

Saleswomen's Peril
GRAVE DISEASES, DUE TO STANDING

Fate of Miss Merkle's Dangerous Illness and Complete Cure.

Have you ever thought why so many women or girls rather walk an hour than stand still for ten minutes?

Miss Margaret Merkle

It is because most women suffer from some derangement of their delicate organism, the discomfort of which is less trying when they are in motion than when standing.

In some states laws compel employers to provide resting places for their female employees. But no amount of law can regulate the hard tasks of these women. They must get the strength which this work demands and the support of serious diseases and the surgeon's knife.

Read about the experience of Miss Margaret Merkle, 276 3d Street, Milwaukee, Wis.:

Dear Mrs. Pinkham:— "Gradual loss of strength, nervousness, bearing-down pains and extreme irritation compelled me to seek medical advice. The doctor said I had diseased organs and ulceration, and advised an operation if I wanted to get well. I objected to this and decided to give Lydia E. Pinkham's Vegetable Compound a trial. I soon found that all the good things said about this great medicine were true. The ulceration soon healed, headache, nervousness and nervousness disappeared, and in a short time I was strong, vigorous and perfectly well. I wish every working girl who suffers would try Lydia E. Pinkham's Vegetable Compound."

Lydia E. Pinkham's Vegetable Compound is a vegetable tonic which invigorates and strengthens the entire female organism, and will produce the same beneficial results in the cases of other sick women as with Miss Merkle.

AN ATTEMPTED
ASSASSINATION

CONSTANTINOPLE, Feb. 8.—George Christich, son of the late King Milan, of Serbia, by Mme. Christich, had a narrow escape from assassination a day or two ago. An unknown man suddenly attacked Christich and attempted to plunge a dagger into his chest. The weapon, however, struck a thick pocketbook, and only inflicted a scratch. Christich, who is only eighteen years old, lives here. His mother's life has been threatened on previous occasions. Christich was mentioned as the possible successor to the throne of Serbia at the time of the murder of King Alexander and Queen Draga.

A BALLAD OF VEGETABLES

A potato went out on a mash
And sought an onion bed;
"That's pie for me!" observed the squash,
And all the beets turned red.
"Go 'way!" the onion, weeping-cried:
"Your love I cannot be;
The pumpkin for my awful bride—
You canteloupes with me."
But onward still the tuber came,
And lay down at her feet;
"You cauliflower by any name
And it will smell as wheat;
And I, too, am an earl's rose,
And you I've come to see;
So don't turnip your lovely nose,
But spinach with me."
"I do not carrot at all to wed,
So go, sir, if you please;"
The modest onion meekly said,
"And let us, pray, have peas!
Go, think that you have never seen
Myself, or smiled my sigh;
Too long a maiden I have been
For favors in your eye!"
"Ah, spare a case!" the tuber prayed:
"My cherished bride you'll be;
You are the only weeping maid
That's curran-know with me!"
And as the wily tuber spoke
He caught her by surprise,
And, giving her an artichoke,
Devoured her with his eyes.
—Joseph Mehan, in Philadelphia Record.

Exhausted Nerves
Lead to Insanity

IT IS WISE TO KEEP THE NERVOUS SYSTEM IN FULL HEALTH, AND VIGOR BY USING

Dr Chase's Nerve Food

The leading artist of a great New York newspaper committed suicide recently because on his return home he found his apartment in disorder, the painters and decorators being in possession.

Diseases of the nerves are common to all walks of life, and the earlier symptoms are sleeplessness, nervous headaches, loss of memory, inability to concentrate the mind, indigestion, tired languid feelings, discouragement and despondency.

Dr. Chase's Nerve Food cures diseases of the nerves in the only natural way, by a steadily increasing the amount of nerve force in the body.

By its regulation and persistent use the most nervous forms of nervous exhaustion, such as partial paralysis, prostration, and locomotor ataxia, are thoroughly and completely cured.

Mrs. Willis Taylor, Hensley Street, Charlottetown P. E. I. states:—"I suffered from nervous prostration, could not sleep, and frequently had attacks of nervous headaches, in fact, my whole system was run down and my health was in anything but a satisfactory condition. Since having used three boxes of Chase's Nerve Food I can say that I never tried any medicine that did me so much good. It has built up my system, strengthened the nerves, and enabled me to sleep and rest well. It is now a considerable time since I had a headache, and I can truthfully recommend Dr. Chase's Nerve Food as a splendid preparation."

If you would feel strong and well and avoid all the ills and weakness so common at this season, enrich your blood and revitalize your nerves by the use of Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50 at all dealers or Edmanston, Bat's & Co., Toronto.

The Charlottetown Business College goes straight to the mark and teaches young men and women just what will be required of them in commercial life whether as Accountants, Bookkeepers, Office assistants, Sales men or women, Stenographers, Reporters or expert and accurate operators on the Typewriter in the Typewriting department a large number of machines from EIGHT main factories are in use. The latest and best made. Sight and touch methods are taught. No better equipped college in Canada.

THE GUARDIAN
COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 108,000 The Guardian's daily circulation is therefore as 1 to 13 of population in the city in which it is published, or 1 to 13 of the population of the Province. This is, the management believe, unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000 St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000, or say 1 to 5 of the population of that city and 1 to 4 of the population of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,250,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 70,000. This is as 1 to 5 of the population of Toronto and 1 to 4 of the population of Ontario.

The point is this, that The Guardian covers the field of its circulation three or a half times as well, if compare with population of the city, and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patron alike. They have a right to know how completely their favorite is established by the reading public among whom it circulates, and how completely it covers the field as an existing medium in this City and Province.
