The St. John Sun says: It is more than probable that Madame Yulisse Harrison will make St. John her home for the future. For the past two years Madame Harrison has been trying to find some place which agrees with her, in which her family can make their home. St. John climate comes next to Vancouver in Madame Harrison's estimation as regards the effect on her throat. Grimsby, her present home, does not and never has agreed with her. Mrs Harrison has been offered the position of leading soprano at one of the churches, and she may accept it. If so her husband and her son Charlie will join her here in December.
