PEOPLE USED TO SAY TO THE

DENTIST

"I WANT A SET OF TEETH."

And no thought was given to the arrangement, contour, etc. Now it is different. The comfort, health and appearance depend upon dental skill in constructing and properly fitting an artful substitute for the natural teeth. For the choice of teeth to produce the most natural expression, must be taken into account the characteristics of the patient.

To determine the most desirable material for the base or plate in each case the Dentist's skill is called upon to advise. In fitting and constructing the highest mechanical art only can effect the most thorough efficiency and comfort in all the offices that teeth must perform. Our experience in this work. Our superior mechanical facilities. The fact of this branch of our business being in charge of an expert justify the assertion that we can replace the natural teeth as nearly as it is possible for skill to accomplish. All who contemplate wearing artificial plates desire to know something of their manufacture. We are always glad to talk about our work and show samples of many of our interesting cases.

We make eleven different kinds of plates.

We make "Teeth without plates."

You can call in the morning and get your teeth same day.

We make a complete set of artificial teeth from \$5.50 and upwards.

We extract teeth free of charge when new teeth are ordered.

We guarantee satisfaction.

Tribute is Startling.

(Montreal Gazette.)
In the Church of the Messiah yesterday morning the Rev. Dr. Minot J. Savage preached a sermon on Some Lessons from the Life of Abraham Lincoln, in which he made statements which startled many of his hearers.
"Leaving on one side the central character, the Nazarene, there is no man mentioned in the Bible, from the first verse of Genesis to the last of Revelation, who for one moment can be compared with Lincoln, either for greatness or for goodness," said Dr. Savage. "And since God is ultimately the author of all Scripture and the Creator of all grand characters, may we not find a sermon in some of His higher and finer, because later, creations?"
"Was Lincoln a religious man? If we are to judge by the standards asserted and reasserted every day in the year by the Vatican, Lincoln was not a Christian, or a religious man and today he is tasting the cup of torment pressed to the lips of the lost."

"Judged by the standards of the Anglican church, and the Episcopal church in this country, measured by the standard of the Presbyterian confession of faith, Lincoln is lost. He never complied with one condition of the Presbyterian church for being saved. Judged by the standards of the great Methodist churches of England and America, judged by the standards of the Congregational churches, as affirmed in their great national council at Plymouth a few years ago, Lincoln is lost."

"How I envy an egotist!"
"Why?"
"He always has an air of being such good company for himself."

Bread Upon the Waters.

Most people heard of the Waterbury watches and their extraordinary vogue. This was largely accomplished by advertising them widely and well. Col. George Merritt, of New York, who largely built up the business, declares that though the company spent many thousands of dollars, yet, "I do not hesitate to say that for every dollar we spent we got twenty back. Business would flow in from the most unexpected quarters, and where we took the time to investigate we could always trace it direct to some of our advertising." He gives a very interesting description of one case in particular: "In one case I did some advertising in London, which attracted the attention of a representative of one of the largest jewellery firms in Japan, who was then in England, and as a result we received one order for 100,000 watches. Not only that, but 'Waterburys' were so much in vogue then, and the Japs were so anxious for them, that a check for 150,000 dollars accompanied the order."

Leyds Can See the Pope.

LONDON, Feb. 19.—A special despatch from Brussels says that Dr. Leyds refuses to talk to press representatives regarding affairs in South Africa, further than to say that he does not fear an invasion of the Free State, the burghers in that Republic being armed and prepared to resist the British. Dr. Leyds has telegraphed to the Pope asking an audience of His Holiness, which will be accorded. It is certain, however, that he will not be received by King Humbert.

A RHEUMATIC CRIPPLE'S RELEASE!

A "jury" of doctors, specialists and medicine vendors decreed that James Smith, of Grimsby, Ont., should spend the rest of his days in agonizing chains of rheumatism

But common sense and modern medical science produced rebuttal evidence and procured his release.

The Great South American Rheumatic Cure turned the tables, relieved the pain in a few hours and healed, cured and freed.

To the man or woman suffering the agonies of pain produced by Rheumatism, or whatever form, any essay on its causes, the symptoms, and its action, are idle; the one desirable objective point with the sufferer is the shortest cut to relief from the pain and the surest cure from the distressing, wracking, burdensome ailment.

No medicine of modern times has proved half so effective in giving almost instant relief, or has made as many cures bordering on the miraculous, as the great South American Rheumatic Cure. So often has it proved its efficacy in cases that were placed on the "no cure" list by doctors and specialists, that many of the most eminent lights in the profession have been frank enough to make confession that South American Rheumatic Cure, without discussing its formula at all, has proved the most efficacious of remedies, and to back up their convictions, are prescribing it daily in practice; and doctors have

always been the slowest to convince of the merits of any proprietary remedy.

South American Rheumatic Cure is powerful, potent, but harmless. It is a specific for all phases of Rheumatic Ailments; it goes directly to the seat of the troubles, dissolves and eradicates from the system the foreign matter which cause the excruciating pains which stiffen and swell the joints. It acts quickly and surely and as proof of it there is ample testimony to show that in cases of many years' standing where the patient was almost helpless, bed-ridden and so acute was the suffering that it was necessary to turn the victim in sheets, because of was tortured to have even the gentlest touch of the hand on the body. In twelve hours after the first dose was taken all pain was gone, and inside of three days recovery was so marked that the patient walked with-

out assistance. Many have had a similar experience and have tested it.

James Smith, a dairyman of Grimsby, Ont., was a great sufferer from sciatica and rheumatism. He was almost helpless; could not walk without crutches. He had tried any number of medicines, and had been treated by almost innumerable doctors without any permanent help. He began using South American Rheumatic Cure. In a few hours the pain left him; in a few days he threw away the crutches and has never had a touch of the trouble since. You are at liberty to write him about his own cure. No need for an hour's suffering. South American Rheumatic Cure can do as much for you as it has done for thousands.

South American Nerve is a wonderful tonic for the stomach. It cures all disorders of the digestive organs, repairs exhausted nerve-power, puts on flesh, and is a general health builder.

South American Kidney Cure is a liquid kidney specific; it cures Diabetes, Bright's Disease, Inflammation of the Bladder and all disorders arising from imperfect working of the kidneys. It gives relief in six hours.
