Well Known

(Continued from Page 1)

Mr. Coyle was born at Charlottetown, a son of Mrs. Stephen Coyle, who resides at the Sacred Heart Home and who is very ill, and the late Mr. Coyle. He served in the Royal Flying Corps in the First World War and later lived for a few years in Summerside where he was in charge of display and window decorating for R.T. Holman Ltd. He then moved to the United States and lived in Lynn, Mass. and Swampscott, Mass. and did display work for a chain of Boston drug stores. Mr. Coyle was especially gifted in this work and his handwork may be seen to advantage in the decorative schemes of his restaurants. After living there for about twenty-two years, he returned to Summerside five years ago and entered the restaurant business.

He was a member of the Canadian Legion, the Knights of Columbus and the Rotary Club. Always interested in matters pertaining to the betterment of the community, he was particularly fitted for that type of work because he had been drum major of the Camp Parker Highlanders of the Veterans of Foreign Wars in Lynn.

He is survived by his wife, the former Nora MacIntyre of Summerside, two sons, Allison at home and Charles in Boston and one daughter, Estie, at home; also a sister, Mrs. Eneas Blanchard of Woburn, Mass.

The body will rest at the home of Mr. and Mrs. W. A. Gaudet, 125 Murray Street, Summerside, until the time of the funeral which had not been decided last evening.

by Patrick Mullen of Midgill, Mr. Milton, Rogerston of Panningbrook named. No other nominations were made and Mr. Holman declared Mr. Rogerston to be the candidate for Assembly.

Both nominees then addressed the meeting briefly. They spoke particularly, as did subsequent speakers, on the perennial neglect which Kings County and particularly the Second District had suffered under twelve years of Liberal Government. They assured the meeting, however, that with the full support of all present the existing conditions would be remedied.

Highlight of the Convention was the active part which the young returned men of the District took in the meeting. Both Mr. Joseph O'Hanley of St. Peter's and Mr. Stephen Larkin of Fortune Road spoke on their behalf.

Other speakers included Messrs. Edward Jay of Peakes, Joseph Simons, Greenview, J. A. Gillies, Charlottetown, Provincial Vice President, and C. R. McQuaid, Charlottetown, Provincial Secretary.

Mr. Burge's nomination caused a vacancy in the Provincial Executive, and Mr. Holman, explaining the situation, called for nominations to replace Mr. Burge and announced that Gordon Douglas that Mr. Edward Jay of Peakes be named to succeed Mr. Burge on the executive. The motion carried unanimously.

Hon. Dr. W. J. MacMillan, Provincial leader of the party was unavoidably absent from the Province and unable to attend the convention.

light dressed with long streams of pennants and bunting strung from the signal mast. Later the guns of the citadel boomed out the traditional 21-rund Dominion Day salute.

The arrival of the squadron marked the beginning of the busiest period of naval activity since the war, for on Thursday the United States cruiser, Rochester, and escort will arrive to join the social end of the program. Sir William was careful to point out that the United States units would not take part in the joint Commonwealth exercises.

Till arm and wearing six rows of decorations, Sir William is the famous sailor who organized and carried out the evacuation from Dunkirk, who was in command of the Republic when she was sunk by the Japanese and who planned the Mulberry and Pluto operations which provided Allied armies with the Normandy beaches.

The commander of the Sheffield is another famous Briton. He is Capt. G. B. Hawkes and he admits with a twinkle in his eye that his only claim to fame is that he is a descendant of the famous Guy who set out to blow up the House of Parliament.

But the youthful-looking Capt. Hawkes is the commander of the famous 8th Submarine Flotilla, responsible for the secret landing of Gen. Mark Clark in North Africa last year. He was also the way for invasion. Capt. Hawkes' flotilla was also responsible for the evacuation of Gen. Giraud from the south of France.

X-Ray Unit Is Returning To Mt. Stewart

The mobile X-ray unit will be voluntary first Stewart Wednesday and Thursday after an absence of 23 months. It was at Mount Stewart that the chest X-ray survey started on August 1, 1945 and in the interval about 50,000 persons have been X-rayed.

During this coming summer the unit will visit centres from Murray Harbour to Tignish, and scheduled after the published weekly. In this way the unit will be brought within reach of every person on the island except residents of Charlottetown and Summerside. Plans for these centres will be completed and announced later.

A few districts in King's County which were to have been visited this spring were held out due to rain and poor roads. It is hoped that these districts can be visited by the Mobile Unit this fall.

Anglican Young People Meeting

ROTHSAY, N.B., July 1 — (CP) — Definite need for evangelism in Canada was noted today, at the Dominion conference of the Anglican Young People's Association, by Rev. Dr. G. B. Snell, rector of St. Michael's and All Angels Church, Toronto. The ninth biennial conference of the Association opened yesterday and will continue all week.

Dr. Snell said there was a tremendous gulf between the Church and people because to many people the Church was irrelevant. The Christian religion was breaking down in Church attendance and in morals.

During the plenary session the report of the general secretary was read by Miss Freda Alderman, Toronto. It was noted that six Dominion Council meetings had been held since the last conference at Kenora, Ont., in March 1945. There are 630 active branches with a membership of 15,000. At present seven diocesan councils and 25 local councils are in operation.

France Averts

Bevin spoke up in similar vein. Bids, then made by the new French proposals to establish an international co-operation committee, with six technical sub-committees, to draft a report on European resources and needs before Sept. 1.

This report, which would be the basis for aid under the Marshall plan, would be submitted "for observations" to the United Nations Economic Commission for Europe at Geneva. This provision seemed designed to allay Russian suspicions by giving the U.N. general supervision over the operation of the Marshall plan.

Growers Advised Of Cucumber Peet

A representative of Matthews-Wells Company Ltd., states that reports have been coming in from several centres, chiefly York, Cherry Valley, Montague, Murray Harbour and Midgill of injured young cucumber seedlings.

Successful Sports Day Is Held By Parkdale School

Saturday afternoon, through the co-operation of the teachers of Parkdale School and the ladies of the Women's Institute, a very successful program of athletic sports was participated in by the pupils of Parkdale School. Judges were Mrs. Livingstone, Mrs. Ferguson, Mrs. MacEachern.

Prizes for the occasion were donated by the W. I. and a box of chocolate bars was donated by Mr. Beer. After the sports a bounteous supper was served on the lawn and a treat of ice cream was provided for the ladies of the W. I.

The teachers wish to thank all those who so kindly assisted them in making the afternoon so enjoyable.

Strachey Considers Wheat Agreement Of Great Benefit

By James McCook LONDON, July 1 — (CP) — Food Minister Strachey said in a House of Commons food debate today that the United Kingdom has enjoyed great financial benefits under the contract's first year.

"I think that Canadian farmers may well find that they enjoy at least equal benefits under the security it will give them in the later years," he added.

Opening a detailed defence of Government food policies Strachey termed the Canadian wheat agreement, negotiated a year ago, "perhaps the most important of all our long-term contracts."

The agreement provides for the purchase of 600,000,000 bushels of Canadian grain by the United Kingdom in four years with a fixed price of \$1.55 a bushel in the first two years, a minimum of \$1.25 in the third year and a \$1 minimum for the last two years. Actual prices for the last two years remain to be negotiated.

Strachey answered the accusation of gambling away millions of pounds of money by noting that Britain got 150,000,000 bushels of Canadian wheat at \$1.55 a bushel when the spot price for United States wheat in the Chicago market was between a low of \$2 and a high of \$3.

"There are people in Canada—not the Canadian farmers but the Canadian grain trade and the Conservative Opposition in the Canadian Parliament—who accuse us of having made far too hard a bargain," he continued.

Manitoba Buyers Warmly Commend P. E. Island Hogs

A high tribute to the quality of Prince Edward Island breeding hogs has been received by Mr. H. W. Clay, senior live stock fieldman, Department of Agriculture, from Messrs. Ward Bros. of Deepdale, Manitoba. The letter, which is dated June 26, reads as follows:

"Dear Sir: "In the Country Guide of last month was quite an article on P. E. I. pigs written by Mr. Colette. No doubt, you furnished him with some of his data.

"However, we have found our P. E. I. pigs exactly what is wanted in this interesting article. They are pigs which will just grow and grow without over-finish which is one thing our Western pigs will not do.

"The more we brought out must have weighed 400 pounds at one year of age. She has eight pigs. We used the boar also on some of our best native stock and the pigs give promise of being much like the sire. The litters are even in size and appear growthy.

"But I would like to say in passing that our Island sow is exactly what we want. She is well-headed, not fat jowl, good shoulders, strong back, straight up on good legs and clams and deep of side, loin and hip. If we can establish a herd of her kind we will be very fortunate.

"By the way, it will take a while to put over this different type of hog, but we are sure we Westerners are off on the wrong foot. We are sure we will be able to do it."

"We had a letter from Mr. John Norquay, Senior Live Stock Fieldman, and a very good friend of ours. He said he would be going east in August and wanted our opinion of Island hogs. He got it much as I have given it to you.

"The way, it will take a while to put over this different type of hog, but we are sure we Westerners are off on the wrong foot. We are sure we will be able to do it."

ed with a triple fatality in Lake Erie when a fishing craft carrying three men and three women on a pleasure cruise out of Port Rowan exploded and sank, apparently from gasoline fumes. Two men and a woman lost their lives; the three others were rescued.

Drowning also accounted for the deaths of four people in the Valin River near Chouinout, Que. Sunday, when first a girl went under water and then three men lost their lives in rescue attempts.

The various cases of double fatalities included the crash of a light plane at Lancaster, Ont., late in the afternoon of June 1, and a Saturday. Two young boys and a short time earlier lost their lives in this accident. A third airplane crash death resulted from a forced landing of a light plane near Belleville.

Of the drowning deaths, 17 were reported in Ontario up to early Tuesday night, and 16 in Quebec.

Other fatalities resulted from drowning also accounted for the deaths of two infants, one woman struck by lightning and one victim of heat in Toronto.

poses of it. Hence, in my opinion, the unilateral attempt of the Soviet delegate to remove this matter from the agenda is absolutely contrary to the Charter of the United Kingdom. It seems clear to me, if I may say so, that the Soviet delegate has reversed himself. In the light of that significant fact, my government feels that the Council would be falling in its duty if it took no further interest in the matter. It is still my hope that it will be kept on the agenda until summer, when, as I have said, it may well have become moot.

Soviet Union: During the discussion, I have entertained some doubts as to whether, behind the statements of some of the delegates, there was a real desire to see a peaceful solution to this matter. At the very moment when the reality of the situation shows there is no draft, certain representatives insist on making a maximum fuss about the matter.

Poland: I still feel a draft, maybe it is from the west. Australia: It is clear that this is a matter for a committee of experts. We are still lacking authentic information. We are...
