day morning until two o'clock in
the afternoon, in all seventeen hours.
Capt. Murchison brought his good
ship to port.

The Minto left Georgetown at
10.25 a. m. Saturday and not much
loose ice in the straits and the bay,
striking the harbor at about three
o'clock here she fell in with the track
made by the Earl Grey a week ago
and followed this for three quarters
of a mile. Then the real battle be-
gan. For a distance of about two
miles the ice was ratted to a depth
of in some places ten and twelve feet
and the thinnest in that particular
distance was three feet. This was
worked through successfully and the
vessel stopped operations at eleven
o'clock that night about two miles
south of the Blockhouse.

Resuming work at five o'clock
Capt. Murchison worked his vessel in
the harbor, reaching the mouth a
hour noon and proceeding without
much difficulty to the three tides
where she was stopped for about
thirty-five minutes for cleaning fires.
On getting at it again the Minto
worked up to the wharf and the hun-
dreds of citizens who lined the
wharves, the park roadway and many
who went out on the ice, were af-
forded an opportunity of witnessing
some actual ice fighting. The steamer
here went through ice in some places
three feet in thickness.

Many boarded the vessel while in
the harbor and went to the dock in
her. On reaching the Marine Wharf,
which was crowded with interested
citizens Capt. Murchison was given
three rousing cheers and a tiger.
Capt. Murchison deserves great
credit for his able management of
the ship. The conditions were very
adverse but he successfully overcame
all obstacles and in spite of disad-
vantages attained his object.

Capt. T. G. Taylor, Agent of Mar-
ine and Fisheries, Charlottetown, ac-
companied Capt. Murchison from Pic-
ton.

The ice is particularly heavy for
this season of the year but it is now
almost certain that the route be-
tween Charlottetown and Picton can
be kept open as the Minto cut a good
track through the hardest places.
Town Bay is still full of heavy ice.
The Minto brought one passenger
from Georgetown, a Mr. Henry
The Earl Grey opened this port in
1911 on April 8th, one day later
than this year.

He enacted by the Town of Sun-
merside that after the passing of
this By-Law all persons selling
Milk whether licensed or not, must
file at the office of the Town Clerk a
certificate from a Veterinary Sur-
geon stating that such person's cow
or cows have each been submitted to
the Tuberculin Test and found
free from tuberculosis, and such test
must be made annually and certifi-
cate filed each year on First day of
June.

The following are extracts from
our new by-law.
Section 8. No person shall sell,

Sub-section 8 (d), Milk from a
tuberculous cow, or cow otherwise
diseased or infected or milk from
a herd, any number of which is tub-
erculous, diseased or emaciated.

Section 13. No License shall be is-
sued and if issued the license shall
be immediately suspended in any
case where the Inspector finds the
herd or any number of the herd from
which said milk is obtained to show
visible symptoms of tuberculosis, or
any other disease.

Sir,—Above is a copy of Milk In-

enforced in Summerside and also ex-
tracts from by-law authorized by the
late Charlottetown City Council
and which it is understood will go

NERVOUS DISEASES
IN THE SPRING

Cured by Toning the Blood and
Strengthening the Nerves.

It is the opinion of the best medi-
cal authorities, after long observa-
tion, that nervous diseases are more
common and more serious in the
spring than at any other time of the
year. Vital changes on the system,
after long winter months, may cause
much more trouble than they actually
spring weakness and weariness from
which most people suffer as the re-
sult of indoor life, in poorly ventila-
ted and often overheated buildings.
Official records prove that in April
and May neuritis, St. Vitus dance,
epilepsy and other forms of nerve
troubles are at their worst, and that
there is more than any other time, a
blood-making, nerve-restoring tonic
is needed.

The antiquated custom of taking
purgatives in the spring is useless,
for the system really needs strength-
ening, while purgatives only gallop
through the bowels, leaving you
weaker. Dr. Williams' Pink Pills are
the best medicine, for they actually
make the new, rich, red blood that
feeds the starved nerves, and thus
cure the many forms of nervous dis-
orders. They cure also such other
forms of spring troubles as head-
aches, poor appetite, weakness in the
limbs, as well as remove unsightly
 pimples and eruptions. In fact they
unfailingly bring new health and
strength to weak, tired and de-
pressed men, women and children.

Sold by all medicine dealers or by
mail at 50 cents a box or six boxes
for \$2.50 from The Dr. Williams'
Medicine Co., Brockville, Ont.

into force on 1st of May next. This
by-law which in many respects is a
good one, will give us as one of our
medical doctors states "clean milk."
It however does not provide for a
tuberculin test until "visible symp-
toms of the disease are present. This
according to the opinion of those
who ought to know is a poor guaran-
tee of our being provided with milk
free from disease, and is in strong
contrast to the short and pointed
by-law enforced in Summerside.

If shortage of funds in the claim
put forward for not giving us up-to-
date law on this most important
matter,—the public health,—then let
our City Fathers put a small addi-
tional tax on which will be suffi-
cient for the purpose. If a small ad-
ditional tax, will give us proper
Meat and Milk inspection and make
it possible to give our school teach-
ers a living wage. Then tax us!

There are no matters which con-
front us as citizens today more im-
portant than prevention of disease
and the proper education of our chil-
dren, save perhaps national defence.

Yours Truly,
CITIZEN.

The many friends of Miss Mamie
Ross, Charlottetown, will be glad to
learn that she is able to be out again
after suffering for two weeks with an
attack of appendicitis.

The many friends of Miss May E.
Dougan, daughter of Anthony J. and
Mrs. Dougan, Charlottetown, who
has been taking a three years' course
at the Boston City Hospital train-
ing school for nurses, Boston, Mass.,
has completed her course and grad-
uated with honors March 31, 1912.
She also graduated from the Provi-
dence Lying-in Hospital and after
taking a complete course there, has
accepted a position as Night Super-
intendent of nurses in the latter hos-
pital in Providence, R. I. The Guar-
dian heartily congratulates Miss
Dougan on her success.

The funeral service of Estella W.
Scott was held on March 21st at the
home of her mother, Mrs. D. Scott,
Cornwall. The Rev. Z. L. Fash,
Charlottetown, conducted the service
and preached from the text, "Let not
your heart be troubled." John 14:1.
A large number of friends assembled
to show their respect for the deceas-
ed, who during her life time had been
a general favorite. She was a young
woman of excellent parts and had
been very successful in her chosen oc-
cupation in Boston, Mass. She died
very suddenly in Boston and her
death was a great shock to her
mother and all the family. A sister
and brother came home with the
body. The mother and two daughters
and two sons are left to mourn. The
interment was in the North River
Cemetery.

The funeral of the late Wm. F.
Fraser was held at Clyde River on
Friday afternoon, April 5th. A short
service was held at the house and
then the funeral cortege proceeded to
the Baptist Church, a short distance
away. The church was crowded with
people. There was not even standing
room left and a good many were un-
able to obtain admission. The Rev.
Z. L. Fash, M. A., Charlottetown,
who conducted the service at the
house, preached the funeral sermon
from the text, Acts 13:36, David, af-
ter he had served his own day and
generation by the will of God fell on
sleep. The preacher brought a com-
forting message to those who so sin-
cerely mourned the loss of this dear
one. Six of the daughters were pre-
sent, Mrs. J. D. Jenkins, Mrs. Ding-
well Jenkins, Mrs. Charles McLean,
Mrs. Wm. Murray who live in this
Province, and Mrs. Bessie Allen,
Brookton, Mass., and Mrs. Ben
Smith, Taunton, Mass. Mrs. Layton
McCabe and Mrs. Spurgeon McCabe,
and the two remaining daughters, were
unable to be present. One brother,
Daniel Fraser, was at the funeral,
but the two remaining, George of

HOOD'S
Sarsaparilla

For
Spring Loss of Appetite and
That Tired Feeling.

Cures Thousands of Cases Every Year,
Tones the Stomach, Aids the Digestion,
Cleanses and Revitalizes the Blood,
Gives Vigor and Vim.

Roots, Barks and Herbs—Hood's
Sarsaparilla so combines the great
curative principles of roots, barks
and herbs as to raise them to their
highest efficiency for the cure of
all spring humors, all blood dis-
eases, and run-down conditions.

No Real Substitute—There is no
real substitute for Hood's Sarsa-
parilla. Any preparation said to
be "just as good," you may be sure
is inferior, costs less to make, and
yields the dealer a larger profit.
Insist on having Hood's.

MODERN MARTYRS!

There are thousands of women all over the
country enduring physical torture and mental
anguish almost beyond description. They are
not victims of persecution like the martyrs of
old; they are not called on to face the scaffold
or the stake, but their sufferings—borne
in silence and in secret—throughout the world at large
—are scarcely less intense.
These ladies, so a rule, are women and
girls of refined and sensitive temperaments.
Knowing that their sufferings are due to a
disordered condition of the female functions,
they have made many detestable attempts at
relief in the earlier stages; and when they
do consult a physician, they usually get some
drug mixture to take internally, which is not
more effective for troubles of
this kind than it would be for
a toothache, a bruise, or any
other strictly local ailment.
The seat of the trouble being
in some one of the female or-
gans, the remedy, to be effec-
tive, must act on this portion
of the anatomy.
This is the secret of the suc-
cess which attends the use of
ORANGE LILY in dis-
easements of this kind. It is
a strictly local treatment,
absorbed directly into the parts
that are inflamed and congested
and its beneficial soothing in-
fluence is noticeable from the
start. The irritation of the
delicate membrane is relieved,
the congestion is overcome by
the discharge of the watery
matter which serves to congest
the nerves and cause mental
depression; the nerves are
freed and invigorated, and
the sunshine and joy
of life again becomes part
of her being. Read the
following letters:
Archives, Oct., Feb., 1, '09.
Dear Mrs. Currah:—I
received your kind letter
some time ago, but was
feeling so well, and not
needing medicine, that I
neglected replying sooner. I must say I have more confidence in Orange
Lily than in any other medicine I have ever used. Before I knew of anything
about this medicine, I devoted away hundreds of dollars, and when I thought I
was doing well with inflammation of the womb, a box of ORANGE LILY sent me
through the mail from a friend. The first suppository I used I was greatly relieved,
and in a few months completely cured. That was nine years ago this winter, so
you can imagine with what eagerness I have been compelled to take the ovaries
in such a relief for poor suffering women, for I have been one of them and can
sympathize with others.
Your sincere friend,
MRS. NORMAN WEAVER,
Trenton, Ont., Dec. 4th, 1909.
Mrs. E. E. Currah, Windsor, Ont.—
Dear Friend:—I feel it my duty to write you a testimonial as to what Orange
Lily has done for me. Last winter I was feeling very well, and I could
scarcely do my housework during my menstrual period, and for two months or more I
was never free from pain in the womb and ovaries. The pain would run down the
groin, so I would frequently nearly double in pain, even during menstruation now.
I was a burden indeed, I finally could endure it no longer, so went to our leading
town doctor and had an examination. He pronounced that the word was
inflammation of the reproductive organs, produced by repeated attacks of inflamma-
tion. He said I would have to take a course of treatment, and if that failed to
overcome the inflammation I might, in time be compelled to have the ovaries re-
moved. I objected, but he filled out Dr. Cooney's symptom blank and for-
warded it to him. He depressed the disease the same as my local doctor, so I
decided to take Dr. Cooney's Home Treatment. I have used two boxes of Messrs.
two packages of Herbal Womb Tonic, and six boxes of Orange Lily. It is eight
months since I began the treatment, but I feel like a new woman. I work right
through everything now. Happily know a pain, even during menstruation now.
often say, "I would not take \$100 and be in the state that I was last March." I
feel that Dr. Cooney's Home Treatment is a Godsend to suffering woman-kind, and
shall continue to sound its praises whenever I have an opportunity.
Yours gratefully,
MRS. T. H. HATTON.
ORANGE LILY as a remedy for these ills, as well as for leucorrhoea, painful
periods, irregularities, cancers in their earlier stages, tumors, displacements, lacera-
tions, and all ovarian troubles, has long since passed the experimental stage. So
confident am I of this that I will send you a box of treatment, which is worth 25 cents,
to any sufferer. ABSOLUTELY FREE. The treatment is inexpensive, used at
home, and no physician is necessary. Send at once for the
FREE TRIAL TREATMENT
which will demonstrate that ORANGE LILY will cure you. Enclose stamp, and
address MRS. FRANCES E. CURRAH, WINDSOR, ONT., Can. Rep., Cooney Med.
Inst., Delays are dangerous, 11

Horsemen Attention!!
DR. J. WOODBURY'S HORSE LINIMENT & DR. J. WOODBURY'S CONDITION
POWDERS will save and preserve the life of your horses. Their use will cure and prevent
the diseases common to horses, such as Coughs; Colds; Distemper, Glanders, Spavins, Pink
Eye, Splints, Curbs, Enlargements, Cracked Hoof, Kidney Troubles, Fevers, Cuts, Sores and
will remove bunches of all kinds.
CURES:
SPLINTS

Before Using
Use this preparation thoroughly for all and every disease of the horse, for which it is
recommended. Criticize it closely. Carefully watch, mark and note its effects, and honestly
judging it on its merits you will be compelled to endorse it.
TESTIMONIALS
DEAR SIR:—I had a mare which had a very bad
cough and heavy discharge from the nose, and I
thought there was nothing left apparently but skin
and bones and I was tempted to shoot her. A friend
of mine who had used Dr. J. Woodbury's Horse Lin-
iment, with good success, induced me to try one bottle
of it which I used with the best results. I used just
one and one-half bottles of the Liniment, which effect-
ed a complete cure of both the cough and the heaves,
and I have worked and driven her ever since.
I strongly recommend Dr. J. Woodbury's Horse
Liniment as the best Horse Liniment on the market,
and advise all horse owners to try it.
Very Truly
RODOLPH MCKENZIE.
FRASIER, THORNTON & CO., Limited, Cookshire, Que.
DEAR SIR:—I have used Dr. Woodbury's Horse
Liniment for a number of years, and have found it to
be the best excellent article for the feet of horses
kept in the stable. It prevents dryness and hardness,
promotes a smooth and healthy growth and will, used
according to directions, soon remove any like
contractions of the hoof.
