

The New Over-Coats are here

Its as natural for men to buy their new winter overcoats at our store as it is for the sun to shine. We have set the Standard, for the clothing trade in this Province, in past years. Men now naturally look to us for what is new, what is fashionable. They all agree that the clothing trade has been advanced to a high degree by our efforts, from year to year, to improve in style, fit and finish.

The new college coats for men and boys in the Yale—Harvard, and all the latest makes, are now to be seen in our large clothing room on the second floor.

Our purchases this season have been larger than ever and we are proud of our showing of new overcoats. We know you will be also.

Prices in our coats run from \$6.00 to \$20.00

AN INQUIRY

Sir:—Will you please tell the public if a person must have a licence from the Government for the privilege of gathering a few oysters, in season for himself, and not for sale or export. The Guardian learns, on enquiry, that it is not necessary, in the case mentioned above to procure a licence.—News Ed.

LIPTON SNUBBED BY YACHT CLUB

LONDON, Oct 11.—The blackballing of Sir Thomas Lipton by the Royal Thames Yacht Club, the most serious setback to his social career that he has yet suffered, has just been announced. The rejection of the jolly Irish baronet and yachtsman by the Royal Thames Yacht club is a worse blow than when he was blackballed by the Royal Yacht Squadron club, even though King Edward himself put up his name for election in the latter club. The Royal Yacht Squadron club is the most exclusive in the world, and so particular are many of its members concerning the men with whom they associate that dozens of persons of unquestioned social reputation have been turned down by it. It has happened so often that it is no longer considered even matter for comment.

Royal Thames Yacht club, however, is distinctly more fastidious. It is extremely seldom that any man of position is denied admission, and its rejection is a decided snub. Lipton's rejection is further proof of his unpopularity with the British aristocracy. The complaint against him is that he is overconscious of his millions, and cannot, as a parvenu, be tolerated among "gentlemen." The truth is that the aristocrats resent Lipton's rise. While he remained a mere millionaire there was no objection to him, but as soon as the title was conferred upon him "upper circles" jumped to the conclusion that he was trying to force himself onto the coterie of the socially elect, and he began to be disliked as an "upstart."

Lipton only laughs at his rejection, but his friends declare that he feels the snub most keenly.

ASTRONOMERS CAN SETTLE COOK'S CLAIMS

SALEM, Oct 11.—Although no university was ever called upon to settle such a question, I expect that Dr Cook's data will be turned over to the astronomers for examination," said Dr Hector F. F. Jungersen of the University of Copenhagen, who visited the Peabody museum today as a guest of Prof Edward S. Morse. Dr Jungersen was a delegate to the inauguration of President Lowell, and received the degree of doctor of science on that occasion on Wednesday, in recognition of his valuable work in zoology.

"I left Copenhagen on Aug 8, nearly a month before the news was received of the discovery of the North Pole by Dr Cook," said Dr Jungersen, "so that I cannot say exactly what methods will be employed in examining his claims. I should suppose, however, that the astronomers of our university, and I cannot recall their names at this time, will be able to tell just where Dr Cook was on certain dates and where he had been."

"It is a unique position for any institution or body of scientists, and it is probable that the leaders of the university will consider the matter very carefully before delegating any of the professors to take up the examination." When the hope was expressed by one of the newspaper men that Dr Cook had found the pole, Dr Jungersen said with considerable emphasis, "So do I."

DEATH OF SIR HENRI TASCHEREAU.

MONTREAL, Oct 12.—Sir Henri Taschereau, LL. D., Chief Justice of the Court of King's Bench, of this Province, died rather suddenly at the residence of his daughter, near Paris, France. Sir Henri went last May to a watering place and toured England and France. (He was born in Quebec on October 6th, 1841, and was the son of the late Hon Jean Thomas Taschereau, Judge of the Court of King's Bench, Lower Canada, and was a nephew of the late Cardinal Taschereau. He was educated in Quebec Seminary and Laval University, being called to the Bar in 1863. He was appointed to the Bench of the Superior Court in 1887. He was Alderman in the City Council of Quebec when he represented

ed the city on the North Shore Railway Board 1870 to 1874. He occupied a seat in the Federal House, on the Liberal side, from 1872 to 1878. He was married in 1864 to Marie Louise Severine Pacaud, who died in 1883. He leaves one son and five daughters, one of whom, Henrietta, married Hohn Joseph Pope, Under Secretary of State for Canada. Sir Henry was created a Knight in 1908.

HUDSON-FULTON GROUPS STILL ON EXHIBITION.

The Eden Musee of New York City played an important part in the Hudson-Fulton celebration. Many new figures and groups were placed on exhibition illustrating the great progress made since the discovery of the Hudson River. A reproduction of the Half-Moon with Hudson and his Sailors occupied the centre of the large Central Hall. In addition, Fulton with the model of his steamboat, Edison, the Wright Brothers, Count Zeppelin and other great inventors were also on exhibition. Many thousands of visitors to the city were at the Musee during the week of the celebration. On account of the success of its display the management has decided to continue the celebration for several weeks. Visitors, therefore, will still have an opportunity to see a panoramic view of great improvements made since the time of Hudson and of Fulton. Many other interesting groups have been recently placed on exhibition and the interior of the Musee will continue its holiday garb. In the Winter Garden, new moving pictures will be shown hourly afternoon and evening. Among these new pictures will be aeroplane flights, balloon races, reception to Dr Cook and many other comic and mysterious pictures. Each week a large collection of the best films taken throughout the world will be placed on exhibition at the Musee and visitors can see as many different pictures as they desire. Professor Kapossy and his Royal Blue Hungarian orchestra will offer afternoon and evening concerts with programs replete with classical selections. The Phonograph continues to present speaking and singing pictures.

NOTED AND PROMINENT CONSERVATIVE DEAD.

HALIFAX, Oct. 12.—Chas Wilcox, M. P. P., for Hants and Leader of the Opposition in the Local Legislature died at the Payzant Memorial Hospital, Windsor last night.

TAME RACING AT LEXINGTON.

LXINGTON, Oct. 11.—Probably the tamest of all the twenty-one races in the history of the Transylvania Stake of \$5,000 was that trotted Thursday. The favorite, Penisa Maid, driven by her owner, M. D. Shutt, of Rock Rapids, Iowa, won in straight heats. It was virtually no contest after the first heat, in which Bob Douglas challenged in the stretch stoutly enough to make her step in 2:04 1/4, a new record for the race. Inner Guard, in which the field players had some confidence, was unsteady and broke badly in two heats. The racing futurity was won with ease in straight heats by Maggie Winder. The final heat was made in the remarkably fast time of 2:06 1/4. The 2:20 trot was won easily in straight heats by the favorite, Melva J.

CHINAMEN PAY PENALTY.

BOSTON, Oct. 12.—Three Chinamen, Wong Sin, Wong How and Leon Sing were electrocuted in the State Prison between midnight and one o'clock this morning for participating in the Tong war in August, 1907.

SHIPBUILDING PLANT FOR CANAD

OTTAWA, Oct. 12.—A representative of Harland & Wolff, shipbuilders, of Belfast, announces that this important shipbuilding firm is prepared to design and lay out a plant in Canada, and is now considering the question of plans and location.

DINNER BELL MUSIC.

The music of the dinner-bell is always welcome to the healthy man or woman—alike to the working man or woman who eats a plain meal at noonday, or to people of easier lives who enjoy a rich dinner in the evening. But to the Dyspeptic there is no music in the dinner-bell—it calls him to a trial for which he knows he is unfit. No one can enjoy a meal, or get nourishment and strength from it, knowing that pain and distress will follow after. The true course, even for healthy people, is to help the digestive system, from time to time, with that excellent tonic medicine, Mother Siegel's Syrup. Mr. Michael Bureau, of Stanham, Quebec County, P. Q., writes: "For some time I suffered from indigestion. I had headaches which made life a misery. I could not sleep at night and after eating I felt a sense of fullness and pains, with heart palpitation. I took no medicine for this illness except Mother Siegel's Syrup and was cured when I had used one bottle of it."

The Popular Ulster for Particular People

If you pride yourself in wearing something extraordinarily good as well as we do in showing you clothes head and shoulders over any to be seen in this city—you can't help appreciating our showing of "College Ulsters." They include every popular pattern and color we could find—not a cheap looking pattern in the lot. They are not common tailored ulsters but they are ulsters—the product of expert hands, designed by master minds. You are simply in the dark as to their excellence unless you see the showing—no description can do them justice—it takes the skilled eye to detect their indescribably superior qualities. We ask you to kindly call—ask to see them—you'll be courteously shown just what you want.
