See Many Highlights In "Silent Barriers"

With its speedy and ever-changing succession of scenes, backed by the rugged beauty of the Canadian Rockies, many arresting highlights may be seen in "Silent Barriers", the dramatic story of the Building of the C. P. R. starring Richard Arlen, Lilli Palmer, J. Farrell MacCready, former Islander and graduate of St. Dunstons and Barry Mackay, Canada's first million dollar picture which was made amid the mountainous grandeur of British Columbia and Alberta last year under the title of "The Great Barrier". This is the production which created a sensation in London, England, when it was given its world premiere in the presence of Queen Mary, and later aroused a demonstration of approval at Montreal for its second world preview.

Thousands of extras are utilized in huge railway construction scenes and for the sequence in which stranded workmen wreck and burn the railroad settlement of "Moodyville". The audience will see the danger, death and disaster which beset the expedition into the unexplored mountains, headed by Major Hell's Bells Rogers, to find the pass which made possible the transcontinental railway. Men die in the turbulent rapids and burn to death in the terrifying forest fire. There are desertions by the faint-hearted and starvation faces the small remnant of the party when suddenly, by a twist of fate, the pass is discovered.

A whole train is engulfed in the treacherous muskage; there is a stirring horse chase to head off a train from destruction; a workman is slain in a swampy bog; a man is blown into a mountain side by a tremendous explosion; there is an awe-inspiring snow slide of huge proportions and many other dramatic incidents with all of which is coupled a theme of tender romance with its misunderstandings and final happiness. The Prince Edward program also includes a Popular Science Reel, Sport Short and Popeye Cartoon.

THE SAFE, SENSIBLE WAY TO RELIEVE CONSTIPATION

Every one knows the dangers of constipation. Pills and drugs usually bring only temporary relief. That's because common constipation is due to meals low in "bulk," "bulk" that does not break down in the body as does that of many leafy vegetables. ALL-BRAN absorbs twice its weight in water and forms a soft mass that gently sponges the intestines.

Kellogg's ALL-BRAN is a food—not a medicine. In addition to "bulk"—it gives vitamin B to tone up the system, and iron for the blood. It is a healthful way to get rid of constipation and all its evils.

Eat two tablespoons daily with milk or cream—three times a day in severe cases. Or use it in making bran muffins, breads, in salads or soups. Guaranteed by Kellogg in London.
