

The Western Guardian

—IT PAYS to buy in this Province.

—W. K. MCGOUGAN, Globe Fox Exchange, is Guardian Agent in Summerside.

—CONTRACT LET.—Mr. Joseph A. Gallant, Abrams Village, has been hauling firewood for the cheese factory. He took a contract for fifteen cords.—M.

—WILL PREACH.—Rev. Jas. MacDougal will preach on Sabbath, the 27th, at Summerside, at 10:30; Searletown at 3 and Cape Traverse at 7 and at Coleman on Wednesday and Thursday, the 1st and 2nd, at 7 p.m.

—PLEASANT OUTING.—A merry sleigh load from Abrams Village went to Capt. Egmont one evening last week and were hospitably received. They returned at a late hour, with deep feelings of gratitude towards their host, for his generous hospitality.—M.

—A FOX STORY.—Quite an excitement has prevailed in a certain section of Egmont Bay, notably in Urbanville and St. Gilberts, during last week, and up to the time of writing has not ceased. Cuningham Raynard is the object of all this as he wears it is stated a nice black fur coat. His pursuers were nearly all armed with guns, and besides were accompanied by several hounds. But nevertheless Mr. Fox has baffled all and so far has kept beyond their reach.—M.

—C. M. B. A.—The members of the Egmont Bay C. M. B. A. Branch held an enjoyable evening on Wednesday 16th in their hall. A short amusing programme was successfully carried out and various useful remarks were made in the interest of the Association. Some of the members for diversity sake and to amuse the hearers after making a few remarks, took occasion to narrate some comical incidents of their previous experience in their youth. A delicious treat was served to those present, after which the meeting dispersed. It may be well to mention by the way, that this branch of the C. M. B. A. is in the best of health and the members are all enthusiastic.—M.

—TO RAISE SCHOONER.—The schooner "Apati" Capt. Griffin, Halifax, which ran ashore of Egmont Bay last July is still stranded close to the cape. During a violent rain storm last fall, in which the tide had risen to a height not before experienced by the oldest inhabitants of this section, she was washed closer to land still, where she is now embedded in ice. All efforts to remove her last summer from her position proved unavailable, but it is understood that applications for tenders for a contract to take her away, have been made. The enterprise perhaps presents many difficulties now, as it did last summer, as so heavy a structure will perhaps call for heavier ice than what will be found on the way out to the open. The writer has no idea of the thickness of the ice nor the nature of the plan to lift her up, but merely wishes to bring to mind, what strain such a large construction cause on the ice.—M.

—TEMPERANCE MEETING.—A temperance meeting of the parish was held in the hall at Abrams Village on Friday evening, the object of the meeting being to raise funds for a holy cause. A successful auction sale was carried out. Mr. Phillip M. Arsenault being auctioneer. The object for sale consisted of farm products and other useful articles. A snug sum was realized.—M.

—WHIST PARTY.—The members of the Ladies' Auxillary of the A. O. H. were entertained at a whist party by their president, Mrs. D. A. McNeill, at her residence on Friday evening last. Whist was played until ten o'clock, after which refreshments were served. A vote of thanks was then tendered Mrs. McNeill for the very social evening which all had so thoroughly enjoyed. After singing "For She's a Jolly Good Fellow" and the National Anthem, this pleasant event was brought to a close.—M.

—WOMEN'S INSTITUTE MEETING.—The regular meeting of the Maple Leaf Institute was held February 17th at the home of Mrs. Harry Walker, New Annan. There were 29 members present. The subject of "Simple Dinners" was discussed, and many useful ideas were exchanged. It was decided at this meeting that the sum of \$10 be given by this institute to both the Traveler's Rest School, and Sherbrook School. The next meeting will be held on Thursday, March 16th, at 2 p.m. at the home of Miss Emmeline Marchbank, New Annan, when it was arranged to have the Supervisor visit the Institute and give a lecture on "The Cooking of Meats."

There is more Catarrh in this section of the country than all other diseases put together and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c. Hall's Family Pills for Constipation.

—ABRAMS VILLAGE.—Mr. Lewis Cassie, sawer, is now making his rounds in Abrams Village followed by a crowd of huddlers, and as a result the various wood-piles are in bits. Perhaps one of the many attractive features of this beautiful locality, is the snug pile of wood before each door as you go along, which promises a cozy fire for the coming winter.—To Mr. and Mrs. Maglaire Cassie, on Feb. 5th a baby girl. Congratulations.—Now that the farmers have mostly completed their hauling of firewood and lumber, preparations are being made by same for hauling mussel mud. Several diggers will be in operation at Grand River and no doubt these will be well patronized.—Mr. Joseph G. Arsenault, cheesemaker, went to Charlottetown on Monday to attend a convention in connection with the dairy business, he was accompanied to Summerside by Mrs. Arsenault.—The Egmont Bay singing choir had a good practice on Thursday evening the 17th.—Mr. Edhillbert Poirier was in Summerside on Saturday last.—The many friends of Mr. Girame G. Arsenault, will regret to learn that he is in Summerside hospital undergoing medical treatment.—The Misses Eveline Arsenault, Marguerette Leclair and Celine Gallant were in Summerside on Saturday.—Mr. Emmanuel J. Gallant, who for some time was aboard the States, returned home on Friday.—The powerful gasoline engine now in operation at Joseph L. Gallant's is now kept busy as evidenced by the quantity of lumber scattered around.—M.

PATRIOTIC FUND

SPECIAL EFFORT AUGMENTATION SCHEME. From a letter in the press recently it would seem as if there was a doubt as to whether the Dominion and Local Government Officials were included in those expected to subscribe to the Special Effort Augmentation Scheme of the Patriotic Fund.

In the resolution passed at the meeting held on the 18th inst., it is stated that merchants and other employers of labour, etc.

Mr. McEwen, the Superintendent of the Government Railway was present at the meeting and undertook to canvass the Railway employees. It was certainly expected that the heads of all Government Departments, both Dominion and Local, would do the same with those in their Departments under them.

It is to be hoped they still will do so. According to this Resolution if properly carried out no man can escape.

FIVE MORE YEARS OF WAR

Mme. de Thebes, the French philosopher, who on December 20, 1913, predicted that in the following year France would be drawn into war, has prophesied that the war would continue for five years and that peaceful calm would not be re-established for a dozen years after that.

A black real year upon a field of blazing gold" is the phrase used by her prophecy for 1916 for the World correspondent.

Mme. Thebes, whose annual prophecy has been delayed by her illness, was inclined to be gloomy about the war, although intimates, including many influential personages, had entreated her not to paint the future too blackly.

"Between us and the sun of victory," she said, "are great clouds of struggle and sacrifice. Even the warmth which the sun will eventually dispense will not end our efforts and suffering."

War to Continue

"We are under the direct domination of the cycle of Mars, which, beginning, in 1909, must extend over thirty-three years. The heavens are troubled, but I see that the stream of blood loosened in 1914, bids fair to continue on its way for a period of five years, and peaceful calm will not be re-established for more than a dozen years after that. So it is written concerning the influence of Mars."

Mme. Thebes became explicit regarding the fate of the Germans who, she said, will become slaves of the earth where they have been masters, and whose Kaiser's days are numbered.

The bloodiest Hohenzollern will die either by his own hand or by that of one of his countrymen," she declared.

The horoscope for America inspired madame's unbounded optimism, she said.

"America's brilliancy in the heavens is unshadowed for the present. The future will bring certain black mists arising from the menace of social upheavals due to the great fortunes acquired through the misfortunes of Europe. An excess of prosperity—that is the one fleck on the brightness of the perspective, as far as the United States is concerned."

The secrets was unable to say whether President Wilson would be re-elected, remarking that "the stars are dim and there are sable spots in the heavens." She could not identify these spots as either Bryan or Roosevelt.

The interest attached to Mme. de Thebes' prophecy is drawn largely from her prophecy of December, 1913 in which she foretold the outbreak of war.

YOUR WRIST WATCH

It is marvel of minute workmanship. It is one of the most wonderful things the human hand fashions. The pivot of the balance-wheel has a diameter measured by the two-hundredth part of an inch, and, more marvelous still, in order that the pivot may have free play, the jewel-hole into which it fits is exactly one five-thousandth part of an inch larger. The gauge which enables this to be done measures to the ten-thousandth part of an inch. But not only are the screws of a watch as minute as its bolts, but they have a thread just like the big screws you drive into the door, but the thread if the watch's screw has as many as 260 turns to the inch. What is called a pallet jewel in a watch weighs a pound when there are 150,000 of them, and of the roller jewel it would need 250,000. The largest round hair-spring stud in your watch is the four-hundredth of an inch in diameter and nine-hundredths of an inch in length.
