The Eastern Guardian

IT PAYS to buy in this Province

NEW RESIDENCE.—Mr. Angus McLean is busily engaged in finishing his fine new dwelling house at the corner of Richmond and Victoria streets, Georgetown, which he erected last summer. &

NAUFRAGE HARBOR.—This harbor has been recently surveyed by a Government engineer, preparatory to dredging which will be begun shortly. The fishing industry is booming at this place. Messrs. Allan Gillis, John Ryan and W. D. Coffin buy up the fish at good prices. The Naufrage lighthouse is in charge of Mrs. Frank McKinnon, widow of the late light-keeper. &

READY FOR RACES.—The Georgetown Driving Park Association are now busily engaged in getting the race course in proper shape for the coming races which will be held on Wednesday, July 18. Doubtless the people of Georgetown will prosper on the 18th as that is also Nomination Day there, and will be the means also of attracting a larger attendance of visitors. It is understood that some of the fastest horses on the island will compete which will no doubt, make this race an interesting one.—G

INTERESTING EXPERIMENT.—An interesting experiment in fish culture is at present being made at the Lobster Hatchery in Georgetown, a number of live spawn lobsters being placed in a large crate, which is anchored by the side of the Queen's wharf. The experiment is being conducted for the purpose of studying the natural method of incubation at close range, and it is said that its result may have an important bearing on the future of lobster hatcheries throughout the Dominion. In this connection it might be stated that veteran lobster fishermen claim that the hatcheries are of little or no value to the industry, and the results are not at all commensurate with the amount of money expended. They claim that a better system would be for the Government to pay a small reward for each spawn lobster caught, the same to be marked by a Government official and then liberated. It is claimed that under such a system every berried lobster would be returned to its native element, whereas under the present method many thousands of spawn lobsters are destroyed each year. The former method is said to be in operation along the Maine coast, where the Government pays as high as one dollar per head for each spawn lobster caught. The natural method of incubation, it is also claimed by the fishermen, with much show of reason, is immeasurably superior to the artificial method which obtains in the hatchery. The results of the aforesaid experiment are therefore being watched with much interest.

O. G. T. OUTING.—The officers and members of St. George's O. G. T. Lodge together with a number of invited guests held a very successful picnic at St. Andrew's Point, Lower Montague, on Tuesday, July 10th. Many came to the "Point" in motor boats; others by the S. S. "Montague," and all spent a very pleasant day, despite the weather. Tea was served about half past four p. m. by the lady tenants, and all did full justice to the beautiful repast which was served in the home of Mr. and Mrs. Conner who with their usual hospitality, kindly offered the use of their home. The Temperance picnic is an annual affair and is always a good time, credit being due in a large degree to the efficient committees which were in charge.—G

EASTERN PERSONALS

Mrs. York and family of Ontario are spending the summer at Fortune Bridge.—F.

Mr. Harry MacKay, Station Agent at Mt. Stewart motored to Georgetown on Sunday last.—G.

DONALDSTON SCHOOL EXAMINATION.

The goodly number of visitors who wended their way to Donaldston school on the afternoon of June 28th, found the room presenting a gay and festive appearance in its tasteful decorations of ferns and maple leaves. The children assembled there, neatly dressed, their bright faces beaming a welcome, proved that the semi-annual examination had no terrors for them. During the past two years they had been under the care of one of the most industrious and successful teachers in the province, one who spared no pains in training them in all the required branches of learning, and who won their affection while keeping proper discipline at all times. It is a matter of the deepest regret in Donaldston that Miss Bertie Stewart has severed her connection with this school, as it is felt that her type of teacher is indeed rare. The examination, conducted by Rev. J. A. McIntyre, Miss Margaret Murphy, teacher of Millcove, and Miss Stewart, was very thorough and included the usual subjects, the answers amply proving that the work done was far above the average of ungraded schools. When the examiners had finished their part of the afternoon's work, an interesting program of drills, dialogues, and recitations by the pupils delighted the audience; and while each one's effort was most pleasing, special mention must be made of a drill by eight of the smallest boys, who displayed on their

EXPERT EYE SERVICE

We have recently had the privilege of visiting the offices of some of the most expert Opticians in Canada. We have studied their methods and seen them practically demonstrated and it is a matter of gratification to be able to say that the service we are giving our patrons, we believe is quite equal to that obtainable in the large centres. We solicit your patronage.

G. F. Hutcheson
Optician

You can keep the fine natural color in Raspberry Preserves if you make them with

Lantic Sugar

Long cooking fades raspberries. You can avoid this by using LANTIC SUGAR which dissolves instantly on account of its "FINE" granulation. LANTIC is the best sugar to use for all preserving on account of its purity and high sweetening power. LANTIC is a pure cane sugar equally good for the table, for general cooking and for preserving.

part marked intelligence and careful training on the part of the teacher. Prizes donated by Miss Bertie Stewart were then presented by her to the following:—
Prize for highest marks in tests during year won by Laura A. Court, Grade VI.
Prize for best attendance during year also won by Laura A. Court, Grade VI.
Prize for deportment awarded to Annie M. Bowlan, Grade IV.
Prize for nature study awarded to Fred Lynch, Grade III.
Presentation of prizes by a general distribution of candy and nuts kindly provided by the teacher and other friends. Rev. J. A. McIntyre, in the course of some very favorable comments on the condition of the school, stated the fact that two of Miss Stewart's pupils had good second and third respectively on the list of matriculants in Prince of

Briscoe \$935
The Car with the Half Million Dollar Motor
MADE IN CANADA

Trust Your Own Eyes To Judge Its Beauty

ONLY a blind man could fail to appreciate the distinctive body lines of the BRISCOE. This beautiful body was designed by one of the foremost body builders. Its graceful appearance compels admiration. The BRISCOE gives you everything the heart could wish for in style, attractiveness, comfort and equipment. It is a car of which you will be proud to say, "I own a BRISCOE"—a car so beautiful, so sturdy, so light, so powerful, and yet so economical to maintain, that it brings the joy of motoring within reach of those who have never before been able to obtain the class of car they desired at a price they could afford to pay. The BRISCOE is a car to delight the bride-to-be. It will lend dignity to the physician—add to the prestige and prosperity of the salesman—save time and money for the busy business man—give untold pleasure to any family. Its unusually complete equipment would add \$200 to the price of the average light car. In the BRISCOE, B "4-24" you get: Electric Lighting and Starting System, Full Elliptic Springs, front and rear, Tilted Eye Saver Windshield, Trouble Light Socket in Dash, Gasoline Gauge, Ammeter, Automatic Switch with Key Lock, Speedometer, Electric Horn, Pump, Jack, Tools, Repair Kit—and other important accessories well worth noting carefully.

The price includes everything—no extras to buy.
BRISCOE, B "4-24" Touring Car or 4-Passenger Roadster, 105-inch Wheel Base, \$935 f.o.b. Brockville, Ont.

WRITE for Benjamin Briscoe's own story of the "Half Million Dollar Motor," or call at your local BRISCOE Garage and let the car "show" you.
