HALLWAY EVE was not celebrated in this City this year with the zest and recklessness that sometimes marks its observance. This was probably owing to the fact that it rained hard during the evening of the 31st, and this discouraged the youngsters who usually annoy citizens. There was some damage done however, and the bright minds which impelled their owners to tel down shop, awnings, fasten doors, tear up steps, etc, show that there is no immediate danger of the lunatic asylum being closed in the near future for lack of qualified candidates for admission.

New Silks in the Popular Plaids

PLAIDS HAVE had a surprising vogue this autumn, and indeed it seems as though the Highlands were making suggestions to Paris in many lines this season. We have been having a good deal of trouble to get you plaid silks fast enough though we've watched every source of supply. However to-day we are able to show a very attractive new line in six different designs—no—they're really not correct clan tartans in all cases—and we know it's hard to describe them—but we will try.

- NUMBER ONE Is a very handsome silk, in plaid of brown, navy, white and green, soft rich and tastefully combined.....\$1.15
- NUMBER TWO Is a brighter idea, garnet forming the strong feature, and the other colours being green, sky and navy.....\$1.15
- NUMBER THREE Blended shades of green, with deep reds, and a wee touch of white.....\$1.15
- NUMBER FOUR Two shades of cardinal, with contrasting greens and navies.....\$1.15
- NUMBER FIVE A softly quiet, ladylike idea in perfectly combined blue, green and black.....\$1.15
- NUMBER SIX Soft taffeta in a much mixed plaid, combining in excellent effect green, blue, black, gold, purple and red.....\$1.15

Now, you would think, to read some of these colors that they couldn't possibly combine prettily, but the proportion, and arrangement in every case brings perfect taste and excellent effect out of each colour combination.

All Made in 19 Inch Taffeta.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising. No occult space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagant. —American Medical Journal
