Furnished by W. S. Louson

HE SILENCED THE DEVIL.

If you find yourself getting miserably begin to scatter like a wealthy farmer in New York State that I heard of. He was a noted miser, but he was converted. Soon after, a poor man who had been burned out and had no provisions came to him for help. The farmer thought he would be liberal and give the man a ham from his smoke-house. On his way to get it, the tempter whispered to him: "Give him the smallest one you have." He had a struggle whether he would give a large or a small ham, but finally he took down the largest he could find. "You are a fool," the devil said. "If you don't keep still," the farmer replied, "I will give him every ham I have in the smoke-house."

For life is the mirror of king and slave, It's just what we are and do, Then give to the world the best you have, And the best will come back to you.

COLLEGE BRED IS STREET SWEEPER.

DENVER, Feb. 15.—Charles A. Durant, who is said to have been graduated from the Harvard medical school and also to have studied at Yale and Oxford, will begin work as a city street sweeper today to support his wife and five children. He was given his choice by the Humane Society of working or going to jail. He said he preferred freedom. Hitherto, according to the Humane Society officers, his wife had been forced to work to keep the family in food and clothing.

Durant, who is a Spaniard, was educated by a wealthy Denver woman for missionary work in New Mexico. Her intention was to have him act both as a lawyer and doctor for the Mexicans of the Southwest.

WILLIAMS WINS STRENUOUS MILL.

LOS ANGELES, Feb. 13.—Kid Williams of Baltimore won the decision from Eddie Campi of San Francisco in their 20-round battle at Vernon yesterday.

Our Climate Breeds Throat Weakness

Few Escape Colds, Bronchitis and Throat Soreness. New Methods Make the Cure Simple, Quick, and Inexpensive.

Statistics prove that ninety-seven per cent. of Canadians suffer from catarrh, and that this disease is most dangerous owing to its tendency to extend to the bronchial tubes and lungs, causing consumption. So inadequate has the use of sprays, douches, and snuffs proved in the treatment of catarrh that these methods have not been in use by the regular physicians during the last decade. It was not until the discovery of Catarrhazone, the medicated air treatment, that the profession could be persuaded to treat this disease locally.

Catarrhazone treatment founded upon the knowledge that air, and dry air only can enter the bronchial tubes and lungs, at once commended itself to all scientific and medical men. They found in Catarrhazone a new germicide of sufficient power to kill the bacilli of catarrh, bronchitis, and asthma, and volatile enough to impregnate every particle of air breathed by the patient, yet leaving it free from moisture, thus enabling the air to reach every part of the passages in the head and throat, and to penetrate the minutest air cells in the lungs.

After the germs have been killed Catarrhazone at once acts upon the inflamed mucous membranes, soothing and restoring them to their natural and healthy condition. The convenience and value of the Catarrhazone Inhaler is easily recognized. A sudden change in weather, damp feet, or sitting in a draught is often the beginning of serious complications, but having the inhaler in your pocket, at the first shiver or sneeze you can apply the remedy and avoid fatal consequences.

It is so well-nigh impossible to suffer from even a slight cold if Catarrhazone is inhaled occasionally, we recommend all to use this valuable remedy. Large size lasts two months, costs \$1; smaller size, 50c. At all dealers or by mail from the Catarrhazone Co., Buffalo, N. Y., and Kingston, Canada.

AMERICAN EMBASSY AT PARIS TURNED OUT.

PARIS, Feb. 13.—The United States embassy in France is about to be turned out into the street. The landlord of the house has given notice that the place must be vacated on April 15, as he intends to transform the house into a hotel. The question of finding a suitable location for the embassy has become a serious one, owing to the overcrowding of Paris.

CREOSOTING CO BUYS SITE.

BELLEVILLE, Feb. 15.—If no hitch occurs, the Canadian Creosoting Company, recently incorporated, will locate on its own site in East Trenton. The company reports that it has purchased about 30 acres of valuable riverfront property from the Gilmour Door Company, upon which it proposes to place a plant which will cost about \$200,000, and give employment to over one hundred men. This industry will be a good one for the north country, as it will make many hundreds of thousands of railroad ties annually, as well as much timber for making wooden paving blocks.

DROP REMAINING CHARGES.

SALEM, Feb. 13.—The last word in the Lawrence strike case was heard today, when District Attorney C. Atwell dismissed the charges of conspiracy against Joseph J. Ettor, Arthur Giovannitti, William D. Haywood, William E. Trautman, James P. Thompson, William D. Yates, Thomas Holliday, Edmund Rossini and Gildo Mazzarella. The charge of rioting against Ettor was also dismissed. This action was expected as a consequence of the collapse of the government's case in the recent murder trial of Ettor and others for conspiracy in the recent strikes.

MILITARY TAILORS ON ANXIOUS SEAT.

WASHINGTON, Feb. 13.—Gloom as black as the blackest night has settled on the leading military tailors of the capital as the result of the Senate's failure to confirm the appointments and promotions of army and navy officers, for the land and sea fighters in considerable numbers are failing to take off the hems of their uniforms and other glad raiment until they are authorized by a dilatory government to do them. Uniforms to the amount of between \$25,000 and \$30,000 made up and waiting are now lying idle on the tailor's shelves.

WARNS BANGOR LINE STRIKERS

BANGOR, Me., Feb. 14.—Intimating that detectives have attempted to destroy property of the Bangor & Aroostook Railroad, in order to cast reflections upon the orderliness of the strikers, F. J. McNamara, vice-president of the Brotherhood of Locomotive Engineers, in a signed statement, says that the union has "received the tip to advise the men to keep entirely away from the B. & A. property, as information had been given out that detectives were going to commence their old alleged tactics."

"The strikers," says McNamara, "have lived in the community for years, and are law-abiding citizens." None of them, he claims, goes near the property, unless it is to travel as a passenger, on mileage which has been bought and paid for.

Charges of attempted train-wrecking are made by the company, as the result of recent trouble on a stretch of 150 miles of track. The first trouble occurred, the company alleges, on February 9, when a misplaced switch caused the overturning of a locomotive.

RICH MAN SEEKS "NOVELTY" IN JAIL.

NEW YORK, Feb. 14.—Declaring he was willing to serve three days in jail just for the "novelty of the experience," Norwood McCloud of 9 Buckingham Road, Brooklyn, refused to pay a fine of \$3 imposed by Magistrate Herbert in the night court.

"You see, I have the money to pay the fine," he said, showing a roll of bills which he took from his pocket, "but I won't do it. I ought not to be fined, and I won't pay, but I will go to jail because I have never been locked up." It will be a new experience to me and I'll probably get a lot of fun out of it. I guess I'll spend \$300 a day in jail, but I won't pay that three-dollar fine."

McCloud was arrested in the Manhattan Hotel by House Detective William Cullen, who said McCloud came into the hotel at 11 p.m. and made a disturbance in the lobby which attracted much attention and annoyed other guests.

McCloud himself said that he had gone to the Manhattan to see J.G.D. Lorimar, who occupied room 604, and was his friend. They had an engagement to go motoring. He asked at the clerk's desk, he said, for his friend, and the clerk refused to send up his name.

He said he objected to the clerk's conduct and was arrested.

In court it was said that McCloud was very wealthy and owned considerable valuable Brooklyn real estate. He himself said that he could pay a fine of \$3,000,000 and could afford to be a martyr to a principle.

LAWRENCE RIOT CASES DROPPED

SALEM, Feb. 15.—The last cases growing out of the riots at Lawrence last winter during the strike of nearly 30,000 textile operatives were cleared away to-day when District Attorney Atwell, prosecuting attorney in the murder trial of Joseph Ettor and Arturo Giovannitti, nolle prossed cases against a large number of strike leaders.

The case against I. W. W. leaders William D. Haywood, William E. Trautman and Etore Giannini, charging conspiracy and the last also with the rioting, was among those nolle prossed by the district attorney.

The other cases nolle prossed were against Edmund Rossini, William Yates, James Thompson, Thomas Holliday, Guido Mazzarelli, Antonio Schibille, Salvatore Torrisi and Raphael Maglio.

PRISON FOR HAZARD IN SOUTH CAROLINA

COLUMBIA, S. C., Feb. 13.—Hazing at any college in South Carolina is made a misdemeanor punishable by a fine of \$50 or imprisonment of thirty days, under a bill which went to the Senate to-day after having passed the House.

SENATOR ASPIRANT HELD FOR BRIBERY.

CHARLESTON, W. Va., Feb. 13.—Col. William Seymour Edwards, candidate for United States senator, was arrested today charged with bribing Delegate John M. Smith of Tyler county. The warrant was issued by Justice Marion Gilchrist at the instance of Delegate S. U. G. Rhodes, Edwards furnished bond.

GLoucester Facing FRESH FISH FAMINE

GLoucester, Feb. 13.—Gloucester is facing a fish famine of greater extent than any of recent years and dealers in fresh fish are facing ruin because of the unprecedented shortage in their supplies.

For three weeks but one off-shore fishing schooner has entered Gloucester with a full hold, and few dare to predict how long this condition of affairs will remain.

Gloucester looks like a deserted village and its water front, usually crowded with vessels, is abandoned save by a small fleet of gill-netters, who are daily attempting to break the famine.

"SOME HA'E MEAT, AND CANNA EAT"

So Bobby Burns tersely describes the rich, but still poor, dyspeptics. But their case is not now so desperate as when Burns wrote. For the man who has the food now can eat without suffering for it, if he just follows the men with a Na-Dru-Co Dyspepsia Tablet.

These remarkable tablets banish the troubles of the chronic dyspeptic—the man who is bilious—the sufferer from heartburn, gas on the stomach or occasional indigestion. You can eat hearty meals of wholesome food—and digest them, too—if you take Na-Dru-Co Dyspepsia Tablets.

Compound, by expert chemists, after probably the best formula known to medical science, they are quick and certain in their action, giving prompt relief from all forms of stomach trouble, toning up and strengthening the digestive organs and bringing about permanent cures.

A man is no stronger than his stomach. Fix yourself for your best work by taking Na-Dru-Co Dyspepsia Tablets. Get at your druggist's, National Drug and Chemical Co. of Canada, Limited, Montreal.

Could Not Heal The Wound

For many years Dr. Chase's Ointment has had an enviable reputation as a means of healing ulcers, sores and wounds that refuse to yield to other treatments.

In this letter you will read of a case in which doctors failed to heal a wound made in operating. All sorts of treatments were tried in vain until Dr. Chase's Ointment came to the rescue and made a cure.

Mr. G. E. Leslie, brakeman on the C. P. R., and living at Grand Falls, N. B., writes: "I have given Dr. Chase's Ointment a most severe test, and do not believe there is any treatment so successful as a healer of the skin. I was operated on for a tumor, with the result that a wound was left which refused to heal, in spite of many preparations tried. Dr. Chase's Ointment healed the wound rapidly. So thankful am I for the cure that I want others to know about this wonderful ointment."

PROSPECTUS OF James C. Tuplin Silver Black Fox Company, Limited. [The Original Tuplin Ranch Established Over 20 Years] Head Office at Charlottetown, P. E. I. Capital Stock \$330,000.00 Already Subscribed \$200,000.00 PAR VALUE OF SHARES \$100.00 PROVISIONAL DIRECTORS GEORGE J. ROGERS, President President The Rogers Hardware Co. Ltd. W. K. ROGERS, Sec'y-Treasurer. Provincial Manager Canada Life Assurance Company. THE PROPOSITION The James C. Tuplin Silver Black Fox Ranch situated at Black Banks, Prince County, Prince Edward Island, consisting of two hundred and fifty acres of land, fine new building house, (cost about \$6,000.00) new Barns, ice house and out-buildings, complete equipment for the carrying on of fox ranching, also all farm implements, carriages, horses and cattle, etc. This property is situated on Cascumpec Bay, and the sea bottom lying opposite is particularly suitable for the cultivation of oysters, and as the Prince Edward Island Government has just completed arrangements for the leasing of oyster bottoms at a nominal fee, we believe this industry can, in the near future, be made a source of a splendid income from this property. THE FOXES There are now in the ranch and being taken over by this company twelve male and ten female foxes, all Pure Bred silvers of the very best blood that can be found anywhere, and in addition there is a female of the same stock owned by an outside party, but which is mated with a male of the Tuplin ranch, and in the offsprings of this pair the company will have a half interest. This female has never missed breeding nor raised a litter of less than five, and we look upon this arrangement as a good one for the company. The company hold the pedigree of every fox at present in the ranch, and their breeding can be traced back to the establishment of the industry by the late Robert Tuplin nearly twenty years ago. For years, the late Mr. Tuplin bred these fancy animals and shipped their pelts to London, obtaining for them record prices and gradually grew wealthy from the returns. Foxes have litters from three to seven. Put the average down at four or two pairs, say twenty-two pairs in all, at \$12,000 per pair, equals \$264,000.00. Deduct for expenses of running the ranch for the year \$5000. The results, all the original capital returned, and the original eleven pairs of foxes still owned by the Company, which at present price would be worth at least \$330,000 besides the large and valuable ranch. This seems good enough without adding any thing further, but it might not be out of place to point out that as from \$25,000 to \$35,000 is being asked to-day for a pair of breeding thoroughbred Silver Black Foxes, that the prospects for a higher price than \$12,000 per pair for this year's pups appear good. SOME FACTS It is admitted by Ranchers all over the Island that the James C. Tuplin Foxes are all pure bred—Every Fox with a Pedigree—No imported stock on the ranch. All young breeders. All mated, with options now selling for this year's pups at \$12,000 per pair. A conservative estimate will be 50 p.c. to 75 p.c. returned to the investors of this Company this year. There are no Bonds or Preferred stock. Everyone on the same basis. GENERAL INFORMATION The Company in taking over the property has a contract with Mr. James C. Tuplin whereby he is to remain as manager of the ranch for one year at least, at a salary of \$3,000 a year, and have the free use of the residence now occupied by him. He is also to instruct a man, whom the company may select as manager, should Mr. Tuplin decide to retire from the management. The Breeding of wild animals in captivity has long passed the experimental stage, and there is not the slightest doubt but that the raising of fur bearing animals is to become from now on, a legitimate, permanent and highly profitable business. APPLICATIONS FOR STOCK Applications for stock may be made to George J. Rogers, Charlottetown, or to W. K. ROGERS, Charlottetown. PAYMENTS Thirty per cent of the subscribed amount must accompany all applications for stock, (which in case of stock not being allotted will be returned,) the balance to be paid on allotment, March 15th, 1913.
