## Italian Facisti Propose To March Against Rome

### Determined to Settle Once for All Whether Facisti Will Absorb the State or the State Legally Recognize the Facisti.

(Special to The Guardian.)  
ROME, Aug. 17.—The march on Rome is under way. Benito Mussolini, the Fascist chieftain announced yesterday, disclosing openly for the first time the Fascist objective.  
"A march on Rome by two or three hundred thousand armed Fascisti is strategically possible from the three sides which we will control but it is not yet politically opportune. It depends on the answer which the next few months must give the question—Will the state legally absorb Fascisti or Fascisti absorb the state.  
"That the Fascisti mean to become the state is most certain but it is not so sure that an armed insurrection is necessary to gain the objective.  
"However, such a coup must be included among the possibilities of tomorrow."

Grand Chancellor, J. E. Lord, St. Stephen, presided at all the business meetings and in his able way businesslike manner carried the various items through with despatch.

## Fanatic Killed His Father and Brother-in-Law

PONTIAC, Mich., Aug. 17.—Albert Schroeder, 25, a young farmer of Okemille, near here, shot and killed his father, Carl Schroeder, 70, and his brother-in-law, August Zimmerman, 35 yesterday.

The entire countryside was roused to fury, and had it not been for the quick capture of the slayer, there would not doubt have been a lynching.  
"I killed them because God asked me to. I have power to make it rain and they laughed at me. To laugh at a disciple of God meant death," he told the officers.

## Enjoyable Tea at Historic Church Of Belfast

The Belfast Tea was held very successfully yesterday on the old church and churchyard grounds. The weather was exceptionally fine and the drive from the city was not amongst the least pleasant of the many delights in connection with the memorable Tea.

The occasion was the ninety-eighth anniversary of the Belfast Presbyterian Church. An unusually large number of people were present from Charlottetown and the numerous automobiles on the grounds testified to the auto parties which were present.

From all over the southern section of the country people had driven to the Tea, either in cars or carriages while many from nearby places came on foot. The tea and refreshment tables were set in the beautiful Maple grove within the shadow of the church. They were presided over by many ladies of the congregation and were crowded all the afternoon and evening, but there was abundance of the most tempting provisions for all. Full justice was done to the meals and words of commendation for the ladies in charge were heard on every side.

Just before the ladies' tables as the shades of evening were drawing near, a platform was improvised and brief and suitable speeches were delivered by His Hon. Lieutenant Governor MacKinnon and Mr. D. A. MacKinnon, M. P. His Honor the Governor delivered a short Gaelic address which was greatly appreciated, especially by the older people present, and this to them was one of the most pleasing features of the occasion. Both speakers were warmly applauded.

The magnificent cakes which adorned the tables were put up for sale. Mr. L. E. Prowse and Mr. James Larnaby acted as auctioneers. The bidding was high and a substantial sum was realized in this way.

The tea throughout was a splendid success. Thousands of people, matchless scenery, shady groves, the ancient stately church, the stately cemetery, the friendly greetings, the happy family throngs, and the re-union of former friendships all combined to make the event one long to be remembered.

Many distinguished visitors were on the grounds. They wandered through the cemetery and pondered about the monuments, commemorative of historic events, especially that relating to the Belfast boys, who had fallen in the Great War, and inspected the ancient church. Among others may be mentioned Rev. Dr. Fraser of Montreal, Dr. McLeod of New York, Mr. Nicholson, registrar, Montreal, Col. Dr. Cyrus J. MacMillan, McGill, Rev. George C. Taylor of Zion Church, city, Rev. J. W. MacKenzie, pastor of the Belfast Church, Mr. J. C. Irving, Cherry Valley, Mayor Jenkins, city, Mr. J. T. McKenzie, city.

The need is for some great, far-seeing, Christian leader who will have the confidence of the people and the good of the country at heart. In the present emergency, the national consciousness today is being aroused in China and never before. There is a far-reaching student movement on foot and a glorious opportunity confronts the Christian mission movement in taking the initiative and spreading the Gospel among the young people of both sexes. For centuries China was very much in the background but the great awakening is in progress and never before in history has such an opportunity come to Christian people. Today China is wide open to evangelistic effort and mission activities there have already won the confidence of the people and prepared the field for the sowing.

Dr. Manderson spoke fully on the subject of mission and medical training schools established in China and of the splendid work which is being carried on in the medical education of women. It is in the womanhood of the country that the greatest potentialities lie. The speaker had been a teacher in one of these schools and on this subject she dwelt with much earnestness and eloquence. She concluded with again appealing for united and immediate action along educational and missionary lines at a time when China is prepared to receive enlightenment as never before.

The meeting was well attended and Dr. Manderson received a very interested and appreciative hearing.

The following are the officers for the ensuing year.  
Superintendent, Mrs. G. E. Full, (re-elected).  
Assistant Superintendent, Mrs. Bradford.  
Secretary, Mrs. Stodart, (re-elected).

## Stolen Furs Worth 30,000 Recovered

BOSTON, Aug. 17.—Fifteen minutes after M. Sussman, a furrier, had told the police that furs valued at \$30,000 had been stolen from his place of business some time between Saturday night and this morning, a steward in a nearby cafe reported that he had three bags of fur coats and skins in his possession which he thought to be the property of Sussman.

Investigation by the police disclosed that the robbers had gained entrance to the fur store by cutting a hole through the ceiling, departing by the way of the roof and the restaurant. The police said that the robbers were frightened in the cafe and left the loot. All the missing furs were recovered.

## Reparations Commission To Hold Another Meeting

### In Hope of Arriving at a Conclusion Satisfactory to France, Germany and Britain. France Determined to Stay by Original Proposal.

(Special to The Guardian.)  
PARIS, Aug. 17.—The members of the Reparations Commission met informally today to discuss the possibility of reaching some compromise on the German reparations question which will be acceptable to France, Germany and Britain.

An official meeting of the commission had been scheduled for today but it was postponed until tomorrow in the hope that the plans now under consideration will be ready for formal submission at that time.

As the first step in its inquiry into the advisability of a moratorium on Germany's reparation payments, the reparations commission is expected to give a hearing to representatives of the Berlin government.

Nothing has been learned thus far upon which a definite forecast of the decision can be based.

Premier Poincare last night had a long conversation with M. Durbois, French representative on the commission and is, he understood, to have instructed the latter to resign, should Belgium vote against France on the moratorium question.

## Thousands of Tons Of British Coal on Way to States

NEW YORK, Aug. 17.—Five vessels, laden with British mined coal, reached port today with 20,000 tons consigned to railroads and public utilities of New York City.

Several hundred thousand tons are now on the high seas enroute to Atlantic Coast ports, dealers said. Today's fleet sailed from ports in Wales and South England.

## Poincare Says He's Gone The Limit

PARIS, Aug. 17.—The Journal's London correspondent informs this paper that Premier Poincare said to him last night:  
"I have reached the limit of sacrifices which I am prepared to make to maintain the Entente. I cannot return to Paris having granted a moratorium without at least having obtained control of the Ruhr mines."

## Dr. Manderson Urges Great Need in China For Mission Work

At the annual convention of the Charlottetown district of the Women's Missionary Society of the Methodist Church held last evening at Cornwall Mrs. Geo. E. Full, Superintendent of the Charlottetown District presided and a very interesting address was delivered by Dr. M. M. Manderson, returned medical missionary to China, who spoke of the educational, evangelistic and medical work accomplished in recent years in that country.

Referring to the present political unrest in China, Dr. Manderson said she had frequently been asked what will be the outcome. Nobody can tell this; it may continue for five or ten years or even longer.

The need is for some great, far-seeing, Christian leader who will have the confidence of the people and the good of the country at heart. In the present emergency, the national consciousness today is being aroused in China and never before. There is a far-reaching student movement on foot and a glorious opportunity confronts the Christian mission movement in taking the initiative and spreading the Gospel among the young people of both sexes. ## Lord Northcliffe's Funeral Service Held In Westminster Abbey

## Anthracite Miners Expected to Return

(Special to The Guardian.)  
PITTSBURGH, Aug. 17.—The return to the mines of anthracite workers was expected to follow today's conference between officials of the miners union and the operators here.

The miners through their scale committee have been asking a 20 per cent increase in their pay. The operators wanted a reduction in wages, and both sides it was indicated were ready to recede from their stand and close observers declared that there was a likelihood of the 1921 wage scale being adopted for another term.

## Are Not Connected With Small Case

TORONTO, Aug. 17.—The mystery over the arrests of Herbert King of Toronto, in Perce, Quebec and Cecil Haley of Montreal, by Sergeant of Detectives Mitchell, has burst like a bubble.

Sergeant Mitchell put a pin in the bubble today at police headquarters. The arrest of King and Haley has no connection with the disappearance of Ann Wilkinson, a Toronto millinaire theatrical man.

The cause of all the interest in the case so far as it had a bearing on the Small mystery was due to the adventures of King, who left Toronto last October in an automobile alleged to have been stolen from the garage of J. Vincent Denike, Ossington avenue.

A private detective who produced a letter said to have been found in a grip in a hotel in Montreal, where King had stayed last October, and names on the hotel register of "Dr. and Mrs. Gray, of Toronto," were also factors, who after King left the hotel a private detective appeared and the hotel keeper's son hearing the man was from Toronto asked him to try and locate "Dr. and Mrs. Gray" of Toronto. The young man told the detective of grips in a room upstairs, and handed them over to the sleuth who came down stairs the next morning with a letter which he alleged he found in the grip concerning the disappearance of Mr. Small, supposed to have been written by "Mrs. Gray" to a woman in Rochester.

This letter, the Toronto police contended, was a fake.  
Following the publication of the story, and Chief Dickson's return from San Francisco, he sent Mitchell to Montreal to investigate the case and after a thorough exhaustive search and investigation Mitchell states neither Miss Haley nor King have anything to do with the Small mystery.

King is held on a warrant of a charge of stealing, J. V. Denike's automobile, and non support paid by his wife, while Miss Haley is held as a material witness. They appeared in police court today and were remanded.

Concealed in bushes on the beach between Manchester and Magnolia early this morning, as a result of a tip received last night, the officers observed a launch putting off from a sloop that had been anchored outside. When the officers set out for the launch, a motor boat. It was a long chase, punctuated by frequent shots from revolvers fired by the officers at men seen to be throwing liquor overboard.

When the sloop was boarded she was practically empty of cargo, but an examination of her papers showed she had sailed from St. Pierre with 138 cases of liquor. A check for several hundred dollars signed by a prominent resident of the summer colony on the North Shore, was also found on one of the men.

## CAPTAIN CUTTLE SCRATCHED.

LONDON, Aug. 17.—Captain Cuttle, the winner of the Derby, was officially scratched yesterday from the list of St. Leger entries.

## Nova Scotia Coal Mines Are Being Destroyed

### Volunteers Who Undertook Save Property of Mine Owners are Prevented. The Mines are Slowly Filling With Water.

(Special to The Guardian.)  
SYDNEY, Aug. 17.—"Everything quiet" was the word this morning, the fourth day of the strike of the miners of District 26.

The mines are being slowly but most cases and rapidly in some cases, flooded with water and filled with gas.

The huge power plant which supplies the current for practically the whole of the pumping and ventilation system of the collieries is shut down.

The coal company's property is in darkness and the relief crews of volunteer workers are being prevented from protecting the property.

OTTAWA, Aug. 17.—The troops which have gone to Cape Breton, said Hon. G. P. Graham, Minister of Militia this morning have been sent in compliance with the law.

Under the Militia Act, the local authorities may request the assistance of the militia and in that case the department is bound to send them.

QUEBEC, Aug. 17.—The Royal 22nd Regiment with their full equipment, including eight machine guns, have entrained at Lévis and are waiting orders to proceed to Nova Scotia coal fields where the mining strike is now on.

The 22nd Regiment is about two hundred strong and had only recently returned from Camp at St. Joseph de Lévis.

At noon today orders were received for the regiment to stand down and they were later marched down for the citadel and crossed to Lewis where they entrained about 11 o'clock last night. It is expected that the train will pull out about daylight.

In the absence of the 22nd Regiment, the citadel is held by some thirty odd members of the Royal Canadian Garrison Artillery who have returned from Petawawa for that purpose.

The authorities are evidently taking every precaution and are preparing for anything that may happen.

The Black Diamond line steamers Red Bridge and Lord Strathcona which had sailed for Sydney have been ordered back to this port and will remain here awaiting orders.

Men to Man Pumps Turned Back.  
SYDNEY, Aug. 17.—A carload of men enroute from Sydney to man the pumps at No. 2 colliery were attacked and stoned by strikers or strike sympathizers at New Aberdeen late this afternoon. The men were being taken out over the Sydney and Louisburg Railway and reached the colliery about the same time as the troop train under Colonel Elkins which had also been treated to a shower of missiles.

Sydney workers hid under the seats to escape the storm in the course of which every pane of glass in the coach was broken. Men then entered the car and warned the occupants to get back to Sydney. They were brought back to the city but will probably go out again later under military protection.

## German Paper is Outspoken on Lord Northcliffe

LONDON, Aug. 17.—It is stated in connection with the death of Lord Northcliffe, a Great Britain's leading publisher, who passed peacefully away early this morning after an illness of about two months, that death was due to infectious or ulcerative endocarditis, which, according to one of the physicians in attendance, probably began insidiously months ago, possibly during his trip around the world.

Lord Northcliffe was stricken in Cologne, while he was making a trip to incognito through Germany. Although he was aware of the danger of his illness, he battled gamely to regain his health.

The news of the death of Lord Northcliffe did not come as a surprise for during the last several weeks the bulletins issued by his physicians, although skilfully worded, had failed to hold out hope for his recovery. Nevertheless, his passing has caused great sorrow and messages of sympathy have poured in to his widow all day from many parts of the world.

After pointing out that the five per cent. rake off on the amount wagered is in addition to the tax of \$7,500 per day on each track, the Attorney-General continues:  
"The amount wagered last year was upwards of \$56,000,000 and the amount that will come from the taxation (the per diem tax) this year will, it is estimated, amount to upward of \$2,500,000, so that the total revenue which will be derived by the province of Ontario from race track tax of 1922 will be somewhere between \$3,000,000 and \$4,000,000."
