NEW ORLEANS, Oct. 14.—(Special)—A special despatch from Bluefields, Nicaragua, says a revolution, headed by General Estrada, against president Zelaya, has aroused the entire country, and seems to be sweeping the republic. Everywhere people are reported flocking to the armies of the revolutionists. The revolutionists have seized Rivas and Corinto, a seaport on the Pacific, has declared for the revolutionists and has overthrown the Government there.

PARIS, Oct. 14.—(Special)—The Police records show one policeman has been killed and seventy-six persons were wounded during rioting. Among those arrested were five notorious anarchists. The Press with the exception of Royalist and Clerical element continues to express its indignation over the execution of Ferrer and predicts further demonstrations throughout the country. Students in the Latin quarter burned King Alfonso in effigy.

KENTVILLE, Oct. 14.—(Special)—The Court room was crowded to suffocation today, when the Carruthers libel case was resumed. The interest in the town is intense. The first witness was Miss Hester Chalefour, the attractive blonde who caused such a sensation yesterday. She identified several letters and made a startling statement that the instigation of her mother, she concocted evidence against Sir Frederick, and they forced two thousand dollars from him. This money was paid five years ago. The witness admitted that she got the contents of all letters were bolstered up to serve her mother's wishes. The witness also gave denial to all the statements that she had received from Sir Frederick at her apartments, she had made affidavit that she had not been on intimate terms with Sir Frederick. Cross examination, the witness said, the money was extorted through blackmail, the mother having laid the plans. The witness manufactured the evidence at her mother's request, and the best she could get to get it. When she demanded the money she got it. She believed she could have got more. Her mother got most of the money. Mrs McPartland then took the stand. She is a woman alleged to have been separated from her husband by Sir Frederick. Mrs McPartland absolutely denied all Mrs Allison's evidence to this effect. She had only met Sir Frederick once, and that was in regard to the Eye-Opener article. Mrs Allison's statements were untrue, every word. She had never received pay from the government for service not rendered.

LONDON, Oct. 13.—Women, who may change their figures to suit the continual changes of fashion in dress, are now faced with the need for an ampler mould of form. The sylph-like figure that was essential to the correct wearing of the now obsolete Directoire gowns have become infatigable, women are to put it quite plainly—trying to get fat, for the present mode demands it. To gain their ends these courageous creatures are, it is stated, subsisting largely upon butter and honey, a dietetic regime likely to become monotonous. "Honey," said a noted physician, speaking on the subject, "is of course, a valuable help, and, mixed with butter, it should not so soon grow cloying. But if women really desire to put on flesh, and, no doubt, if fashion demands it, they do most ardently, rather more elaborate treatment is necessary. In the first place, the habit of worrying, if indulged in, must be given up. Nothing pulls down the normal person so much as worry. Exercise should be given down to the minimum—about three miles a day, moderately fast walking.

ROME, Oct. 14.—(Special)—Indignant meetings are being held throughout Italy in consequence of yesterday's events at Barcelona. A protest against the execution of Ferrer has brought business almost to a standstill. No street cars are operated and cabs and automobiles remain at their stations with no one to take them out. The whole normal life of the city is interrupted. Among the masses the feeling grows turbulent, as the people attribute the execution of the revolutionist to reactionism, Vatican influence and Jesuit support. The Spanish and Austrian embassies and the Vatican are closely guarded by troops.

WINNIPEG, Oct. 14.—(Special)—The new main line of the C. P. R. to Northern Alberta, to connect Winnipeg with Edmonton, will be completed this week. It will tap the Calgary and Edmonton road at Westas. There remains but sixteen miles of steel to lay and the last spike will be driven before Saturday night next. This will give practically another main line through to the Alberta capital via Portage La Prairie, Saskatoon and Yorkton.

PITTSBURG, Oct. 14.—(Special)—Detroit brought the score to three games each by defeating Pittsburg today, five to three.

MONCTON, Oct. 14.—(Special)—Further light has been thrown on the charges against several I. C. R. Conductors. Brady has received instructions from Ottawa to suspend several of the conductors indefinitely. He would not give reasons, names or division.

Racing was Good but the Crowd was Poor Owing to Cold Weather.

Robert Toombs, City, was taken suddenly ill yesterday morning. Dr S. R. Jenkins and Dr Ralph were called in and did all possible but he passed away about ten hours after the Doctors were called to his bedside. The late Mr Toombs was a well known and publicly spirited Citizen successful for many years conducted a successful Harness Making business on Great George Street. His death will be greatly mourned by his many friends in this City, and especially by his grief stricken wife and family. He was a kind and faithful husband and father. He is survived by his wife and two sons: Wallace in Seattle and Cecil in Vancouver; and five daughters: Mrs. E. W. Cameron, Prince Rupert; Mrs. Robert Murphy, and Mrs. B. Leversage, Vancouver; Mrs. Charles Livingstone, City and Miss Marion at home. To his sorrowing wife and family The Guardian extends deepest sympathy.

MONTREAL, Oct. 13.—In awarding scholarships at McGill College, a third year exhibition scholarship, value one hundred and fifty dollars, has been given to J. W. Bridges, Casumpee, for philosophy.

WINNIPEG, Oct. 13.—The last spike in the Prairie Section of the Transcontinental was driven near Wainwright yesterday and it is now possible to run a train from Fort William to Edmonton, 1,500 miles. It is not likely, however, that the line will be officially opened until spring. The contract price, exclusive of stations, was thirteen million dollars. The two hundred and forty four miles from Winnipeg to Superior Junction was the hardest section, entailing the excavation of millions of tons of rock.

SYDNEY, N. S. Oct. 14.—(Special)—The horse races held here this afternoon in connection with the Cape Breton Farmer's Exhibition, were very successful from a sporting point of view, though not a success financially, owing to the cold only about 600 witnessed the events. In the 2:19 class "Coquette," of Eastport, Me, took first place, time 2:22. In the 2:35 class, Alice A. Halifax, took first, and in the match race, "Dora Thorne," owned in North Sydney, won first money.

MONTREAL, Oct. 13.—The Council of the Board of Trade today refused to take official notice of the proposed celebration of the centenary of peace between Canada and the United States. The proposal came up at the request of Canadian Peace and Arbitration Society suggesting a petition be sent to the Government favorable to an international celebration. The project was looked on as a private matter for individual signatures.

WINNIPEG, October 13.—Tales of the havoc wrought by prairie fires and of deeds of heroism are coming in daily from the stricken districts, and indicate a pitiable state of affairs in many cases. At a point north of Oak Point, Manitoba, where there are twenty families in one poor settlement, all of whom are poor home-steaders, who have not yet received their patents, the district has been practically swept, and the families have only escaped after heroic fighting for their lives. The school built last summer was also destroyed. One family escaped through being wrapped in wet blankets and being buried in the sand. From Grassy Lake, near Lethbridge, comes news that the fires there were the worst in the history of the settlement. Hundreds of hay stacks have been burned and the town escaped only by a narrow shave, a shower of rain coming at the opportune time. Considerable damage has also been done around Tisdale, where a number of grain stacks have been burned.

NEW YORK, October 13.—A letter just received by relatives in Brooklyn states that Jacob Henselman, president of the Svets Volks Fest Verein, who is also owner of a large and prosperous restaurant at 99 Central avenue, Brooklyn, who has been mysteriously absent for nearly two weeks, is at present in Montreal, ill both in mind and body, although his present address there is not disclosed. Henselman is about thirty-five, and had nearly \$3,000, which he had withdrawn from banks, the day of his disappearance. He writes to his wife: "I did not know what I was doing at the time I left you. I intended first to take a trip to Switzerland, but on account of sickness here I could not do it. Don't worry. The money is well taken care of. I will try and be back in four weeks." His wife was a widow with a little money and a fifteen-year-old daughter, his senior by some years when he married her a year ago.

VANCOUVER, B. C., October 13.—Rushing down from Central Park in to Vancouver at a speed of over fifty miles an hour, a work train of five dump cars, let loose by small boys, rushed into the rear end of a Grand View passenger car on Sunday. Conductor Haigh says the runaway cars, yelled and jumped. The trunks of the car were broken out in the under it and the rear vestibule, except the roof, smashed into pulp. Wood and the flooring torn out. The motorman, H. Thompson, was shot out of the vestibule half through the car, carrying the front door with him. Twelve passengers were on the car, including several women and children. All escaped with a shaking.

VICTORIA, B. C., Oct. 13.—Bringing 979 tons of general freight, including 822 bales of silk, worth \$500,000 and 263 Chinese passengers, the steamer Keemun reached port last night from Liverpool and the Orient. The Keemun encountered a typhoon in the Formosan Straits, several hours out from Hong Kong and was severely buffeted. The equatorial gales were experienced about mid-Pacific and heavy fog was encountered when nearing Tag. Captain Contradi got sounding of Leonard Island, where a shipwreck was seen anchored in ninety fathoms of water. The land was not out of the vestibule half through the car, carrying the front door with him. Twelve passengers were on the car, including several women and children. All escaped with a shaking.

TORONTO Oct. 13.—A report that gold has been discovered in Whitney township has been received by the Department of Mines. Five hundred prospectors are already in the field and many more are following. Samples of the ore show visible gold and in some places the district is said to be very rich.

GLASGOW, Oct. 13.—Important plans for increasing the steamship service to the River Plate are under way, involving the construction of eighteen steamers of over seven thousand tons each. The vessels are for the speedy conveyance of dead meat from the River Plate to Liverpool and Glasgow. Tenders have been issued for nine, which are to have a speed of fourteen knots, and it is understood that the rival service will ask for vessels of fifteen knots speed. The one service emanates from Liverpool and the other is backed by a prominent North of England shipbuilder and shipowner. It is understood that Sir Christopher Furness and Allan Hughes are interested in the scheme and will become respectively, chairman and vice-chairman of the new company. There is a rumor, however, that the vessel trust is also connected with the new service.

LONDON, Oct. 12.—One of King Edward's hobbies is collecting walking sticks. He has just added no, less than 23 to his collection at one fell swoop. When visiting Frank and Mrs Bibby in Scotland a few days ago, His Majesty observed an attractive walking stick in the possession of one of the guests, and found that it had been supplied by a maker at Port Augustus. A telegram was at once sent to Port Augustus, asking that a selection of the best hill walking sticks of the same kind should be sent for inspection. The King expressed himself delighted with all the specimens sent, and decided to buy 23. The patterns are mainly after the originals of the late Roualeyn Gordon-Cumming.

HALIFAX, Oct. 13.—The captain of the schooner Cecilia from Port Aux Basques, now in port here, reports that yesterday week when about forty-five miles from Newfoundland coast, he saw a huge solid body of water pour out from the sky as if from a large tunnel and run down into the ocean as a river falling from a height. It caused a roar as it fell and sent a spray two or three hundred feet. The steam continued falling for nearly fifteen minutes. Later the same day, four similar falls were sighted in different directions. They are supposed to be due to a cloud-burst. The clouds appeared very low at the time, and there was but little wind.

OTTAWA, October 13.—The trio of fugitive safe blowers are still at large, with the country-side and police in hot pursuit. James T. Craig, of Pittsburg Harbor, saw three men Saturday and recognized one as a man who three years ago was taken for breaking a safe at Gattineau Point.

CAPE HAYTIEN, Hayti, Oct. 13.—A revolution has broken out in Santo Domingo. The insurgents, headed by Gen Andre Navarro, this morning attacked Dajabon, a town near the Haytien frontier, but were repulsed by the government troops.

LITTLE YORK, Oct. 14.—The annual prize-shooting of D. Co's Rifle Association took place on Saturday, there being 31 competitors. It was also the final shoot for the trophies which had been bought by the club, and shot for during the season. The club was divided into 1st, 2nd and 3rd class shots. The winners in the different classes were Col. Geo Crockett, B. R. Brown and Guy Henderson. The club thoroughly appreciates the prizes given by the merchants of Charlottetown and others. The scores made were as follows: Col Geo Crockett 89, B. R. Brown 87, A. Jackson 84, Lieut B. Duck 83, J. M. Crockett 82, Joseph Garnum 81, Sergt W. N. Duck 79, M. Hardy 78, Lieut R. Crockett 77, P. VICTORIA, B. C., Oct. 13.—J. A. Macdonald, leader of the Opposition in British Columbia, tendered his resignation on Saturday at the Liberal convention. At New West Minister. The convention unanimously chose John Oliver, M. P. P., to succeed the retiring leader. Mr Oliver will announce his policy at a public meeting to be held next month here and at Vancouver. It is expected the new platform will contain a strong railway plank. Premier McBride, it is believed, will ask for a dissolution in the latter part of this month, the elections being held towards the end of November. There is great activity in political circles in anticipation of the coming struggle.

WASHINGTON, D. C., Oct. 13.—American labor will honor in the capital of the United States the returning President of the American Federation of Labor, Samuel Gompers. Preparations have been made by the Union laborers of the city to give their chief welcome in the form of a monster parade in which it is estimated that more than 25,000 from Washington and other cities will appear, and which will be reviewed by Mr Gompers, to be followed by a mass meeting in Convention Hall, where formal addresses of welcome will be made by district commissioners West, Franklin K. Lane of the Interstate Commerce Commission, John Mitchell, former president of the miners union, and others. Mr Gompers in a speech at Convention Hall will tell of the lessons he has learned and the comparisons he has drawn by his recent study of labor conditions in Europe, whether labor should be by the organization of which he is now head.

SEATTLE, Oct. 13.—Blinding and gagging the night chief clerk and his assistant and carrying them to an unoccupied part of the building, a lone hold-up man robbed the office of the Great Northern express company at the King Street station early this morning, securing several stacks of gold and silver and a large amount of paper money, the total amount summing into the thousands. Minard's Liniment cures Neuralgia.

ANNAPOLIS, N.S., Oct. 13.—A blaze at Granville Ferry this morning between one and two o'clock consumed the house and barn, together with the contents, owned by S. W.W. Pickup and occupied by Lawson Gilliat and family. An alarm was sounded but for lack of water the flames spread so rapidly it was with difficulty that the inmates escaped, some of them in their night clothes. How the fire originated is unknown. Mr Gilliat was away from home at the time.

SAN ANTONIO, Texas, Oct. 13.—James Fagan, an aged switchman here has received word that a Carnegie pension of forty thousand dollars was awaiting his disposition. Fagan worked for the Pennsylvania Railroad in the 60's when the Iron Master was his division superintendent and the forty thousand dollars is the accumulation of a pension set aside for him by Carnegie years ago, when Fagan dropped out of sight. The temperature at three o'clock this morning was forty-six degrees.
