**Price on application.**

Owing to a large excess of Assets over Capital, a portion of these Assets were recently applied to cancellation of the uncalled Capital Stock, increasing the Paid Up Capital from $120,000 to $240,000. As will be seen from the above figures these Assets still represent a large surplus over Capital. Net earnings for 1005 were over 20 p. c. upon the old capitalization and more than 10 p. c. upon the increased capital. Doubtless equally favorable results will be attained for the present year. This stock is now sold as fully paid.
