

IMPORTANT READING MATTER SELECTED FROM THIS WEEK'S NEWS FOR THE GUARDIAN'S SATURDAY SUBSCRIBERS

MILTON, Ont., May 23—The shareholders of the Farmers' bank living in Halton county met here today to fight the curators' call for double liability.

The secretary said that he welcomed the evidence that the bill afforded of the need of reforming the house of lords, but the government held that the passage of the veto bill was essential before any steps were taken in that direction.

The bill will be given its second reading; that attempts will be made to amend it in committee, and that the government will refuse to accept such amendments, or disclose its own plan for reforming the second chamber.

LONDON, May 20.—Lord Lansdowne's bill for the reconstruction of the house of lords passed its second reading in that house today without division, after Secretary of War Haldane had announced that the government would not divide against it.

The second reading of the veto bill will be moved in the house of lords to-morrow. The debate is likely to last for some days, but in parliamentary circles it is generally believed

LONDON, May 21—By the unanimous vote of the London district a Methodist meeting adopted a resolution favoring the church union basis. The Ne Temere decree was condemned.

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them. 25c. a box.

sed to 7,252,963 from 6,581,402 in 1901. This is entered in the outer ring showing that people are moving from the more crowded centres. In fact the Old Metropolitan Borough and City of London Proper have lost their population to the suburbs.

The county of London including the city and Borough immediately around it show a decrease from 4,536,267 in 1901 to 4,522,961 in 1911.

J. H. Ringwood Trotting Bred Carriage Stallion Sire of Longboat 2.21 and Other Good Ones.

RINGWOOD is a well bred Stallion being by Precursor 2.28, son of Nutwood 2.24, sire of 114 2.30 performers, average of over 100 in list. His daughters have produced 70 in 2.30. His dam is the famous stock Pilot 2.21.4, the best known horse in this Province. His grand dam is the wonderful, hardy game mare known as the Mallus of Newbury, Mare, sired by French Lion out of a Melmus Pony Mare. As Black Point dam is by Melmus Pony, Ringwood has two crosses of French Canadian blood through him. Another French Canadian from Flying Frenchman through French Lion, and yet another through Nutwood's dam, Miss Roney, Pilot Jr. He by Canadian Pacing Pilot, and G. granddam is by thoroughbred Imp. Star, a stallion whose sire is traced to the Scotch for extremely high action. In Ringwood, breeders have a horse of excellent build with good action all round. He is strong across the drivers easy to train, having the necessary speed and stamina, which brings the big money. His colts at last had a Presidential Exhibition took first and second prize in the carriage classes. He will stand at the owner's stables, 69 Gratton St. for season of 1911. Mares at owner's risk. For further particulars apply to F. W. HUGHES, Owner, 5-24mtdr13pd.

Why Our Work Excels

Our plumbing service is regarded by many patrons as almost perfect—an unusually strong tribute from those who know. Plumbing is not mere guess work or a side line with us. We have studied, practised and mastered the trade thoroughly. Our workmen are the most skillful in the Province, and all the work is done promptly and efficiently. Phone 393-J. for plumbing perfection. Fred H. Trainor, Opposite Opera House

What will it be This Year? An Ordinary Crop or A Better One?

Are you satisfied with getting meagre returns for your labor, time and trouble on the farm or will you make sure of a larger and better crop and use these unmixed fertilizers? There's only one way to make your land produce its maximum yield each year and that is by supplying all the necessary elements of fertilization that the ground requires. And the only way to supply these elements, accurately, scientifically and economically is by using unmixed fertilizers.

Give These Fertilizers A Thorough Test.

Don't take our say—so about the good points of these fertilizers. Put them to practical tests. Make an experiment. We know that the ground treated with these unmixed fertilizers will produce better and greater results than ground treated any other way. We know that once you see these fertilizers you will never go back to any other kind. We know these fertilizers will bring you more money, larger crops and mean less work for you.

Write for free illustrated booklet on fertilizers and farming. AULD BROS Lower Queen St. Charlottetown drsttstf.

Farm For Sale

The undersigned offers at Private Sale splendid farm on the Upper North River Road containing about 60 acres of land, good house and barn. About five miles from Charlottetown by summer and three and a half miles by winter route. Farm in good state of cultivation, well fenced and beautifully situated fronting on North River Shore. The above will be sold very cheaply if disposed of at once. Address all enquiries to W. B. PROWSE, In Care of Prowse Bros. Ltd. 5-13drf.

Methods of Applying Fertilizers

Fertilizers may be applied by hand or by machine. Some modern grain seeders, potato and corn planters, have attachment for sowing fertilizers, there are now some makes of broadcast fertilizer distributors on the market. Where large quantities of fertilizers have to be applied the machine is a great labor-saver, and by its use a more equal distribution is insured. Generally speaking the broadcasting machine is preferred to the drill or to any of the other mechanical devices referred to.

Broadcasting by hand is easily and simply performed. The sowing "hopper" or basket might be described as a crescent-shaped canvas-covered frame, with waist and shoulder straps attached. Both hands are used in the operation, and to obtain the proper rhythmical motion it is important to note that the right arm is swung backwards from the hopper as the left foot advances, and vice versa. The length of the stride can be adjusted to the thickness of sowing desired. The breadth of cast is usually about the width of four potato or turnip rows.

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.
