The bride was gowned in a lovely travelling suit of dove gray broadcloth braided in Grecian design, with picture hat to match. The bridesmaid Miss Honora Dalton wore a gown of London smoke broadcloth with black picture hat. Allan McMillan, brother of the groom was best man. The groom's present to the bride was a beautiful set of mink furs, and to the bridesmaid a gold brooch set with pearls. During the nuptial Mass beautiful music was supplied by the pupils of Notre Dame Convent. At the conclusion of the nuptial Mass a reception was held at the Rectory where an hour was spent in speech and song. Thereafter Dr. and Mrs. McMillan left on the east bound train amidst showers of rice and with the hearty wishes of hosts of friends for a long and happy journey through life. If the number and value of the gifts received be a token of the high esteem in which they are held, then the young couple are popular indeed, for never on such an occasion was there seen so magnificent a display of presents. The Guardian extends congratulations, and trusts that the Doctor, with so accomplished a life partner, may be as successful in the practice of medicine, as he was brilliant in his college course.

They got here with practically all their money gone and disappointed to find very few people speaking French. They started to walk to Rustico Sunday but when half way there, turned back. All the money one man possessed was thirteen cents. —Exam. 11.

The Grand Jury spent the afternoon visiting the public institutions and have not yet completed their work.

The annual meeting of the Charlottetown Board of Trade was held last evening with the President Mr. Paton in the chair. After the reading of the minutes and receiving the President and Secretary's report, it was considered advisable to defer the election of officers and take up more pressing matters which have to be placed in the hands of the Federal representatives previous to their departure for Ottawa. Transportation and freight rates questions of vital importance to this Province were discussed, and, according to present arrangements the tarifs work not only inimically to this province, but trade is being subsidized from here. The Southern part of the Island is virtually without connection with the Capital except by an almost prohibitive freight rate by rail, while that trade is being diverted to Nova Scotia by an increased subsidy. The Board is determined that such a state of affairs will exist no longer than it can help and will instruct the representatives to protest against it or demand water rates by rail. Failing to get the latter, the subsidized steamer must make Charlottetown a port of call.

Train arrangements both east and west have not been as satisfactory to this City as could be desired, inas-much as they have had a tendency to give visitors but little time to do any business with the merchants. The whole trend seems to carry business from the City and offers inducements to trade elsewhere. The Express outrage was severely criticized, and Horace Haszard was appointed a delegate from this Board to attend the meeting of the Railway Commission which meets in St. John next week to receive evidence re grievances etc.

As it was impossible for the representatives to be present last evening, and they intend going to Ottawa soon it was, on motion, decided to adjourn until this afternoon at 4 o'clock, and in the meantime ask every member of the Board to be present sharp on time, and by resolutions instruct the representatives just what is expected of them at Ottawa. Let there be a full attendance.

Disease Comes Through The Blood

To Cure Common Ailments the Blood Must Be Made Rich and Red.

Nearly all the diseases that afflict mankind are caused by bad blood, weak watery blood poisoned by impurities. Bad blood is the cause of headaches and backaches, lumbago and rheumatism, debility and indigestion, neuralgia and other nerve troubles,and the disfiguring skin disorders like eczema and salt rheum that show how impure the blood actually is. It is no use trying a different medicine for each disease because they all spring from one cause—bad blood. To cure any of these diseases you must get right down to the root of the trouble in the blood. That is just what Dr. Williams' Pink Pills do. They make new, rich blood. That is why they cure these diseases when common medicines fail. Mr. Henry Baker, Chipman, N B., says :—"About a year ago I was so weak and miserable that I thought I would not live to see spring again. I could neither work, eat nor sleep. My blood was in a terrible condition. My entire body broke out with pimples and small boils that would itch and pain and caused me great trouble. I went to the doctor and tried several medicines but to no effect. I was almost in despair when one day a friend asked me why I did not try Dr. Williams' Pink Pills. I decided to try them and took altogether eight boxes. By the time I had finished them I was like a different man. They not only purified and enriched my blood, but built up my whole system and I have not had a pimple on my flesh nor a sick day since."

To enrich the blood you must get the genuine Pills with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around the box. Sold by all medicine dealers or by mail at 50c. a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
