STREET CLEANING—The sight of the street sweeper, as it traversed the principal streets yesterday afternoon gladdened the eye of many citizens. During the last two weeks while the snow and ice were melting the streets were in a very unsanitary condition, but until the last day or two little could be done to remedy the situation. A considerable quantity of snow still lies close to the curb, but in the main the central section of the pavements are clear once more.

FIFTY YEARS CONTINUOUSLY IN THE SEED BUSINESS—Carter & Co., Limited (established in the Spring of 1880) began selling Farm and Garden Seeds, a small beginning which has since grown to be the largest in the Maritime Provinces. During all these years this firm has been buying and selling Farm and Garden Seeds to the people of Prince Edward Island as well as to others almost all over Canada, and also by mail orders to the United States. As the business has increased from year to year the slogan used by the firm, "Carter's Seeds Grow." A neat edition of their annual Seed Catalogue is now being mailed to the Farmers and Gardeners of this Province, and once again ask for a continuance of the liberal patronage extended in the years that have passed. 2418-3-14-21.

Miss Mammie Malone acted as bridesmaid, and wore a rose biega cation silk gown, with a wine marvella coat with hat to match, while the groom was ably supported by Mr. Albert Kearney, also an employee of the Island Telephone Company. After a delicious wedding breakfast, which was served at the home of the groom, the happy young couple left on the early train, on a short honeymoon trip. Previous to her wedding, the bride was showered twice, once at the home of Mrs. John Caswell, at Southport, and again at the future home of the bride, in Charlottetown. The gifts, which were numerous and expensive, consisting of cut glass, silver, linen, money, etc., showed the popularity of the young couple.

PLAN FOR PLAY OPENS THIS MORNING—The plan for St. Patrick's Play "Nora" opens at the Prince Edward Theatre this morning (Friday) at 9.30 A. M.

SPRING?—Marbles, caterpillars, skipping ropes—spring has come. At least these are three very good omens foreshadowing that much longed for season. Flooded cellars, as well as the melting snow and ice bear witness of the work of "Old Sol" in his northward journey. But perhaps it is not well to become too optimistic—March came in like a lamb.

STEEL WORK PROGRESSING—Three eight ton girders have been hoisted into position in the frame work of the new Canadian National Hotel. The work of steel erection has progressed smoothly and without a hitch so far. Girders are now being put in place on the second story. Riveting will probably not begin before Saturday. Crowds gather each afternoon to watch the derrick hoist the pieces of steel into place, and to see the workers as they move through the maze of framework with sure-footed swiftness.

ISLANDER, SECRETARY-GENERAL—Mr. John E. Andrew, Charlottetown Royalist, student at King's College, Halifax, held the position of Secretary-General of the Intercollegiate Model League of Nations held at Halifax recently. The very efficient arrangements which made the Model League a great success were largely the work of Mr. Andrew. This Assembly is a replica of the Geneva League and delegates of the different colleges in the Maritimes represent the governments of the various nations in the League. Mr. W. S. MacNutt of Charlottetown, student at King's College, represented Italy and put forward his country's views on disarmament. Mr. Andrew, who is a brilliant student, is a son of Mr. and Mrs. John E. Andrew, Charlottetown.

PYTHIAN SISTERS—More than 100 members of Jubilee Temple, Pythian Sisters, New Glasgow, N. S., were in attendance at their regular lodge meeting on Monday evening when Miss Jean White, of Charlottetown, Grand Chief of the Pythian Sisters' Lodge in the Maritime Provinces, paid an official visit. She addressed the order chiefly on matters of interest to the Lodge, and gave an outline of the work being accomplished in other lodges which she has visited. Miss White was accompanied by Mrs. (Major) John A. MacKenzie, also of Charlottetown, who also spoke interestingly to the members along similar lines. After the closing of the meeting a banquet was given in honor of the guests, on the third floor of the building. The tables were nicely decorated, the color scheme being pink and white, and an appetizing supper was served. Halifax Chronicle.

ABNEY AND VICINITY

The weather at present has every appearance of spring. The snow has been retreating very rapidly these past weeks and the Gulf is reported clear of ice.

Potatoes are becoming a subject of discussion, people are wondering what the price will be next fall, and rightly so for when farmers invest heavily in fertilizers and do a vast amount of labor they are entitled to a profitable price for their potatoes. But just when the poor farmer is investing and planning, down goes the price. But then we must take into consideration the consumer. The farmers cannot expect to have it all their own way and so we might add here an old proverb: It's a poor wind that blows nobody good.

New industries are coming to the front and old ones are falling out. There was once a cheese factory running in full swing in this vicinity where patrons could buy cheese for one third the cost at present in the stores. But unfortunately this plant which was a great boon to the farmers, was allowed to go down.

White invited the members to her house for the next meeting, roll call to be answered with "Hints on House-cleaning." A dainty luncheon was served by the hostess. The following program was enjoyed: Song "The Heroes of the Vestris"; Junior Red Cross; Piano solos "Tip Toe Through the Tulips"; and "You're Always in my Arms." MARKET REVIEW

The annual report of the Canadian Bronze Company Limited, and subsidiary companies covering the operations for the year ending December 31, 1929, shows earnings applicable to the common stock of \$408,526 or \$5.10 per share, against \$419,942, or \$5.25 a share, for the previous year on the 80,000 shares of common stock outstanding over these periods.

The ability of the company to maintain its earning position in spite of the small wheat crop is satisfactory evidence, in our opinion, of three things namely good management, greater diversification of the company's activities through obtaining a larger proportion of industrial business and the gradual diversification of general business in Canada.

Further expansion of Dominion Tar & Chemical Company's operations is seen in its acquisition of virtually all available shares of Alberta Wood Preserving Company, Limited. A subsidiary of Dominion Tar & Chemical, Canada Creosoting Company, Limited holds 45 percent of the issued common shares of Alberta Wood Preserving Company.

Recent visitors to Souris included Mr. and Mrs. Felix Peters, of Rollo Bay, Mr. Frank MacDonald, Little Pond, Mr. John Dolren, New Acadia.
