The trade says though that shipmates are quite large enough and they do not want to see any schooners until the people get more serious about their winter supplies. Potatoes are a little lower at \$1.20 to \$1.30 per bag, but it is fully expected that the price will advance again, for the crops is undoubtedly short on the Island, and shortages are reported elsewhere besides. The weather was very good, the one day's rainfall not in the least detracting from the enjoyment of the meeting. Features of the meeting were the addresses delivered at different occasions, one of which, delivered by William Stett, General Passenger Agent of the Eastern Lines, Montreal, on a trip to Australia, was particularly pleasing.

You're Paying for Your Competitors' Advertising

If you are not paying any attention to your own.

You are paying for it if you do not use productive publicity—you are paying for it by losing the grip on your trade—you are paying for it by continuing in the "rut".

Even if your ad contains witticisms that don't prove that it is productive of results—the one that you may pride in producing may prove just as offensive to the general public as it seems appropriate to you.

That you are an expert in your own business is just a proof that you should employ the services of advertising specialists.
