

What young Dr. Fry did in 1728 benefits you in 1928

It was the ardent advocacy of the principles of purity and quality in the manufacture of Cocoa, by the successful young scientist Dr. Joseph Fry in 1728 that enabled him to find the great House of Fry—and with it the vast cocoa and chocolate industry as we have it today.

200 years of consistent and carefululous care in making FRY'S Cocoa and Chocolate have given them world wide pre-eminence.

Fry's
Purity - Flavour

As you sip your next cup of FRY'S Cocoa remember you are drinking not only one of the most famous beverages in the world but one which gives you the greatest value for your money in nourishment and energizing constituents.

What makes a Hen worth more Money?

Eggs, of course! And what can you do to get your hens to lay more eggs?
Here's the answer. Feed Ful-O-Pep Egg Mash. Your hens will lay more eggs. Bigger profits for you.
Ful-O-Pep Egg Mash is a scientific balance of many ingredients with an oatmeal base—so proportioned to give hens the correct amount of protein and carbohydrates. Bone meal and calcium carbonate provide the necessary minerals. In addition Ful-O-Pep Egg Mash contains Cod Liver Meal to make all ingredients do better work, and replace missing sunlight during winter months. Ful-O-Pep Egg Mash restores to the hen those elements she puts into eggs—thus keeping her in condition for heavy production.
