TELLS TEACHERS (Continued from Page 1) further the cause of self-help in their communities and thus assist their people in improving their economic condition by urging upon them their need of such organizations. Credit unions, he said, have been in existence in the Province for a relatively short time yet have now a membership of 9,500. The 52 credit unions in the Province have total savings of nearly \$800,000 and have loaned to its members during the last few years the sum of \$1,051,000 without incurring any of the most insignificant loss. "The fact that 'co-operation' is in the course of studies at Prince of Wales will have an increasingly beneficial effect as the years pass because the students who master its principles will be able to go forth and inculcate its doctrine among those who need to know the most - the producers of the Province. Other interesting and instructive talks were delivered by Mr. J.P. MacInnis, who spoke on cancer control; by Miss Mary Sherwood who spoke on the work of the Blue Red Cross First Aid; by Miss Estelle Haines, B. Sc. on nutrition; and by Mrs. Robert MacCallum on Red Cross activities. Mr. B.C. Silver, Inspector of schools for Halifax County, kept the teachers interested for an hour as he illustrated the proper methods to be used in teaching school children the art of singing.

MONTHLY MEETING OF SUMMERSIDE BOARD OF TRADE - At the regular monthly meeting of the Summerside Board of Trade held last night in the civic building, Dr. John F. MacNeill called the attention of the members to the very unsatisfactory Pullman service for passengers travelling from Montreal to Prince Edward Island. It was agreed that no complaints were in order as far as passage from the Province to Montreal was concerned, but in the case of the return trip during the winter months Pullman cars were attached to the Ocean Limited, which leaves Montreal at eight o'clock, and upon arrival in Moncton were sidetracked and were not picked up until next day.

RUSSIANS CUT (Continued from Page 1) way the Russians can interfere is to attempt to force or shoot them down. It seemed apparent any such attempt would bring serious international incidents. British authorities also announced two extra trips into Berlin as a temporary measure. The British also verified reports that Russian border posts had been strengthened by the addition of 10 or a dozen men at each place presumably to bolster the guard against border crossers.
