A PILGRIMAGE FROM SAINT JOHN

Six Hundred Strong to St Anne De Beaupre—The Pilgrims Hale and Hearty—Serious Fire and Narrow Escape of Family at Cody's Station

St. John, July 18—(Special)—Almost six hundred persons left here today on a pilgrimage to St. Anne de Beaupre. In past years many suffering from various ailments went but this year most of the pilgrims are hale and hearty and out for a holiday. T. B. Hetherington and family at Cody's Station, had a narrow escape from death in a fire which destroyed their home last night. For some time some animal has been

stealing chickens from the barn and last night Mr. Hetherington was awakened by the barking of his dog. Thinking it was caused by the presence of the chicken thief he went to the window and saw the whole side of his house in flames. He aroused his family and they barely escaped in their night clothes. A servant girl was rescued when almost suffocated. Everything was lost and the loss is three thousand dollars with only six hundred insurance.

CANADIANS AT BISLEY RANGES

Won a First and Second Place in Two Matches Yesterday—Captain Jones of Pownal Won Five Pounds in All and Others Smaller Sums.

BISLEY, July 18—(Special)—This was the opening day of the big match for the King's Prize. Fourteen Canadians entered and two of them, Sergt. Moore of Peterboro and Sergt. Pugh of Quebec made thirty-four each. Capt. Forest of Vancouver came out first in the Kynoch and Sergt. Keir of Toronto took second place in the Daily Telegraph match. In the Secretary of State for War match several Canadians made forty-eight but

the others were low. Capt. Jones of Pownal was the highest Canadian in the Alexandra Martin match, winning forty shillings. He took seventh place. Jones also won twenty shillings in the Armourers' Company match and forty shillings in the Kynoch match. In these competitions many Canadians won small money prizes. Sergts. Richardson, Victoria and Simpson, Toronto, are the only Canadians left in the All Comers' Aggregate.

MARRIED WOMAN USED REVOLVER

Killing a Troublesome Visitor, Then Walked to Police Station and Reported.

INGERSOL, Ont., July 18—(Special)—Because he persisted in coming to her home and attempting to interrupt the happiness of her life Mrs. Elnelie Kyle, wife of Robert Kyle, shot and killed David Magee outside her home this morning. She fired three shots from a revolver. The first missed but the other shots took effect and Magee died at once. Mrs. Kyle then walked to the police station and gave herself up.

PARLIAMENT MAY PROROGUE TODAY

Commons House Passed Indemnity Bills and Ended its Work but Senate is not Done—A New Bill Supplies Omissions Re Judges Salaries.

OTTAWA, July 18—(Special)—The Bills East Kootenay should be \$3,500. Sir Wilfrid Laurier announced that the business of the session was ended. He expected the Governor General to attend tomorrow for prorogation, but could not promise prorogation owing to the Senate discussion. He moved the adjournment and the House closed till 11 o'clock tomorrow.

It was discovered that certain Judges had been omitted from the original Bill and another Bill was introduced providing that the salaries of Judges in Halifax, Sydney, St. John, and

HAGGARD'S SCHEME TO SETTLE PAUPERS

OTTAWA, July 17.—In the correspondence presented to parliament today Rider Haggard in a letter dated April 18, 1905, notified the prime minister that he was appointed by the imperial government a commissioner to investigate land settlements in the United States and should his opinion be favorable to proceed to Canada to consult with Lord Grey and the Canadian government on the matter generally.

His opinion being favorable, he asked whether the government of the Dominion was prepared to donate a tract of suitable land to be approved by himself or other commissioners appointed by the imperial government for the settlement of carefully selected families among the poor of Great Britain.

What he suggested was setting apart an area of 200,000 acres, or ten townships under the supervision that sufficient funds be provided under the auspices of the British government and that the selection of the settlers and the future management of the settlement be proceeded with in a satisfactory and business-like manner.

Sir Wilfrid Laurier replied that the government would be prepared to establish ten townships as set forth by Mr. Haggard. In such townships the policy of the Government would be to give free homesteads to any persons selected by Mr. Haggard or by any English commissioners on the condition that the settlement laws of the Dominion are complied with. The school lands and the

Hadson's Bay Company lands would not be for settlement. Should the experiment be successful doubtless the Government would be disposed to set aside other tracts under similar conditions. The selection of the lands would be left altogether to the judgment of the imperial commissioner but the government would place at his disposal the services of its agents to assist in securing such lands. The government was satisfied that if the proper class of settlers were secured such a scheme as Mr. Haggard proposed ought to be completely successful and hoped that he would be allowed to carry it to completion.

REMEMBERED BY THE CONGREGATION

Large Assemblage Waits Upon Rev. Mr. Spencer who has Severed his Connection with Marshfield Congregation.

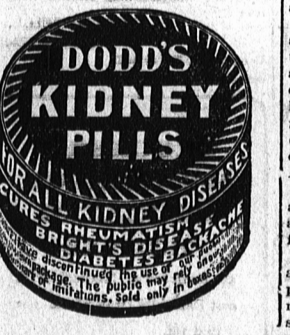

The evening of July 12 found a large and enthusiastic assemblage at the Marshfield Congregation. The people of the community had come together to demonstrate by word and action, the esteem in which they held their ex-pastor and his wife.

Mr. Spencer, as it is known, has severed, in reply to an appeal from another people, his connection with Marshfield congregation, and to express their sorrow at his departure, their best wishes for his future happiness, his friends prepared a rare banquet which was largely attended. After enjoying themselves for a limited time on the magnificent lawn they repaired to the dining-room where a table was groaning under its load of the good things for which the district is famed—Here was the best; for the best, it was evident, was not good enough. The table, too, was decorated with elegant flowers, showing that the ladies of the vicinity have more than an inkling of that "fine art."

Supper ended Mrs. Spencer was presented with a very appropriate address together with a well filled purse. The address, read by Miss Irene McBeath, extolled their virtues, work as a labor of love in Marshfield prized very highly, regrets expressed at their leaving the community and was signed in behalf of congregation by Mrs. Fred Turner, Mrs. Alex Stewart and Miss Emily Wyatt. The recipient made suitable reply, she and Mr. Spencer speaking in flattering and eulogistic terms of their many kind friends. The night flew past, nature ordered the assembly to disband—far too soon it appeared—yet home they went, each with mingled feelings of joy, contentment and sorrow.

WOMAN ROBBED

New York, July 15—With a sponge soaked in chloroform two burglars secured \$10,000 worth of diamonds from Mrs. Bertha Cohen today, putting their victim under the influence of the drug while she slept. The burglars found Miss Cohen in her bedroom and so skillfully did their work that her mother in an adjoining room heard no noise, and herself had no knowledge of the robbery until the pair in her lacinated ears had been snatched, brought her to consciousness.

SUMMER SCHOOL OF SCIENCE

(By Guardian special cor.) The Summer School of Science is now in full swing with large enrollment and enthusiastic classes. We are having a taste of Yarmouth fog, but it moderates the temperature and keeps the lawns, hedges and shrubbery green. Of these the Yarmouth people are justly proud, they are not surpassed in any town of these provinces. The classes are full to overflowing and much excellent work is being done. One of the most enthusiastic classes is the Botany under the direction of Dr. G. U. Hay of St. John, N. B. He does not proceed on the conventional or school text book style. Mr. Hay treats the plant as a living entity, and seeks to make the students acquainted with the simple problems of its life and habits, growth and structure. He insists upon close observation, especially in the field excursions. A close study is made of the relations of plants to each other and to their surroundings. While pains are taken to teach the names and means of identification of plants, greater effort is taken to make the students familiar with the ways in which the plants live, grow and behave. A noted feature of this class instruction is the absence of long lists of hard names. The whole instruction is given in our common English vernacular with an almost entire absence of the technical. The object of the instructor is to enable his students to the more successful conduct nature study in their own schools when they return to them. Yesterday (Friday) afternoon the members of the school were entertained at a Garden Party by the ladies of Yarmouth, on the beautiful grounds of E. J. Vickery, Esq. A most enjoyable afternoon was spent. Games, music and refreshments filled in the time to the manifest enjoyment of the members of the school.

COLLIDED HEAD-ON.

MOUNT VERNON, Ind., July 15—In a head-on-collision between two freight trains on the Louisville and Nashville Railroad, near Upton, Ind., today, four persons were killed and eight injured. One of the injured will die. A train despatcher, it is said, mistook the number of the trains and after they had started realized his error. A number of persons were hastily summoned to flag the trains, but the collision occurred before this could be prevented.
