### THAT DEPRESSED FEELING IS LARGELY LIVER

Wake Up Your Liver Bile... Without Calomel, and Feel Like a Million Dollars.

Nothing can put your system out of kilter more quickly than your liver. All it has to do is stop pouring its daily two pounds of liquid bile into your bowels—and life certainly gets grey. That sluggish flow of bile slows up digestion and eliminates and makes you "feel punk". Your stomach acts up—gas, bloating, sourness, pain. Your breath is bad and the taste in your mouth is nasty. Your head aches. Bile is sticky. All of course, because your system is full of poisons.

These bowel movers like salts, oil, mineral water, roughage, laxative candy or chewing gum are not good enough to correct this condition entirely. You're livery and you must wake up your liver bile to be happy again.

Avoid calomel (mercury) again. The thing for you is a box of Carter's Little Liver Pills. They never upset you because they're purely vegetable, gentle and safe; but how they do change your view on life!

Don't waste your money on substitutes. Be definite. Ask for Carter's by name—and get them! Look for the name, Carter's, on the red label. 25c at all druggists.
