

The Magistrate's Story

WHAT HE OWES TO ZAM-BUK. Mr. C. E. Sanford, of Weston, Kings Co., N. S., a Justice of the Peace for the county and a deacon of the Baptist Church in Berwick, says: "I have used Zam-Buk for piles and found it a splendid remedy. It cured me."

CHILD WIVES IN SCOTLAND

Among the more noteworthy features of the Scottish vital statistics for the year ended December, 1910, issued Monday night, are the low-ness of the birth, marriage, death, and infantile mortality rates, all of which are below the average. The number of births, 124,059, give a rate of 26.19, the lowest since registration began in 1855. Marriages—30,902—were really 800 more than in 1909, but less than in all other years since 1896. The rate—6.52 per thousand—was the seventh lowest since 1888. Deaths numbered 72,268, and were less than those registered in all years since 1896. The death rate—15.26 per thousand—was the lowest yet recorded, the next lowest being 15.85 in 1909. Some interesting facts are brought out in the statistics. Among the bridegrooms of the year were three aged sixteen, 24 aged seventeen, 136 aged eighteen, an 1501 aged nineteen; the brides included four aged fifteen, 56 aged sixteen, 352 aged seventeen, 954 aged eighteen, and 1,719 aged nineteen. Of the marriages 2,180 were "irregular"—that is, not celebrated according to the rites of any of the churches.

ELECTRICITY SUPPLANTS L THE AUCTIONEER.

Electricity bids fair to crowd the auctioneer of his pedestal. An electrical system of auctioning eggs, tried in Holland with great success, is described, with illustration, in the December Popular Mechanics Magazine. Poultry farming is one of the great industries of Holland and within the last 10 years, through cooperative methods, the poultry raisers have greatly improved their breeds and become big producers. The eggs are sold at auction every Saturday in at least one of the centers of the chicken industry, and the noise and confusion of the egg market on sales days did not sit well with the Dutchman's love of peace and quiet. Therefore the invention of the electrical auctioneer.

Putnam's Corn Extractor Dispel's Corn Soreness

The real corn remedy, the one that always does its work, is Putnam's Corn Extractor, which makes corns and callouses go quickly and without the least bit of pain. Putnam's makes you forget you ever had a corn. Goes to the foot of the tormentor, absorbs its roots, removes the cause, gives lasting relief. Putnam's quickly, safely and surely rids your feet of corns or callouses whether just starting or of many years' growth. Price 25c. at all druggists.

SENSITIVENESS.

Only through great sensitiveness can we enter into great usefulness. Our sensitiveness has what is called our measure of power. Yet many a person bemoans his sensitiveness as though it were a special affliction. He finds that it exposes him to suffering which some other people escape. It causes him to debate or abstain from certain practices or engagements which other people enjoy with untroubled conscience. He wishes he were as free to "have a good time" as they; he rebels against the his will and conduct.

Yet what he mistakenly envies and longs for is callousness, paralysis. It moral sensitiveness that so polices is like the thoroughbred horse of electric responsiveness to the univ-ersal dullness of the bullock—a contrast so remarkably brought out in Kipling's story of the animals that are used in warfare and their varying behaviour under the stress of battle. The man of least value in the greatest needs of life is the man of least capacity for feeling and suffering.

HUMOR OF THE HOUR.

"What is a 'moral victory,' pa?" "Any fight you win where the loser gets all the money." Judge. "What's new in the news?" "Terrific scandal at Oldport. It has leaked out that Mrs. Wallaby-Wombat, the society leader, exacts a percentage of her servants' tips."—Louisville Courier-Journal. Jones—I want to deposit the sum of ten dollars. Receiving Teller (who knows him)—What! Have you sold your car?

Puck. The small daughter of a practicing physician, who evidently has an eye to business, told her mother, in no uncertain terms, that she must call at once on their new neighbor. "And why must I call on her?" asked the mother, amused at the child's activeness. "Well, in the first place," exclaimed the little lady, "they've got three of the scannest kids, and the mother herself don't look very strong."—Kansas City Star.

TRIUMPH OF SURGERY.

According to Les Nouvelles at least one man is peacefully existing with only half a brain, the other moiety having been removed by a surgical operation. The man in question is a Swedish ex-soldier, who received a bullet in the head as the result of carelessness during manoeuvres. The surgeons decided to trepan him, and to remove the injured portion of the brain. Five weeks later he reported for duty again, but it was noticed that he had lost some of his mental faculties. His memory was gone so far as letters and fig-

Could Not Sleep Well For Four Years. HEART AND NERVES WERE BAD.

To the thousands of people who toss on a sleepless pillow night after night, or who pace the bedroom floor with nerves unhealed, heart action wrong, and to whose eye sleep will not come, Milburn's Heart and Nerve Pills offer the blessing of sound, refreshing slumber.

They restore the equilibrium of the deranged nerve centres and correct the wrong action of the heart.

Mrs. Wm. Douglas, Thessalon, Ont., writes: "I am going to send you my testimonial for what your Milburn's Heart and Nerve Pills did for me. For four years I could not sleep well at night, as my heart and nerves were so bad. I tried all the doctors here, but none of them helped me. I read of your Heart and Nerve Pills, and tried only a few boxes, and I can certainly say they did me a great amount of good. I can now sleep as well as ever, and can advise anyone who suffers from heart trouble to try them."

Milburn's Heart and Nerve Pills are 50 cents a box; 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

ures were concerned, and he could no longer read or write. The doctors determined to re-educate him, and in five months he was again able to read and write and reckon. The hero of this adventure now leads a peaceful existence, receiving, in addition to his military pension, a small income from a learned society, which is granted on condition of his figuring from time to time as the subject of various scientific experiments.

THE BUSINESS ASPECT.

He had a bright face and a basketful of mushrooms, and the lady out for an early morning walk among the dews so took to the youngster that she decided to give him the glad word.

"Have you had any good luck, little boy?" she inquired, in her best and brightest accents.

"Fair, ma'am," answered the youth, showing her his basket. She took one out, examined it, and uttered a little cry.

"But those are tradestools!" she exclaimed. "They're poison—deadly poison."

"Oh, them baan't for eatin', ma'am," winked the youngster knowingly, "them be' for sale!"

TOUCHING MEMORIES.

Senator Clapp, at a dinner in Washington, chuckled over the appearance before his committee of Col. Roosevelt.

"The Colonel," he said, "certainly got back at everybody. He reminded me of the Irishman."

"A friend of mine, travelling in Ire-

land, stopped for a drink of milk at a white cottage with a thatched roof, and as he sipped his refreshment, he noticed on a centre table, under a glass dome, a brick with a faded rose upon the top of it. "Why do you cherish in this way," my friend said to his host, "that common brick and that dead rose?" "Shure, sir," was the reply, "there's certain memories attachin' to them. Do ye see this big dent in my head? Well it was made by that brick."

LETTER TO THE FARMER

The business of farming is in the most critical period of its development.

Both the working farmer and the investor in farm lands and securities are seriously studying how to earn farm products into net profits.

There are thousands of farmers in Prince Edward Island alone.

Is it not hard to believe that only one of every five read a farm paper at all?

Only one in five! The other four need the instructions given by farm papers.

The Guardian management has completed arrangements with the publishers of The Canadian Countryman, so that this excellent weekly magazine will be mailed FREE for one year to any subscriber of the Guardian who

Are You Interested in Making Money? One Hundred Dollars Invested in The Chas Dalton Silver Black Fox Co. WILL PAY YOU More Interest Than Fifteen Hundred Dollars in A Savings Bank

Millions of Dollars Have Been Made

WE HAVE UNCOVERED the most marvellous money making business in Canada today.

Up to the present time the general public have been "frozen out" of this profitable industry because interests in the Fox business were held by close corporations of moneyed men who considered it too good a thing to let a man with only \$100 in on.

Now the Chas Dalton Silver Black Fox Co. opens up a field for investment that the man with a limited amount of capital cannot afford to overlook.

Practically a guarantee of 40 p. c. on your investment for the first year—and a probability of 80 p. c.

While we believe that the Silver Black Fox industry is only in its infancy and that there are still large amounts of money to be made, still it is our firm conviction that in order to obtain the best results you must have an interest in Dalton Stock, which has been proven to be the best in the world.

The Dalton Ranch holds the World's Record for the price of pelts, and the sale of six pairs of young Foxes to a Russian syndicate for \$100,000 has set a new price on foxes for breeding purposes.

There Will be Many Men Dissatisfied.

Many men will wish that they had taken advantage of this opportunity to buy this stock at \$100 par value.

We have advised our most intimate friends to buy to their "limit" as it will be absolutely impossible to buy this stock from or through us after Dec 20th for less than \$125 per share.

As the stock is being subscribed for freely both here and abroad and the Island allotment will positively close on Dec. 20th, we would advise intending investors to act at once.

All stock subscribed for by P. E. Island investors to Dec. 20th will be allotted but we cannot make any promise on applications received after that date.

Parties taking advantage of the accompanying application form, should fill it out and send to p. c. of the amount subscribed by money order or registered letter, to W. B. Prowse, Charlottetown, who will send receipt for same.

And Now You Have Your Opportunity

To get money and get it honestly is a most praiseworthy business.

Let no stone with a dollar under it remain unturned. You may have the best of plans, and possess the most excellent ability—yet the opportunity in which, or through which, you are to launch your plans, and display your ability may arrive and you fail to recognize it, or you may launch your craft and seek your fortune in the wrong stream and find yourself on the "breakers."

When you understand that there is practically a guarantee of 40 p. c. on your investment the first year and that the Ranch is insured for \$250,000 till July 1st 1913 and compare this proposition in every way with any other on the market, you must come to the conclusion that the Dalton Ranch is the only one in which to invest your money.

Applications for stock may be made to the undersigned Provisional Directors or any branch of the Canadian Bank of Commerce on P. E. Island.

We the undersigned hereby subscribe for and agree with Waldren B. Prowse of Charlottetown, agent for and representing a syndicate who have taken over the Silver Black Fox Ranching Business of Chas. Dalton of Tignish, to take the number of shares at \$100 a share, as set opposite our respective signatures hereto, and to pay 10 per cent of said stock down, and the balance on or before 1st January 1st A. D. 1913. Should said shares not be allotted the money paid on them to be refunded in full.

Name..... Address..... No. of Shares..... Amount Paid.....
