New Uprisings In Cuba Threatening

Record Vote Indicated (Canadian Press) VICTORIA, Sept. 15.—Indications today were British Columbia voters would poll the heaviest vote in the Province's history when the elections take place Nov. 2.

STATE POLICE PATROL COAL STRIKE AREA

Minor Clashes Occur in Pennsylvania, Where 30,000 Miners Are On Strike.

UNIONTOWN, Pa., Sept. 15.—(A.P.)—Under the watchful eyes of state police, quiet prevailed today in the southwestern Pennsylvania coal fields where more than 30,000 men are on strike.

The men quit in protest against delay in signing the code. Their leaders have said they will return to work if a code including recognition of the United Mine Workers of America is adopted.

McDonald, Secretary, 1159. *Don't miss the Tug-o-War and Sports in Graham's Road Park, Monday evening, September 18th. Heavyweights and Long River vs. Fishermen's Road Heavyweights, 1155.

Unique Memorial To Be Unveiled At Charlottetown

Tablet Commemorating Laying Of First Submarine Cable In America To Be Unveiled Sept. 20. Prof. D.C. Harvey To Preside Reference was made some time ago in these columns to the bronze tablet placed in front of the Provincial Building, Charlottetown, by the Historic Sites and Monuments Board of Canada, to commemorate the laying of the first submarine telegraph cable in America. As stated on the tablet, this cable, laid by Frederick Newton Gisborne on November 22, 1852, extended from Carleton Head, this Province, to Cape Tormentine, N. B. The formal unveiling of the tablet will take place on Wednesday, Sept. 20, at 3.30 p. m. Professor D. C. Harvey, M. A., a member of the Historic Sites and Monuments Board, will preside. The programme will consist of remarks by the chairman outlining the objects of the Board; the reading of a paper by Mr. A. E. Morrison on the early history of telegraphy in this Province; the unveiling of the tablet, and the reading of messages from senior executive officers of communication companies and press associations by Mr. J. M. Murley, Manager of the Canadian National Telegraphs in Prince Edward Island. A message from the superintendent of the trans-Canada Telegraph System will be spoken from Toronto and amplified to the audience. It is anticipated that a large number of people will take the opportunity of participating in this unique ceremony. Arrangements will be made for the attendance of school children. It is interesting to note that a nephew of Mr. Gisborne, who laid the cable which the ceremony commemorates is Dr. Francis Frederick Newton Gisborne Starr, Ottawa, President of the Royal College of Physicians and Surgeons of Canada. The cable was brought here on (Continued on Page 3)

Urges Against Delay Of Cuban Potato Shipments

HALIFAX, Sept. 15.—Lost markets may be suffered by Maritime exporters who delay potato shipments to Cuba because of a reported boycott of Canadian exports according to Senor Calisto Garcia Becerra, Cuban Consul in Halifax. The Consul declared there was no truth in the report Cuban dockworkers would refuse to handle Canadian goods because this country had afforded a refuge for their ex-patriated President, General Gerardo Machado. And he urged that potato exporters continue shipments as usual. Otherwise, he warned the United States might step in and capture a major part of the broadened market made available this year through partial failure of the Cuban crop. (Continued on Page 3)

Dominion Dollar Reaches Highest Level Since Mid July — U.S. Dollar Drops.

NEW YORK, Sept. 15.—The rising volume of inflation talk in the United States was reflected in a continued downward movement of the American dollar on foreign exchanges today. A new all-time low was reached as the dollar lumped down to a gold value of 67.59 cents, as measured against the French franc. A decline of but two-thirds of a cent on the day, the closing figure nevertheless represented a four-cent loss since the slump began Tuesday. On the opposite end of the exchange teeter-totter, the Canadian dollar, pound sterling and gold standard currencies went up as the United States dollar went down. The Dominion dollar touched 96 1/2, its highest level since mid-July and at its close of 96 1/2 showed a fifteen-sixteenths of one cent gain since Thursday. The pound sterling, at its top of \$4.68 1/2, showed a sharp gain of 5 1/2 cents. The French franc, at its finish of 5.80 1/2 cents was .09 1/4 of a cent stronger.

Ex-President Protests Seizure Of Jewelry

MONTREAL, Sept. 15.—Gerardo Machado, deposed President of Cuba, who is making a temporary home here, broke his customary silence today to protest against the seizure at Havana of his wife's strongboxes. "It is pure robbery," he declared when he learned a large sum in bonds and jewelry had been seized up by the Cuban authorities.

GALE SWEEPS OVER ATLANTIC COAST REGION

1,000 Are Believed Homeless In Tampico. WIDE DAMAGE Meagre Reports Tell Of Havoc Wrought By Gale. (Associated Press) BROWNSVILLE, Tex., Sept. 15.—F. S. Pier, manager of the Pan-American airport at Tampico, late today sent a radiogram to the New York offices of the company, saying that 32 persons had been killed and about 1,000 left homeless by the tropical hurricane which struck the Mexican city today. The message was relayed through the Pan-American office here. Pier said a great amount of property damage was caused by the storm. He told of having to ride horseback two hours to get from the city to the airport. Striking the mainland between Tuxpan and a point half way between Tampico and Brownsville, the storm unroofed a few homes in Tampico and sent huge waves against the shore. The Mexican tug Cernicelo was believed to have been lost. MEXICO CITY, Sept. 15.—With all communications to the northeast coast of Mexico interrupted, the country waited anxiously tonight for news of the tropical storm which struck this morning with hurricane force. Telegraph and telephone lines were destroyed by the storm and wireless communications broken. North of Tampico winds reached a maximum velocity of 75 miles an hour but it was impossible to determine what damage was caused. With the exception of Tampico the coast is mostly uninhabited. So if Tampico escaped the worst of the storm, it was believed there would be little if any loss of life. Last reports from Tampico said a 46-mile-an-hour wind was blowing.

Springhill Man Blows Head Off Hunting Deer

SPRINGHILL, N. S., Sept. 15.—"When you get a deer, daddy, will you bring it home on the front of the car?" Harold D. Fraser's school-girl daughter asked as she set off for classes. Fraser promised he would, and left for woods near his home to test his borrowed rifle. Five hours later, searchers found Fraser's body, the top of his head blown off. A coroner's jury decided today death had been accidental.

Deaths Increase In St. Louis

ST. LOUIS, Sept. 15.—(A.P.)—The fact there was only one death and 13 new cases of sleeping sickness in St. Louis County today gave added confirmation to the belief of health officers that the epidemic is "flattening out." The county death, with one in the city, sent the total deaths to 146 since the epidemic started.

Large Shipment Of Live Fowl To Montreal Market

Yesterday, the P. E. I. Co-operative Egg & Poultry Association shipped 2,800 live fowl to Montreal in a special car, known as a Poultry Pullman Car. Live poultry is shipped to Montreal to the Jewish people. This shipment was prepared and sent forward for the market, occurring for the feast of the "Day of Atonement," which falls on September 30th of this year. This year is known in the Jewish Calendar as the year 5694. For a number of years, the Egg & Poultry Association have been sending shipments of live fowl to these markets and formerly, ship-

SURVEY RECOMMENDS CONTROL OF FISHERY

Existence Of Health Hazard, Not Sufficient To Warrant Condemnation Of Beds But Requiring Careful Control, Is Report By Ottawa Officials. 750,000 Workers Employed WASHINGTON, Sept. 16.—(A.P.)—Frances Perkins, U. S. Secretary for Labor, estimated today that 750,000 workers returned to jobs in August and that payrolls in 89 of the principal manufacturing industries increased \$12,000,000, indicating "the success of the NRA and other efforts toward Industrial Recovery." The following report on the sanitary and bacteriological survey of oyster-producing areas about Charlottetown, has been received by Mr. W. Chester S. McLure, M. P., from the Hon. Murray MacLaren, M. D., Minister of Pensions and National Health. The report is the text of a memorandum submitted to Hon. Mr. MacLaren by Dr. J. J. Heagerty, Chief Executive, Assistant. The area surveyed includes the estuarial rivers, namely, the Hillsborough or East River, the York or North River, and the Eliot or West River. These three rivers unite to form a small bay, which is connected directly with Hillsborough Bay by means of a narrow gap. The City of Charlottetown is located on a peninsula which separates the Hillsborough and York Rivers. The sewage of Charlottetown and of several large institutions outside the city empties directly into these rivers. During low tide, the sewage flows into the small bay, while at high tide it is churned and thoroughly mixed and flushed well up the three rivers. Based upon what appears to be the limit of pollution by sewage from the vicinity of Charlottetown and, tentatively, until further examinations may be made, it is considered that oysters may be taken from the following areas: East Or Hillsborough River Oysters may be fished in and between Glenman River and Mount Stewart. North Or York River Oysters may be fished north of the Traffic Bridge only. (Continued on Page 3)

Roosevelt Urged To Use Inflationary Powers

WASHINGTON, Sept. 15.—(A.P.)—In the face of a calm White House silence on what may be done, Senatorial advocates of a currency inflation that would lift prices and stabilize monetary values in the United States today widened their campaign. Senator Thomas, Oklahoma Democrat, a leader in the Senate of the inflation group, sent a request to all Senators to send their views to him for presentation to President Roosevelt. His message followed closely a statement by Chairman Fletcher, Democrat from Florida, of the Senate Banking Committee, urging immediate expansion of "credit and currency," and a White House visit by Senator Harrison, Mississippi Democrat, in behalf of inflation. Fletcher joined Harrison, who is chairman of the Finance Committee and one of the Democratic leaders, in asking that President Roosevelt use the wide inflationary powers vested in him to aid farmers and the country as a whole.

N. B. Potatoes Finding Ready Market In U. S.

WINDSOR, Ont., Sept. 15.—New Brunswick potatoes are finding a ready market in Detroit, B. Franklin Smith, M. P. for Victoria-Charlton, said here today. Thirty-five carloads already have been placed in the United States city, he said, some of them to be used for seed purposes. The duty of 75 cents per hundredweight did not affect sales because Michigan buyers wanted high quality stock, their own crop not being as good this year as usual.

Trouble Trouble Trouble

SPRINGFIELD, Mo., Sept. 15.—(C.P.)—A man who said he had never been in trouble in all his 70 years was arrested three times within ten minutes here today. Taken to police court for driving a car without city license, H. C. Calton was fined \$3.15. He started to leave, muttering. The judge cited him \$5 for contempt. Then Calton got outside the door and the State Patrol arrested him for having no state license.

FISH AND GAME ASS'N ANNUAL MEETING HELD

Sportsmen Discuss Problems — Officers And Executive Appointed. Various matters having to do with shooting and fishing were discussed at the annual meeting of the Fish and Game Association last evening. Mr. Gilbert Gaudet, K. O., who was in the chair, was re-appointed president. A committee was appointed to take up the matter of securing an open season for the shooting of plover. The president in summing up the work of 1933 reported that the Association had not been successful in having representations which it had made carried out, and that requests had been ignored. In points where the Association had been successful it had been often thwarted by other means. Such a condition was disheartening. The activities of the Association did not elicit the sympathy of the authorities, it seemed. The hands of the officers appointed in
