ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION

"PAPE'S DIAPEPSIN" FIXES SOUR GASTRY, UPSET STOMACHS IN FIVE MINUTES.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a hearty appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gas, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.

GREAT-WEST-LIFE PROFITS POLICY TO HOLDERS NOT TO BE LESENED

The new General Manager of The Great West Life, Mr. C. C. Ferguson, paid a visit to his native Province last week. Mr. Ferguson is a son of the late Senator Ferguson of Marshall.

While visiting the Branch Office at Charlottetown he made an announcement which will give great pleasure to the Agents and should be received with satisfaction by the policy holders of this Company. This was to the effect that notwithstanding the losses of the Company, together with all other insurance companies, would be likely to incur in connection with the war, there would be no diminution in the liberal profits declared by the Company in past years, owing to the fact that some years ago the Company decided to base its profits on a 5% per cent. earning power instead of a seven per cent. and higher, which the Company has been earning almost since its inception. The idea was to create a reserve of surplus, which could be used to meet any unforeseen contingency such as has occurred during the last year.

Mr. Ferguson expressed himself as well pleased with the splendid progress his Company is making in Prince Edward Island under the management of Hyndman & Co.

IF THE MEN AND MUNITIONS ARE FORTHCOMING

LONDON, October 3.—The Times correspondent with the British headquarters in France, reports that the torrential rains and cold biting winds on Monday, Tuesday and Wednesday—March-like weather—were unfortunate for both sides, but especially for the attackers, because they prevented reconnoissances, made all aircraft work difficult, depressed the men and interfered with the artillery observation work, while the spongy earth lessened the effect of the shell fire.

Regarding the German defence, the correspondent says:—"Some people talk as if there existed an endless series of German positions stretching right away to the Rhine. This, of course, is unbelievable. We are ignorant of their number, but it may be said that it is strictly limited, since fortified positions are not the work of a magician's wand, but of arduous labor. The enemy is suffering heavily in guns and men, and even if he gets plenty of reinforcements he is suffering a strain of the most harassing kind and his resistance power weakens with the loss of each position. If men and munitions are forthcoming to the allies the autumn may still see the manoeuvre battle on a grand scale for which the world has been waiting."

A Problem of Vital Importance to Thousands of Married Women in P.E.I.

Let every married man who has not protected his wife by taking up Life Insurance just face the question and face it squarely: "What could my widow do to earn her living?" It is not a question to be lightly considered, and it should not be shelved or pigeon-holed for future attention. It involves a problem of vital import to thousands of women in this Island, and as the welfare of these is, or should be, the first concern of the husbands, it is well that they be confronted with it and see if they can satisfactorily answer it. "What could my widow do?" Wives can do wonders in a home. They can and do make it the one place worth while, worth working for and fighting for, if need be. Wife and home are always associated together in a man's mind. So long as a wife has a home she is happy, busy and contented, she is in her natural environment and can carry out her part in the great scheme of things. But she is dependent on the husband for that home and its maintenance. It is hers to manage the home not to maintain it. If the provider is taken from her what is she to do? She must quit the home and endeavor to be a provider herself. Now how many women, after years of domestic life, could go out and compete successfully in the world of business? It's astonishing how few men have left their widows free from want; and so some widows do cleaning, some takes boarders and some do sewing. There are some also who go under in the struggle. "What could my widow do?" for she may have to do it some day.
