Highway Problem Grave in Great Britain
Great Britain is making every effort to reduce the heavy death rate on the roads, which now reaches about 18 daily. Very heavy penalties have been introduced for dangerous driving. There are two distinct offenses, careless and dan-

gerous driving. Both are punishable by fines, and a term of imprisonment not exceeding three months may be given for dangerous driving. The speed limit has been abolished except in the case of commercial vehicles. Police patrols in motor cars have been introduced to enforce the new regulations.
