BELIEVES JAPS

(Continued From Page One)

Mr. Macdonald said: "The trouble is that we can't see the facts. The Japanese have a much better navy than the United States. The navy secretary (Col. Frank Knox) said the navy was making contact with the enemy. If they haven't been able to find them, I'll tell where they are. They're right at Manila, surrounding a gallant force of American troops. They're at Singapore and at Shanghai... the fact is they've haven't the supremacy they claimed over the alleged tissue-paper navy of Japan."

Mr. Hanson recalled that when Mr. Hanson asked for an inquiry by a Parliamentary committee Jan. 22 he had readily agreed but had subsequently felt that the policy adopted by the United States in having a member of the Supreme Court conduct the Pearl Harbor investigation might well be applied to the Hong Kong inquiry.
